Overcoming Textbook Fatigue ReLeah Cossett Lent, 2012-11-14 Overcoming textbook fatigue means reaching within and beyond the textbook to access all sorts of 21st century tools the same ones that students will be using in college careers and daily life ReLeah Cossett Lent Textbook fatigue is a malaise that negatively affects teachers and students It is the result of scripted programs and step by step teachers manuals that dismiss the individualization of schools teachers and students Because textbooks provide a one way distillation of information aimed at a broad generic population they offer little to engage or pique the interest of the 30 individuals in a classroom In this example packed book ReLeah Cossett Lent shows how educators can reclaim the curriculum by shifting the textbook from sole source to resource She also gives advice on using Common Core State Standards throughout the school and in the classroom Teachers coaches curriculum coordinators and administrators will discover proven techniques that will revitalize teaching and learning in every content area Discipline specific writing activities that extend and deepen lessons Strategies for using content specific materials that encourage students to read to learn Effective vocabulary strategies that work throughout the curriculum Methods to tap into and build background knowledge Fun activities that use relevant life skills to involve and engage students in learning Lent highlights what s to be gained from loosening the grip on textbooks and provides practical guidance on how to accomplish that goal using real life examples from schools that have made the change Overcoming Textbook Fatigue is brimming with ideas to restore the joy of teaching and learning and in the process boost student achievement Lent is a 20 year teaching veteran an award winning author and an experienced international consultant specializing in literacy and communities of practice

The New Landscape of Mobile Learning Charles Miller, Aaron Doering, 2014-02-24 The New Landscape of Mobile Learning is the first book to provide a research based overview of the largely untapped array of potential tools that m Learning offers educators and students in face to face hybrid and distance education This cutting edge guide provides An essential explanation of the

emergence and role of Apps in education Design guidelines for educational Apps Case studies and student narratives from across the US describing successful App integration into both K 12 and Higher Education Robust research based evaluation criteria for educational Apps Although many believe that Apps have the potential to create opportunities for transformative mobile education a disparity currently exists between the individuals responsible for creating Apps i e developers who often have little to no instructional experience and the ultimate consumers in the classroom i e K 20 educators and students The New Landscape of Mobile Learning bridges this gap by illuminating critical design integration and evaluation narratives from leaders in the instructional design distance education and mobile learning fields

Getting Textbooks to Every Child in Sub-Saharan Africa Birger Fredriksen, Sukhdeep Brar, 2015-05-22 Textbooks play a key role in enhancing the quality of learning especially in the context of low income Sub Saharan African SSA countries characterized by large class size poorly motivated and inadequately trained teachers and short effective school years There are also high rates of illiteracy among parents and few reading materials at home for the student to bank on Despite extensive investments by governments the World Bank and other development partners the majority of students in primary and secondary schools in SSA still lack the benefit of access to textbooks and the key reason for this shortage is affordability textbooks are generally much more costly in SSA than in other developing regions The need to increase access to key learning resources is of particular urgency because most African countries experience low learning outcomes which in part contributes to a high drop out rate Only two thirds of those who enter school reach the final grade and only about half of these master basic numeracy and literacy skills And although quality improvement depends on many factors inside and outside the school there is wide agreement that availability of textbooks is both an indispensable and a cost effective way of improving the quality of the learning process A recent World Bank study examined the actual costs of textbooks the scope for cost reduction the portion of a national budget countries allocate to teaching and learning materials TLMs and hurdles in the way of making textbooks available to student Some interesting findings from the study The availability of affordable textbooks to all students could be dramatically improved by devoting an estimated 3 to 4 percent of the primary education budget and 6 to 7 percent of the secondary education budget The production process methods copyright length of print runs effective procurement practices rather than the production costs should be the target of cost saving strategies The increased integration of ICTs into education in SSA can provide important opportunities for promoting availability of electronic TLMs but electronic TLMs are not a substitute for printed TLMs including textbooks

Technology, Multimodality and Learning Germán Canale, 2019-08-29 This book introduces multimodality and technology as key concepts for understanding learning in the 21st century The author investigates how a nationwide socio educational policy in Uruguay becomes recontextualised across time space scales impacting interaction and learning in an English as a Foreign Language classroom The book introduces scalar analysis to better understand the situated and fractal nature of education policy as meaning making subsequently defining learning from

a multimodal socio semiotic approach The analytical integration of different policy scales shows what policy means to various stakeholders and what learning means for students and teachers This depends both on how they position themselves and how they engage with the policy educational media This innovative book will appeal to students and scholars of technology and learning as well as multimodality *New Media and Learning in the 21st Century* Tzu-Bin Lin,Victor Chen,Ching Sing Chai,2015-02-25 This volume brings together conceptualizations and empirical studies that explore the socio cultural dimension of new media and its implications on learning in the 21st century classroom The authors articulate their vision of new media enhanced learning at a global level The high level concept is then re examined for different degrees of contextualization and localization for example how a specific form of new media e reader changes specific activities in different cultures In addition studies based in Singapore classrooms provide insights as to how these concepts are being transformed and implemented by a co constructive effort on the part of researchers teachers and students Singapore classrooms offer a unique environment to study the theory practice nexus in that they are high achieving implicitly grounded in the eastern cultural values and well equipped with ICT infrastructure While these studies are arguably the state of the art exemplars that synergize socio cultural and technological affordances of the current learning environments they also serve as improvable ideas for further innovations The interplay between theory and practice lends support to the reciprocal improvements for both This book contributes to the continuing debate in the field and will lead to better learning environments in the 21st century Reasoning : Verbal, Non Verbal & Analytical Book (English Edition) - 40 Topic-wise Solved Tests (1300+ Solved MCQs) with Free Access to Online Tests EduGorilla Prep Experts, *Psychological and Pedagogical Considerations in Digital Textbook Use and Development* Railean, Elena,2015-04-30 This book offers balanced coverage of the technological solutions that contribute to the design of digital textbooks and contribute to achieving learning objectives offering an emphasis on assessment mechanisms and learning theory **The No Shelf Required Guide to E-book Purchasing** Sue Polanka,2011-12 Library Technology Reports vol 47 no 8 According to recent studies e book penetration in libraries of all types is rising rapidly Creating or expanding an e book collection is a complicated challenge In addition to facing the same challenges a librarian would face in developing a print collection librarians developing an e book collection also face a host of unprecedented legal technological and vendor challenges This issue of Library Technology Reports will examine these challenges focusing on strategies for purchasing e books in a consortium working with vendors implementing e reader programs in an academic environment and purchasing electronic textbooks Although the challenges are significant this issue will show how they can be overcome and how the effort it takes to develop an e book collection is well worth the effort *10 Rules for Raising Kids in a High-Tech World* Jean M.
