The Worlds of John Wick Caitlin G. Watt,Stephen Watt,2022-05-10 Each John Wick film has earned more money and recognition than its predecessor defying the conventional wisdom about the box office action movie landscape normally dominated by superhero movies and science fiction epics As The Worlds of John Wick explores the worldbuilding of John Wick offers thrills that you simply can't find anywhere else The franchise's plot combines familiar elements of the revenge thriller and crime film with seamlessly coordinated action One of its most distinctive appeals however is the detailed and multifaceted fictional world or rather worlds it constructs The contributors to this volume consider everything from fight sequences action aesthetics and stunts to grief cinematic space and time and gender performance to map these worlds and explore how their range and depth make John Wick a hit A deep dive into this popular neo noir franchise The Worlds of John Wick celebrates and complicates the cult phenomenon that is John Wick

Turning Points and Transformations Christine DeVine,2011-07-12 From the Irish Cailleach and other shape shifters of folk legends to modern movie transformers from Ovid's Metamorphoses to the moment when Gregor Samsa woke up one morning to find himself transformed into an insect in Kafka's novella from conversion narratives to slave narratives turning points and transformations have always been central to literary works and to cultural developments In fact with Freytag's pyramid in mind one could claim that all literary works focus on the trope of a transformation born of a turning point because such moments comprise the very essence and vitality of human life and culture But why are turning points necessarily transformational and in what way And what brings about those turning points in language literature culture and human lives These are essentially the questions the essays in this volume seek to answer The contributors examine turning points and transformations personal literary and cultural brought about through the randomness of the universe as well as through human interference and discuss ways in which humans in general and writers in particular through their art experience and cope with the ineluctable results
