

Short Essay on Safety First in 200 Words

Safety means any kind of protection that we observe regularly. And safety first also means making safety our biggest priority. Maintaining safety is extremely important to us. It will keep our family and society safe and sound. The country must have responsible citizens who can maintain safety. So being safe is for the good of everyone.

We must always maintain safety measures. Be it in our home or outside, it will help us to live much better. Today we observe how difficult it is to walk peacefully on the roads. It is because people do not follow safety measures. Some bike riders drive very rashly. They do not care about the pedestrians or people walking on the road. Often it creates accidents. These accidents are fatal and can kill them as well.

The drivers do not consider driving safely and slowly. They drive the car or the bus at full speed. As a result, many people daily meet accidents on the roads. Even animals are not free of these dangers. Little kids and aged people feel scared to go alone on the roads.

Even in our homes, we forget to follow safety measures. So we face several problems and are hurt severely. The dangers can become serious if we ignore our safety. So safety first is our greatest duty to everyone in our country.
