Why Dogs Are:

Why Dogs Are Better Than Cats Bradley Trevor Greive, Rachael Hale, 2009-10-20 The author provides a humorous account of why he believes dogs are a superior pet to cats by contrasting their differing personality traits Why Dogs Are Better Than Cats Bradley Trevor Greive, 2022-05-24 From a New York Times bestselling author a humorous look at the advantages of being a dog parent with photos from an award winning photographer Some pairings are just meant to be peanut butter and chocolate yin and yang Fred Astaire and Ginger Rogers So it was only a matter of time before the stars in the universe lined up and suggested the collaboration between New York Times bestselling author Bradley Trevor Greive and award winning photographer Rachael Hale Greive and Hale explain once and for all Why Dogs Are Better Than Cats Now before all you cat lovers find your fur standing on end Greive is quick to stress that he is simply pro dog not anti cat The purpose of this book is not to criticize cats or their owners but to champion the many exceptional virtues unique to dogs What are these unique attributes that make canine companions superior to their feline fiends Oops we meant friends Consider the following Dogs are social Cats are sociopaths Dogs match up to people People must match up to cats Dogs teach us patience Cats test our patience Dogs give and give Cats are the gift that keeps on gifting The bottom line is this Dogs want love Cats want fish Although Greive admits that there is something to be said for soft warm and sleepy a k a cats as captured in Hale's cuddly feline photographs he concludes that dogs would be the only ones with character enough to admit this fact thereby once again positioning themselves as the superior pet confidant admirer and friend **100 Simple Secrets Why Dogs Make Us Happy** David Niven, PhD, 2009-03-17 Why do people who have dogs live happier longer and more fulfilling lives Sociologists and veterinarians have spent years investigating the positive effects that dogs have on people's health and happiness yet their findings are inaccessible to ordinary people hidden in obscure journals to be shared with other experts Now the international bestselling author of the 100 Simple Secrets series has collected the most current and significant data from more than a thousand of the best scientific studies on the profound relationship between humans and our canine companions These findings have been boiled down to the one hundred essential ways dogs positively impact our lives Each fact is accompanied by a inspiring true story If you love your dog and science tells us that you do this book will inspire and entertain Communicate Better It sounds odd to say a creature that communicates with barking and body language can have such a profound effect on human communication But by providing a common point of reference and concern dogs help us to feel a connection to other humans That connection makes us feel more comfortable communicating with each other When meeting a new person the presence of a dog reduces the time before people feel comfortable while talking with each other by 45 percent Live Longer There is perhaps no better gift that dogs offer us humans than this simple fact People who care for a dog live longer healthier lives than those who do not On average people who cared for dogs during their lives lived 3 years longer than people who never had a dog No Monkey Business Primates are genetically more similar

to humans than any other creature But try to tell a chimpanzee something and you will be hard pressed to get your message across Dogs are uniquely attuned to the messages we send Dogs study humans and have evolved to build social skills that help them to function around us Dogs are 52 percent more likely to follow human cues such as pointing toward a source of food than are primates Around the Block Good habits are often misunderstood as difficult or unpleasant chores But there is tremendous value in the simple act of taking a walk Walking not only burns calories it also decreases stress Having a dog means regularly talking walks it s something you do for your dog but in truth your dog is doing for you Dog owners walk 79 percent farther in an average week than non dog owners

In Defence of Dogs John Bradshaw, 2011-07-11 John Bradshaw one of the world's leading dog experts brings us a compelling insight into what dogs would ask us for if only they knew how The dog has been mankind's faithful companion for tens of thousands of years yet today finds itself in crisis throughout the western world Until just over a hundred years ago most dogs worked for their living and each of the many breeds had become well suited over countless generations to the task for which they were bred Now in their purely domestic roles we fail to understand their needs And it is time that someone stood up for dogdom not the caricature of the wolf in a dog suit ready to dominate its unsuspecting owner at the first sign of weakness not the trophy animal that collects rosettes and kudos for its breeder but the real dog the pet that just wants to be one of the family and enjoy life Biologists now know far more about what really makes dogs tick than they did twenty years ago but this new understanding has been slow to percolate through to owners and has not yet made enough of a difference to the lives of the dogs themselves This book is here to set the record straight
