Wild Seed Patternmaster 1 Octavia E Butler:

Our Mothers, Our Powers, Our Texts Teresa N. Washington, 2005-06-27 Washington writes supple and thoughtful prose and creatively integrates African and African derived terminology which never distract the reader I consider *Our Mothers Our Powers Our Texts* not only a brilliant study but also a model to be emulated Ouseyounou B Traore William Patterson University of Iowa is a Yoruba word that signifies a spiritual power of vast potential as well as the human beings who exercise that power Although both men and women can have it its owners and controllers are women the literal and cosmic Mothers who are revered as the gods of society Because of its association with female power its invisibility and profundity it is often misconstrued as witchcraft However as Teresa N Washington points out in *Our Mothers Our Powers Our Texts* it is central to the Yoruba ethos and cosmology Not only does it underpin the concepts of creation and creativity but as a force of justice and retribution it is essential to social harmony and balance As Africans were forced into exile and enslavement they took it with them and continued its work of creating destroying harming and healing in the New World Washington seeks out its subversive power of creation and re creation in a diverse range of Africana texts from both men and women from both oral and contemporary literature and across space and time She guides readers to an understanding of the symbolic methodological and spiritual issues that are central to important works by Africana writers but are rarely elucidated by Western criticism She begins with an examination of the ancient forms of it in Yoruba culture which creates a framework for innovative readings of important works by Africana writers including Zora Neale Hurston Toni Morrison Ben Okri Wole Soyinka Jamaica Kincaid and Ntozake Shange This rich analysis will appeal to readers of Africana literature African religion and philosophy feminist studies and comparative literature

The Funk Movement Reiland Rabaka, 2024-10-23 Rabaka explores funk as a distinct multiform of music aesthetics politics social vision and cultural rebellion that has been remixed and continues to influence contemporary Black popular music and Black popular culture especially rap music and the Hip Hop Movement The Funk Movement was a sub movement within the larger Black Power Movement and its artistic arm the Black Arts Movement Moreover the Funk Movement was also a sub movement within the Black Women's Liberation Movement between the late 1960s and late 1970s where women's funk especially Chaka Khan and Betty Davis's funk was understood to be a form of Black musical feminism that was as integral to the movement as the Black political feminism of Angela Davis or the Combahee River Collective and the Black literary feminism of Toni Morrison or Alice Walker This book also demonstrates that more than any other post war Black popular music genre the funk music of the 1960s and 1970s laid the foundation for the mercurial rise of rap music and the Hip Hop Movement in the 1980s and 1990s This book is primarily aimed at scholars and students working in popular music studies popular culture studies American studies African American studies cultural studies ethnic studies critical race studies women's studies gender studies and sexuality studies

Reference Works **American Bodies** Tim Armstrong, 1996-12 Most human bodies have two arms two legs hands feet a head Yet the body as we perceive it is ultimately a cultural construct defined by the values and meanings each individual and each culture ascribes to it Beyond its corporeal realities the implications of the body how we adorn alter heal and please it are potentially endless limited only by the manner in which we frame it Revealing how the human body has served as a metaphor for social process the anthology unveils the body as intrinsically configured by politics gender racial categories fears of pollution and commercial forces which exploit and regulate it Historical snapshots of American bodies over the past two and a half centuries the essays in this volume cover such diverse subjects as sailor tattoos maritime cannibalism in the early 1800's birth control rest cures for neurasthenia and more recently anorexia boxing cyberpunk and plastic surgery Drawing from history literary and cultural studies and film studies *American Bodies* is an eclectic stimulating collection that will challenge many fundamental beliefs about our physical form *Bloodchild and Other Stories* Octavia E. Contemporary African American Fiction Robert Butler,1998 The book argues that from its very beginnings African American journey narratives are distinctively non teleological that is they typically resist being directed toward an end point in a particular place and instead exult in movement through indefinite space They view movement as intrinsically valuable a process of endless becoming rather than a carefully mapped journey resulting in a completed state of being rooted in a fixed place As such these journeys are a compelling metaphor of the American desire for the new life consisting of unlimited personal development The writers examined in this book offer a unique set of variations on this kind of open journey The Bloomsbury Handbook to Octavia E. Butler Gregory J. Hampton,Kendra R. Parker,2023-07-27 Octavia E Butler is widely recognized today as one of the most important figures in contemporary science fiction Bringing together leading and emerging scholars and covering Butler s complete works from the bestselling novel Kindred to her short stories and major novel sequences Patternmaster Xenogenesis and The Parables this is the most comprehensive Companion to Butler scholarship available today The Bloomsbury Handbook to Octavia E Butler covers the full range of contemporary scholarly themes and approaches to the author s work including Cyborgs and the posthuman Race and African American history Afrofuturism Gender and sexuality New perspectives from Religious Studies the Environmental Humanities and Disability Studies New discoveries from the Butler archives at the Huntington Library The book includes a comprehensive bibliography of works by Butler and secondary scholarship on her work as well as an afterword by the novelist Tananarive Due *Alien Constructions* Patricia Melzer,2010-01-01 An incisive critical work that looks at Octavia Butler s writing the movies of the Matrix and Alien series and more through a feminist lens Femspec Feminist thinkers and writers are increasingly recognizing science fiction s potential to shatter patriarchal and heterosexual norms while the creators of science fiction are bringing

new depth and complexity to the genre by engaging with feminist theories and politics This book maps the intersection of feminism and science fiction through close readings of science fiction literature by Octavia E Butler Richard Calder and Melissa Scott and the movies The Matrix and the Alien series Patricia Melzer analyzes how these authors and films represent debates and concepts in three areas of feminist thought identity and difference feminist critiques of science and technology and the relationship among gender identity body and desire including the new gender politics of queer desires transgender and intersexed bodies and identities She demonstrates that key political elements shape these debates including global capitalism and exploitative class relations within a growing international system the impact of computer industrial and medical technologies on women's lives and reproductive rights and posthuman embodiment as expressed through biotechnologies the body machine interface and the commodification of desire Melzer's investigation makes it clear that feminist writings and readings of science fiction are part of a feminist critique of existing power relations and that the alien constructions cyborgs clones androids aliens and hybrids that populate postmodern science fiction are as potentially empowering as they are threatening

This book focuses on the interplay of gender race and their representation in American science fiction from the nineteenth century through to the twenty first and across a number of forms including literature and film Haslam explores the reasons why SF provides such a rich medium for both the preservation of and challenges to dominant mythologies of gender and race Defining SF linguistically and culturally the study argues that this mode is not only able to illuminate the cultural and social histories of gender and race but so too can it intervene in those histories and highlight the ruptures present within them The volume moves between material history and the linguistic nature of SF fantasies from the specifics of race and gender at different points in American history to larger analyses of the socio cultural functions of such identity categories SF has already become central to discussions of humanity in the global capitalist age and is increasingly the focus of feminist and critical race studies in combining these earlier approaches this book goes further to demonstrate why SF must become central to our discussions of identity writ large of the possibilities and failings of the human past present and future Focusing on the interplay of whiteness and its various others in relation to competing gender constructs chapters analyze works by Nathaniel Hawthorne Mary E Bradley Lane Edgar Rice Burroughs Philip Francis Nowlan George S Schuyler and the Wachowskis Frank Herbert William Gibson and Octavia Butler Academics and students interested in the study of Science Fiction American literature and culture and Whiteness Studies as well as those engaged in critical gender and race studies will find this volume invaluable
