**Global tuberculosis report 2020** World Health Organization, 2020-10-14 Global Tuberculosis Control World Health Organization, 2007 This is the 11th WHO annual report which assesses the progress during 2005 towards the Millennium Development Goals targets for TB control in the world as a whole and in each WHO region and country focusing on five key indicators of case detection treatment success incidence prevalence and deaths It includes data on case notifications and treatment outcomes from 200 national TB control programmes and an analysis of plans budgets expenditures and progress in DOTS Directly Observed Therapy Short Course strategies for 22 high burden countries It summarises progress on initiatives including the development of public private partnerships in TB control human resource development the management of drug resistant TB and collaborations in TB and HIV AIDS control Findings include that in 2005 there were 8.8 million new cases of TB and an estimated 1.6 million deaths from TB including those co infected with HIV The TB incidence rate was stable or falling in all six WHO regions and had reached a peak worldwide However the total number of new TB cases was still rising slowly because the case load continued to grow in the African Eastern Mediterranean and South east Asia regions

**Global Tuberculosis Report 2013** World Health Organization, 2013 This is the eighteenth global report on tuberculosis TB published by WHO in a series that started in 1997 It provides a comprehensive and up to date assessment of the TB epidemic and progress in implementing and financing TB prevention care and control at global regional and country levels using data reported by almost 200 countries that account for over 99% of the world's TB cases Two years before the 2015 deadline for achievement of global TB targets the 2013 report includes a special supplement that assesses progress towards the 2015 targets and the actions needed to accelerate towards or move beyond them The report has 8 main chapters The introductory chapter provides general background on TB as well as an explanation of global targets for TB control the WHO's Stop TB Strategy that covers the period 2006-2015 and the development of a post 2015 global TB strategy The remaining seven chapters cover the disease burden caused by TB incidence prevalence mortality TB case notifications and treatment

outcomes drug resistance surveillance among TB patients and the programmatic response in detecting and providing treatment for multidrug resistant TB diagnostics and laboratory strengthening for TB addressing the co epidemics of TB and HIV financing TB care and control and research and development for new TB diagnostics drugs and vaccines The four annexes of the report include a thorough explanation of methods used to estimate the burden of disease caused by TB one page profiles for 22 high TB burden countries and tables of data on key indicators for all countries organized by WHO region

National tuberculosis prevalence surveys 2007-2016 ,2021-05-03 Between 2007 and the end of 2016 24 countries implemented a total of 25 national tuberculosis prevalence surveys using methods recommended by WHO The 25 surveys consisted of 13 in Asia and 12 in Africa Collectively survey findings have informed the policies plans and programmatic actions needed to address gaps in TB diagnosis and treatment and to reduce the burden of TB disease Finally the 24 countries have a robust baseline for assessing progress towards new global targets set in the UN Sustainable Development Goals 2016 2030 and WHO s End TB Strategy 2016 2035 The methods results successes achieved challenges faced and lessons learned from the 25 surveys were comprehensively documented in the book We viewed such a product as a global public good that should be available to all those with an interest in and commitment to using survey findings now and in the future e g academics donors public health officers and national TB programmes As with implementation of the 25 surveys themselves the book is the result of a major global regional and national collaborative and collective effort with more than 450 contributors from all around the world *Tuberculosis Control in Migrating Population* Wei-ye Yu,Pu-Xuan Lu,Wei-guo Tan,2019-11-25 With the rapid development of economy and international communication world population mobility increase significantly As migrating population is one of vulnerable populations to infectious diseases strengthening monitoring system and intervention approaches will be a key factor in controlling the spread of infectious diseases This book is intended to provide valuable information on creating effective prevention and intervention strategies of tuberculosis taking Shenzhen one of typical immigrant cities as an example Followed by overview of tuberculosis the control strategy diagnosis and treatment of tuberculosis drug resistant tuberculosis and HIV associated tuberculosis in migrating population is introduced In addition application of innovative technologies for example internet molecular biology and artificial intelligence in tuberculosis control is presented It will be a useful reference for practitioners in centers for infectious disease control and prevention hospitals academic institutions as well as staff in government agencies and non government organizations with interests in tuberculosis prevention and control *Communicative Freedom* Willem Fourie,2012 Freedom is modernity s most important promise but also its most controversial promise No other concept has led to so many expectations disappointments changes and destruction This book examines German theologian and ethicist Wolfgang Huber s concept of communicative freedom which is proposed as a contribution to the debate on freedom within modernity It is argued that communicative freedom integrates radically different understandings of freedom into one comprehensive concept This concept allows for a

constructive and critical affirmation of modernity Series Theology in the Public Square Theologie in der Öffentlichkeit Vol 3

**The Health of Newcomers** Patricia Illingworth, Wendy E. Parmet, 2017-01-24 Immigration and health care are hotly debated and contentious issues Policies that relate to both issues to the health of newcomers often reflect misimpressions about immigrants and their impact on health care systems Despite the fact that immigrants are typically younger and healthier than natives and that many immigrants play a vital role as care givers in their new lands native citizens are often reluctant to extend basic health care to immigrants choosing instead to let them suffer to let them die prematurely or to expedite their return to their home lands Likewise many nations turn against immigrants when epidemics such as Ebola strike under the false belief that native populations can be kept well only if immigrants are kept out In The Health of Newcomers Patricia Illingworth and Wendy E Parmet demonstrate how shortsighted and dangerous it is to craft health policy on the basis of ethnocentrism and xenophobia Because health is a global public good and people benefit from the health of neighbor and stranger alike it is in everyone s interest to ensure the health of all Drawing on rigorous legal and ethical arguments and empirical studies as well as deeply personal stories of immigrant struggles Illingworth and Parmet make the compelling case that global phenomena such as poverty the medical brain drain organ tourism and climate change ought to inform the health policy we craft for newcomers and natives alike

The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and thrilling novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
