The Electric Force

§ 2.1 The Electric Charge (again)

The smallest positive charge is the charge of the proton.
Its value is $+1.6 \times 10^{-19}$ **Coulomb (C)**.

Likewise, the smallest negative charge is the charge of the electron.
Its value is -1.6×10^{-19} **Coulomb (C)**.

These charges are equal in magnitude only: they carry different signs.
The electric charge is a **scalar**.
The Coulomb is the unit of the electric charge in the SI system.

To make the writing easier, we define the quantity e as the **elementary charge of the proton** and we write:

$$e = 1.6 \times 10^{-19} \text{ C.}$$

To refer to a charge in a general context, we use the variables q , Q , etc.
Therefore, the charges of the electron (q_e) and proton (q_p) can be respectively expressed as

$$q_e = -e \quad \text{and} \quad q_p = +e.$$

The electric charge is **conserved** in a closed system. In other words, a charge cannot be created out of nothing.

No charge can be smaller than the elementary charge and any charge is a multiple of the elementary charge. As a consequence, we say that the **electric charge is quantized**.

The proton and the electron being so small are called **point charges**.
If an arbitrary charge is called a point charge, it means that its dimensions are so small that they can be neglected.

Charges are often expressed in **mC** (milliCoulomb or 10^{-3} C),
 μC (microCoulomb or 10^{-6} C) and **nC** (nanoCoulomb or 10^{-9} C).

Research in Education, 1973 **Title List of Documents Made Publicly Available**, 1990 Pioneering Socio-Critical Approaches in English as a Foreign Language (EFL) Research Férrez Mora, Pedro Antonio, Coyle, Yvette, 2025-07-23 Rather than viewing language learning as solely a cognitive process, researchers today believe that using a socio-critical perspective creates equity within the English as a Foreign Language (EFL) community. These approaches challenge traditional paradigms by examining how social structures, ideologies, and classroom practices influence learners' experiences and opportunities. The importance of integrating socio-critical frameworks into EFL research highlights the potential to foster more inclusive, reflective, and socially responsive language education. Pioneering Socio-Critical Approaches in English as a Foreign Language (EFL) Research explores the change in traditional teaching of EFL. This book contemplates the issues and challenges with traditional teaching using real-world examples. Covering topics such as classroom practice, language learning, and translanguaging, this book is an excellent resource for academicians, educators, researchers, faculty, policymakers, administrators, and more.

On The Move to Meaningful Internet Systems 2003: CoopIS, DOA, and ODBASE Zahir Tari, Douglas C. Schmidt, 2003-10-25 missions in fact also treat an envisaged mutual impact among them. As for the 2002 edition in Irvine, the organizers wanted to stimulate this cross-pollination with a program of shared famous keynote speakers.

this year we got Sycara ble Soley and Mylopoulos and encouraged multiple attendance by providing authors with free access to another conference or workshop of their choice We received an even larger number of submissions than last year for the three conferences 360 in total and the workshops 170 in total Not only can we therefore again claim a measurable success in attracting a representative volume of scientific papers but such a harvest allowed the program committees of course to compose a high quality cross section of worldwide research in the areas covered In spite of the increased number of submissions the Program Chairs of the three main conferences decided to accept only approximately the same number of papers for presentation and publication as in 2002 i e around 1 paper out of every 4 5 submitted For the workshops the acceptance rate was about 1 in 2 Also for this reason we decided to separate the proceedings into two volumes with their own titles and we are grateful to Springer Verlag for their collaboration in producing these two books The reviewing process by the respective program committees was very professional and each paper in the main conferences was reviewed by at least three referees
