Problematizing Religious Freedom Arvind Sharma, 2011-08-08 The concept of religious freedom is the favoured modern human rights concept with which the modern world hopes to tackle the phenomenon of religious pluralism as our modern existence in an electronically shrinking globe comes to be increasingly characterised by this phenomenon To begin with the concept of religious freedom as embodied in Article 18 of the Universal Declaration of Human Rights seems self evident in nature It is the claim of this book however that although emblematic on the one hand the concept is also problematic on the other and the implications of the concept of religious freedom are far from self evident despite the ready acceptance the term receives as embodying a worthwhile goal This book therefore problematizes the concept along legal constitutional ethical and theological lines and especially from the perspective of religious studies so that religious freedom

in the world could be enlarged in a way which promotes human flourishing

The World of the Axial Sages John C. Stephens, 2020-11-25 This book presents an engaging analysis of the global spiritual changes of the first millennium BCE. Between the sixth and fourth centuries BCE several new revolutionary religious and philosophic movements were born throughout the world. Rather than using the well known label Axial Age to refer to this time of religious change the book argues that a better choice would be the Age of Awakening since it places more emphasis upon the personal internal dimension of religious experience lying at the core of these developments. Earthshattering spiritual encounters with the sacred led the prophets and sages of the Age of Awakening to redirect people's attention away from the stagnant traditions of the past towards new forms of dynamic spirituality. The era saw the emergence of a variety of innovative spiritual pathways in both the eastern and western worlds. In classical Greece Pythagoras and Plato proposed new spiritual and intellectual alternatives to the outdated religious myths and rituals of the polis. The Middle East also played a significant role in the spiritual revolution of the first millennium BCE. As early as the sixth century BCE the Persian prophet Zoroaster's revelatory visions about the Truth and the Lie led to the birth of a new religious movement known as Zoroastrianism. At the time of the Babylonian Exile ancient Judaism underwent a process of radical spiritual renewal largely due to the inspired teachings of the Hebrew prophets. In India the writers of the Upanishads provided a spiritual reinterpretation of many of the old Vedic myths and rituals. Sages including the Buddha and Mahavira rejected the old sacrificial system of the brahmins and asserted that liberation from the cycle of birth and death could only be found through the practice of asceticism and a general withdrawal from the illusory material world. As such this book highlights the importance of the destabilizing influences of religious experience for understanding the revolutionary spiritual developments of the first millennium BCE.

Religious Revelation James Kellenberger, 2020-10-19 This book addresses several dimensions of religious revelation. These include its occurrence in various religious traditions, its different forms, its elaborations, how it has been understood by Western theologians, and differing views of revelation's ontological status. It has been remarked that revelation is most at home in theistic traditions, and this book gives each of the three Abrahamic traditions, Judaism, Christianity, and Islam, its own chapter. Revelation, however, is not limited to theistic traditions; forms found in Buddhism and nondevotional, nontheistic Hinduism are also explored. In the book's final chapter a particularly significant form of religious revelation is identified and examined: pervasive revelation. The theistic manifestation of this form of revelation, pervasive in the sense that it may occur in all the domains or dimensions of human existence, is shown to be richly represented in the Psalms, where God's presence may be found in the heavens, in the growing of grass, and in one's daily going out and coming in. Pervasive revelation of religious reality is also shown to be present in the Buddhist tradition.

World Religions in Practice Paul Gwynne, 2011-09-07 World Religions in Practice introduces five of the world's great religions: Hinduism, Buddhism, Judaism, Christianity, and Islam, and explores how they are lived and expressed in custom, ritual, and symbol. A major new textbook exploring the world's great

religions through their customs rituals and everyday practices by focusing on this lived experience it goes beyond many traditional introductions to religious studies Adopts a directly comparative approach to develop a greater understanding of the nature of religion Each chapter engages with an individual theme such as birth death food pilgrimage and ethics to illustrate how religious practices are expressed Broadens students understanding by offering an impartial discussion of the similarities and differences between each religion Includes chapter by chapter opening themes and summaries and will be accompanied by a website at www.blackwellpublishing.com/gwynne featuring additional resources and study questions

Hermeneutics and Hindu Thought: Toward a Fusion of Horizons Rita Sherma, Arvind Sharma, 2008-05-21 The advent of Hindu Studies coincides with the emergence of modern hermeneutics Despite this co emergence and rich possibilities inherent in dialectical encounters between theories of modern and post modern hermeneutics and those of Hindu hermeneutical traditions such an enterprise has not been widely endeavored The aim of this volume is to initiate such an interface Essays in this volume reflect one or more of the following categories 1 Examination of challenges and possibilities inherent in applying Western hermeneutics to Hindu traditions 2 Critiques of certain heuristics used historically to understand Hindu traditions 3 Elicitation of new hermeneutical paradigms from Hindu thought to develop cross cultural or dialogical hermeneutics Applications of interpretive methodologies conditioned by Western culture to classify Indian thought have had important impacts Essays by Sharma Bilimoria Sugirtharajah and Tilak examine these impacts offering alternate interpretive models for understanding Hindu concepts in particular and the Indian religious context in general Several essays offer original insights regarding potential applications of traditional Hindu philosophical principles to cross cultural hermeneutics Long Bilimoria Klostermaier Adarkar and Taneja Others engage Hindu texts philosophically to elicit deeper interpretations Phillips and Rukmani In presenting essays that are both critical and constructive we seek to uncover intellectual space for creative dialectical engagement that we hope will catalyze a reciprocal hermeneutics

Children and Childhood in World Religions Don S. Browning, Marcia J. Bunge, 2009-08-14 While children figure prominently in religious traditions few books have directly explored the complex relationships between children and religion This is the first book to examine the theme of children in major religions of the world Each of six chapters edited by world class scholars focuses on one religious tradition and includes an introduction and a selection of

primary texts ranging from legal to liturgical and from the ancient to the contemporary Through both the scholarly introductions and the primary sources this comprehensive volume addresses a range of topics from the sanctity of birth to a child's relationship to evil showing that issues regarding children are central to understanding world religions and raising significant questions about our own conceptions of children today *Christianity and Religious Plurality* Wilbert R. Shenk, Richard J. Plantinga, 2016-10-11 Over the past two centuries the Christian faith has spread to all continents Although more global than ever Christians are religious minorities in most societies Religious freedom is hardly universal In the past fifty years millions of people have been uprooted from their traditional homelands in Asia Africa and Latin America Some have emigrated to Western Europe and North America The West has become the scene of cultural linguistic and religious variety on a scale unimagined in 1900 Today the full range of faiths and religious practices from all continents are present in Europe and North America Christians are challenged to come to terms with this changed situation These developments have intensified religious plurality Christians all over the world are being urged to understand and engage with this new situation This volume highlights this new reality and specifies some sources for engagement not least among them the Judeo Christian scriptures fundamental to all Christianities that emerged out of religious plural contexts On the basis of their faith in the Triune God disclosed in this text all followers of Jesus Christ must interact with these opportunities in today's radically context sensitive world *The Oxford Handbook of Religion and Europe* Grace Davie, Lucian Leuștean, 2022 Features contributions from leading scholars providing crucial insight into the role of religious ideas structures and institutions in the making of Europe Introduces the building blocks of Europe's religious and the part that they played in the formation of the continent Explores the relationship between religious communities and ideologies in the twentieth century connections that play out very differently in East and West Europe Examines the role of religion in the construction of the European Union from the end of the Second World War until the present day Assesses the relationship between the major world religions and the idea of Europe Book jacket *Spiritual Masters of the World's Religions* Victoria Kennick, Arvind Sharma, 2012-12-28 What is a spiritual master *Spiritual Masters of the World's Religions* offers an important contribution to religious studies by addressing that question in the context of such themes as charismatic authority role models symbolism and categories of religious perception The book contains essays by scholar practitioners on the topic of spiritual masters in Judaic Christian Islamic Hindu Sikh Buddhist Confucian and Daoist traditions It provides a full spectrum of exemplars including founders spiritual masters who highlight cultural themes and problematic figures of modern times To define spiritual master the work of Max Weber Mircea Eliade Daniel Gold and Bruce Lincoln is referenced to provide a balanced notion that includes both religionist and reductionist perspectives This book takes readers from the past spiritual masters to the future of masters of any sort posing food for thought about the future of master disciple relationships in an emerging age of egalitarian sentiments *The Quest* Lyman C.D. Kulathungam, 2012-04-25 The human spirit seems incapable of being stagnant ever

pushing the boundaries of knowledge and experience We try to understand life through questions regarding our own existence the nature of the universe and the nature of God The question of our collective heart is the external manifestation of an internal longing a quest if you will This thirst to understand reality can be seen in superstructures that are scientific social political and especially religious When considering the doctrines institutions and rituals of religions we observe certain core aspirations expressed by the people of these communities These aspirations generate from an underlying quest which seeks a way out of our perceived predicament a salvific quest Regardless of whether we view ourselves as religious pre religious post religious or non religious we find ourselves involved in such a quest it seems to be an integral part of our human personhood Using a unique framework of analysis this book explores Christ s relevance to the quest expressed by the communities of eight major living religions a relevance that neither degrades Christ nor demeans other saviors Christ is not part of the human quest but is well equipped to satisfy that quest **From Indra's Net to Internet** Daniel

Veidlinger,2018-08-31 In this sweeping and ambitious intellectual history Daniel Veidlinger traces the affinity between Buddhist ideas and communications media back to the efflorescence of Buddhism in the Axial Age of the mid first millennium BCE He uses both communications theory and the idea of convergent evolution to show how Buddhism arose in the largely urban milieu of Axial Age northeastern India and spread rapidly along the transportation and trading nodes of the Silk Road where it appealed to merchants and traders from a variety of backgrounds Throughout he compares early phases of Buddhism with contemporary developments in which rapid changes in patterns of social interaction were also experienced and brought about by large scale urbanization and growth in communication and transportation In both cases such changes supported the expansive consciousness needed to allow Buddhism to germinate Veidlinger argues that Buddhist ideas tend to fare well in certain media environments through a careful analysis of communications used in these contexts he finds persuasive parallels with modern advances in communications technology that amplify the conditions and effects found along ancient trade routes From Indra s Net to Internet incorporates historical research as well as data collected using computer based analysis of user generated web content to demonstrate that robust communication networks which allow for relatively easy contact among a variety of people support a de centered understanding of the self greater compassion for others an appreciation of interdependence a universal outlook and a reduction in emphasis on the efficacy of ritual all of which lie at the heart of the Buddha s teachings The book s interdisciplinary approach should appeal to those interested in not only Buddhism media studies and history but also computer science cognitive science and cultural evolution Jesus Of Asian

Women (the) Muriel Orevillo-Montenegro,2010 **Passing Over and Returning** Paul O. Ingram,2013-10-23 In Passing Over and Returning Paul O Ingram describes his particular dialogue with the world s religions illustrated by his experience of passing over into Hinduism Buddhism Daoism and Confucianism Judaism and Islam and by his return to his home as a Lutheran Christian While religious diversity is not new neither are the questions posed by religious diversity What is new is

that more and more people are actively engaged with the world's religions because more and more people are willing to be informed by insights found in religious traditions other than their own. This is particularly true among progressive Christians. But openness does not necessarily mean rejecting one's own tradition even though persons sometimes convert to another tradition or combine their original religious identity with the identity of another tradition. Whether one returns to the home of one's own faith tradition after passing over or assumes a dual religious identity or converts to another tradition, all persons engaged in interreligious dialogue undergo processes of creative transformation.

The Routledge Companion to the Life and Legacy of Guru Hargobind Pashaura Singh, 2024-08-09. This companion studies the life and legacy of Guru Hargobind (1590-1644), the Sixth Guru of the Sikh tradition. It highlights the complex nature of Sikh society and culture in the historical and socio-economic context of Mughal India. The book reconstructs the life of Guru Hargobind by exploring the divine presence in history and memory. It addresses the questions of why and how militancy became explicit during Guru Hargobind's spiritual reign and examines the growth of the Sikh community's self-consciousness, separatism, and militancy as an integral part of the process of empowerment of the Sikh Panth. A unique contribution, this book provides a multidisciplinary paradigm in the reconstruction of Guru Hargobind's life and legacy. It will be indispensable for students of Sikh studies, religious studies, history, sociology of religion, anthropology, material culture, literary and textual studies, politics, militancy, and South Asian studies.
