care book It's a virtual owner's manual packed with little known and entertaining facts presented by two acclaimed experts

of Criminology Gerardus Petrus Hoefnagels,2013-06-29 Didactically a textbook of criminology should start at the beginning
The learning process also an emotional process begins in criminology with the concepts views emotions attitudes and ideas
we have regarding crime and criminals Exploration of these underlying factors is one of the aims of the present book We can
free our thinking only by being aware of the significance of our own feelings and thoughts about a phenomenon like crime
That is the basic problem confronting us In scientific thinking implicit postulates as to the *sensus communis* unless
recognized and 1 neutralized grow into idols The fight against crime is one example of such an idol Crimes and criminals
exist only by virtue of reactions to certain forms of behavior For this reason this book will begin by examining the reactions
of society to crime Criminology is primarily a science of others than offenders In this sense I invert criminology The history of
criminology is not so much a history of offenders 2 as a history of the reactions of those in power *The Baltimore
