Colquhoun, 2012-05-01 From the Iron Age to the Industrial Revolution the Romans to the Regency few things have mirrored society or been affected by its upheavals as much as the food we eat and the way we prepare it In this involving history of the British people Kate Colquhoun celebrates every aspect of our cuisine from Anglo Saxon feasts and Tudor banquets through the skinning of eels and the invention of ice cream to Dickensian dinner party excess and the growth of frozen food Taste tells a story as rich and diverse as a five course dinner Recipes for Respect Rafia Zafar, 2019-03-15 Food studies once trendy has settled into the public arena In the academy scholarship on food and literary culture constitutes a growing river within literary and cultural studies but writing on African American food and dining remains a tributary Recipes for Respect bridges this gap illuminating the role of foodways in African American culture as well as the contributions of Black cooks and chefs to what has been considered the mainstream Beginning in the early nineteenth century and continuing nearly to the present day African Americans have often been stereotyped as illiterate kitchen geniuses Rafia Zafar addresses this error highlighting the long history of accomplished African Americans within our culinary traditions as well as the literary and entrepreneurial strategies for civil rights and respectability woven into the written records of dining cooking and serving

Whether revealed in cookbooks or fiction memoirs or hotel keeping manuals agricultural extension bulletins or library collections foodways knowledge sustained Black strategies for self reliance and dignity the preservation of historical memory and civil rights and social mobility If to follow Mary Douglas s dictum food is a field of action that is a venue for social intimacy exchange or aggression African American writing about foodways constitutes an underappreciated critique of the racialized social and intellectual spaces of the United States

Potato Andrew F. Smith,2012-01-01 From obscure Pre Columbian beginnings in the Andes Mountains to global popularity today the story of the potato is one of rags to riches In Potato esteemed culinary historian Andrew F Smith reveals the captivating story of a once lowly vegetable that has changed and continues to change the world First domesticated by prehistoric people in the Andes the potato has since been adopted by cultures around the globe For instance the potato was aggressively adopted by cooks in India and China where it has become a dietary staple In fact these two countries now stand as the world s largest potato producers Nonetheless despite its popularity in this era of both fast food and health consciousness the potato is now suffering negative publicity regarding its low nutritional value Its health benefits continue to be debated especially considering that the potato is most often associated with the ubiquitous but high calorie french fry Potato is a captivating read that provides a concisely written but thoroughly researched account of the history economy politics and gastronomy behind this beloved starch as well as recipes As loaded with goodies as a well dressed baked potato this book is comforting and satisfying
