movies **The Cool and the Crazy** Peter Stanfield, 2015-04-08 Explosive Amazing Terrifying You won't believe your eyes Such movie taglines were common in the 1950s as Hollywood churned out a variety of low budget pictures that were sold on the basis of their sensational content and topicality While a few of these movies have since become canonized by film fans and critics a number of the era's biggest fads have now faded into obscurity The Cool and the Crazy examines seven of these film cycles including short lived trends like boxing movies war pictures and social problem films detailing the sordid and violent life of teenagers as well as uniquely 1950s takes on established genres like the gangster picture Peter Stanfield reveals how Hollywood sought to capitalize upon current events moral panics and popular fads making movies that were ripped from the headlines on everything from the Korean War to rock and roll As he offers careful readings of several key films he also considers the broader historical and commercial contexts in which these films were produced marketed and exhibited In the process Stanfield uncovers surprising synergies between Hollywood and other arenas of popular culture like the ways that the fashion trend for blue jeans influenced the 1950s Western Delivering sharp critical insights in jazzy accessible prose The Cool and the Crazy offers an appreciation of cinema as a pop medium unabashedly derivative faddish and ephemeral By studying these long burst bubbles of 1950s pop Stanfield reveals something new about what films do and the pleasures they provide *The National Society of Film Critics on the Movie Star* National Society of Film Critics, 1981
