Addiction John Hoffman, Susan Froemke, 2007-03-06 One question that anyone who has witnessed addiction up close inevitably asks is Why can't they just stop For decades the question has confounded addicts their families and the doctors and specialists trying to help them Now it can finally be answered Thanks to major leaps in the scientific understanding of addiction an entirely new portrait of this frightening disease has come into focus The new science tells us that addicts in part are unable to quit using drugs or alcohol because chemical changes in their brains prevent them from doing so In this penetrating look at how addiction works editors John Hoffman and Susan Froemke producers of the HBO documentary series ADDICTION have turned more than two years of research and reporting into a vitally important guide for any family faced with the disease New imaging technology has enabled scientists to peer inside the addicted brain and observe in real time what craving for drugs and alcohol looks like chemically It is now possible to literally see the ways that substances like cocaine heroin and alcohol alter the brain's Stop and Go decision making processes Better scientific understanding has yielded innovations in behavioral therapies while new medications that can be prescribed by family doctors have been clinically proven to reduce craving in alcoholics and opiate addicts The result As Addiction Why Can't They Just Stop reports in riveting detail there is new hope for anyone struggling with addiction The stories about scientists doctors researchers and families that face addiction gathered in this book testify to the fact that the tide has turned Yes recovery remains an imperfect process It must be tailored to the needs of the individual it may take years to achieve remission But armed with the new science based understanding of the disease experts have created treatments that are ever more precise and effective making recovery a realistic goal for all addicts The evidence is in The battle against the addiction epidemic can and should be won
