Who The World Health Report 2006:

The World Health Report 2008 World Health Organization, 2008 Provides information on medical care and health care policy from around the world *Public Health Reports*, 2007 **The New Public Health** Theodore H. Tulchinsky, Elena A. Varavikova, 2009 Linking classical public health and intervention with evolving healthcare strategies and policies for the 21st century The New Public Health provides a broad perspective on current issues the kinds of solutions expectations needed in the future **Security and Development in Global Politics** Joanna Spear, Paul D. Williams, 2012-03-06 Security and development matter they often involve issues of life and death and they determine the allocation of truly staggering amounts of the world's resources Particularly since the start of the wars in Afghanistan and Iraq there has been momentum in policy circles to merge the issues of security and development to attempt to end conflicts create durable peace strengthen failing states and promote the conditions necessary for people to lead healthier and more prosperous lives In many ways this blending of security and development agendas seems admirable and designed to produce positive outcomes all around However it is often the case that the two concepts in combination do not receive equal weight with security issues getting priority over development concerns This is not desirable and actually undermines security in the longer term Moreover there are major challenges in practice when security practitioners and development practitioners are asked to agree on priorities and work together Security and Development in Global Politics illuminates the common points of interest but also the significant differences between security and development agendas and approaches to problem solving With insightful chapter pairings each written by a development expert and a security analyst the book explores seven core international issues aid humanitarian assistance governance health poverty trade and resources and demography Using this comparative structure the book effectively assesses the extent to which there really is a nexus between security and development and most importantly whether the link should be encouraged or resisted **Labor and Health Economics in the Mediterranean Region: Migration and Mobility of Medical Doctors** Driouchi, Ahmed, 2013-11-30 The increasing demand for health care and advances in healthcare technologies has exacerbated the present shortage of health personnel In response to these changes physicians may choose to offer their services elsewhere Labor and Health Economics in the Mediterranean Region Migration and Mobility of Medical Doctors addresses the mobility of physicians in the Mediterranean region within a global context focusing on the role mobility has played in the global health system in both developed and developing economies Besides universities and researchers public and private medical practitioners and agencies can make use of this book to further their knowledge of the changing healthcare industry **Migration, Health and Inequality** Felicity Thomas, Doctor Jasmine Gideon, 2013-01-10 Should migrants have the same rights as citizens to health care services What do we mean by rights and by health And how do we uphold such rights when diasporic networks provide a diversity of opportunities and constraints for people seeking to maintain or restore their health Answering these pressing questions this

book highlights recent developments in the areas of migration human rights and health from a range of countries Looking at diverse health issues from HIV to reproductive and maternal health and a variety of forms of migration including asylum seeking labour migration and trafficking this timely volume exposes the factors that contribute to the vulnerability of different mobile groups as they seek to uphold their wellbeing Migration Health and Inequality argues that we need to look beyond host country responses and biomedical frameworks and include both the role of transnational health networks and indigenous popular or lay ideas about health when trying to understand why many migrants suffer from low levels of health relative to their host population Offering a broad range of linkages between migrant agency transnationalism and diaspora mechanisms this unique collection also looks at the impact of migrant health on the health and rights of those communities that are left behind

Kapollogwe, Albino Kalolo, 2023-02-01 Good leadership and governance at all levels of the healthcare system is necessary for better performance of the system and health outcomes Lack of good leadership and governance practices can lead to misuse of health system inputs such as human resources health commodities and financial resources hence lowering the quality of services delivered Thus this guide was developed through collaborative efforts envisioned to respond to the needs of improving good governance practices at the primary healthcare level in resource limited healthcare systems Key Features Improves the

management of primary health facilities Helps the health facility managers and teams at primary healthcare level to effectively and efficiently lead and manage the facilities Enumerates practical scenarios on health issues that commonly occur in health facilities and provides alternative ways of addressing the issues raised in the scenarios **The Oxford Handbook of Public Health Ethics** Anna C. Mastroianni, Jeffrey P. Kahn, Nancy E. Kass, 2019 Public health raises critical ethics issues and concerns making public health ethics an essential topic for students and public health professionals The 73 chapters in this volume examine public health ethics across a broad range of public health topics both in the U S and globally It is the first ever comprehensive collection devoted to public health ethics Chop Fine Chris Albin-Lackey, Human Rights Watch (Organization), 2007 Recommendations Methodology Background and context Oil poverty and governance in Nigeria Local government corruption and mismanagement in River State an overview Impact of local government corruption and mismanagement on primary education and primary health care in Rivers State Roots of local level corruption in Rivers State Nigeria's obligation under international law Nigerian government efforts to fight corruption International efforts to promote transparency and fight corruption Agent-Based Modelling in Population Studies André Grow, Jan Van Bavel, 2016-08-11 This book examines the use of agent based modelling ABM in population studies from concepts to applications best practices to future developments It features papers written by leading experts in the field that will help readers to better understand the usefulness of ABM for population projections how ABM can be injected with empirical data to achieve a better match between model and reality how geographic information can be fruitfully used in ABM and how ABM results can be reported effectively and correctly Coverage ranges from detailing the relation between ABM and existing paradigms in population studies to infusing agent based models with empirical data The papers show the benefits that ABM offers the field including enhanced theory formation by better linking the micro level with the macro level the ability to represent populations more adequately as complex systems and the possibility to study rare events and the implications of alternative mechanisms in artificial laboratories In addition readers will discover guidelines and best practices with detailed examples of how to apply agent based models in different areas of population research including human mating behaviour migration and socio structural determinants of health behaviours Earlier versions of the papers in this book have been presented at the workshop Recent Developments and Future Directions in Agent Based Modelling in Population Studies which took place at the University of Leuven KU Leuven Belgium in September 2014 The book will contribute to the development of best practices in the field and will provide a solid point of reference for scholars who want to start using agent based modelling in their own research **Population and Development** W.T.S. Gould, 2008-11-19 Population and Development addresses important issues at the heart of the problems of developing countries How these countries address the common difficulties of population growth including mortality and fertility decline population redistribution including internal migration and urbanization and also international migration for both source countries and for destination countries How and why has

population change affected development both positively and negatively How and why has development affected population change both growth and distribution The book opens with an introduction preceding the ten substantive chapters covering some of the broader issues for population studies and development studies and the relationships between them The first three chapters set out the main concepts and theoretical discussions on how population affects development and also how development affects population Detailed chapters then cover each of the three main components of population change fertility mortality and finally migration These are followed by chapters on the impacts of age structures including the potential for a demographic dividend and of the more qualitative aspects of human resource development through formal education and ICTs with further chapters on population policies and population futures The book incorporates illustrative text boxes and case studies on regions in Africa the Middle East and Asia which elaborate the broader theoretical and conceptual substance of the ten major chapters Each chapter has Discussion Questions and Sources and Further Reading sections and there is an extensive integrated References section The arguments of the book bring together a large but fairly loosely integrated literature from population studies development studies and geography in a conceptually coordinated empirically wide ranging and challenging discussion It is targeted at an audience in undergraduate courses in Geography and in Masters courses in Development Studies and Population Studies The books succinct but erudite structure means it can be used either as a course text book or as a basic reference on a range of current issues and likely concerns at the interface between Geography Development Studies and Population Studies

The Health Workforce in Latin America and the Caribbean Carmen Carpio, Natalia Santiago Bench, 2015-06-25 This report provides a status update on the human resources for health HRH sub system in six Latin American and Caribbean countries Colombia Costa Rica Jamaica Panama Peru and Uruguay The report structures its discussion around how the health workforce is financed organized managed regulated and performing In the area of financing the study presents the variety of contracting mechanisms salary levels and financial incentives offered across the countries and their role in being able to attract and retain health workers On the organization of the HRH sub system the report looks at the skill mix training and distribution of health care workers concluding that although the countries have made progress towards achieving key HRH targets and in making education more accessible there continues to be limited absorption capacity for graduates the Primary Health Care focus of training programs needs to be strengthened and strategies to encourage rural service have not been able to fully address the gap in the distribution of health workers In reviewing management strategies for HRH the report presents how all countries have adopted the WHO Global Code of Practice on the International Recruitment of Health Personnel to recognize foreign trained professionals to help address shortages and fill gaps of health worker presence in rural remote areas However the countries continue to struggle with putting self sufficiency policies in place to meet HRH needs such as the lack of promotion plans limited non monetary incentives and the shortage of personnel for recruitment and eventual placement In the area of regulation the

report presents the countries efforts to reduce precarious employment and introduce HRH safety policies and legislation to regulate disputes and negotiations On performance the report found mixed results in the areas of access availability to health workers and quality of care factors discouraging dual practice and unjustified absenteeism of health workers *Opioids in Cancer Pain* Mellar P. Davis,2009-05-28 Opioids can be effective in relieving pain in more than 90% of cancer patients However often irrational fears from both patients and clinicians persist about the potential for addiction meaning treatable pain continues to be tolerated This book offers clear guidelines on the use of opioids when managing cancer pain

Saving for Development Inter-American Development Bank,2016-07-08 Why should people and economies save This book on the savings problem in Latin America and the Caribbean suggests that while saving to survive the bad times is important saving to thrive in the good times is what really counts People must save to invest in health and education live productive and fulfilling lives and make the most of their retirement years Firms must save to grow their enterprises employ more workers in better jobs and produce quality goods Governments must save to build the infrastructure required by a productive economy provide quality services to their citizens and assure their senior citizens a dignified worry free retirement In short countries must save not for the proverbial rainy day but for a sunny day a time when everyone can bask in the benefits of growth prosperity and well being This book is open access under a CC BY NC ND 3 0 IGO license *Mental Illnesses* Luciano LaBate,2012-01-13 In the book Mental Illnesses Evaluation Treatments and Implications attention is focused on background factors underlying mental illness It is crucial that mental illness be evaluated thoroughly if we want to understand its nature predict its long term outcome and treat it with specific rather than generic treatment such as pharmacotherapy for instance

Additionally community wide and cognitive behavioral approaches need to be combined to decrease the severity of symptoms of mental illness Unfortunately those who should profit the most by combination of treatments often times refuse treatment or show poor adherence to treatment maintenance Most importantly what are the implications of the above for the mental health community Mental illness cannot be treated with one single form of treatment Combined individual community and socially oriented treatments including recent distance writing technologies will hopefully allow a more integrated approach to decrease mental illness world wide *The State of the World's Children 2009* UNICEF.,2008 Having a child remains one of the biggest health risks for women worldwide Fifteen hundred women die every day while giving birth That s a half a million mothers every year UNICEF s flagship publication *The State of the World s Children 2009* addresses maternal mortality one of the most intractable problems for development work The difference in pregnancy risk between women in developing countries and their peers in the industrialised world is often termed the greatest health divide in the world A woman in Niger has a one in seven chance of dying during the course of her lifetime from complications during pregnancy or delivery That s in stark contrast to the risk for mothers in America where it s one in 4 800 or in Ireland where it s just one in 48 000 Addressing that gap is a multidisciplinary challenge requiring an emphasis on education human resources community involvement and social equality At a minimum women must be guaranteed antenatal care skilled birth attendants and emergency obstetrics and postpartum care These essential interventions will only be guaranteed within the context of improved education and the abolition of discrimination
