

The background is an abstract composition. It features a central, slightly off-center purple circle. From this circle, several thick, dark purple lines radiate outwards towards the edges of the frame. The background is a gradient of blue, transitioning from a deep, dark blue at the top to a lighter, cyan blue at the bottom. The overall effect is one of a stylized, perhaps celestial or architectural, structure.

Transcript of the Enrollment Books New York (N.Y.). Board of Elections,1927 *The Book of Immortality* Adam Gollner,2014-09-30 An exploration of one of the most universal human obsessions charts the rise of longevity science from its alchemical beginnings to modern day genetic interventions and enters the world of those whose lives are shaped by a belief in immortality *The Sharon Tate Murders Fifty Years Later: Case Closed?* Doctor Know,2018-08-12 People under the age of thirty may have heard the name Charles Manson in passing on some cable channel but many have no idea what the Sharon Tate Murders are or who committed them Those who do remember do not know the whole story Enter ZODIAC a legendary serial killer who didn't just murder people in Northern California He killed a college student in the Los Angeles area close to the date of the Tate Murders and that's only part of the narrative There are more suspects and brand new information about the August 9 1969 killings Read and decide for yourself who really committed the murders Tired of all the wordy books about this case that give you the same details and come to the same conclusions Try this fresh and fascinating look at the Sharon Tate Murders Discover what the life of Sharon Tate was really like with Roman Polanski and why Charles Manson was so easily able to lure people into his Family **Differing Visions** Roger D. Launius,Linda Thatcher,1998-01-15 The first serious attempt to analyze the careers of converts who later left the Mormon church this book contains selections about 18 Mormon dissenters David Whitmer Fawn Brody and Sonia Johnson among them contributed by Richard N Holzapfel John S McCormick Kenneth M Godfrey William D Russell Dan Vogel Jessie L Embry and many others **Christen und Sethianer: Ein Beitrag zur Diskussion um den religionsgeschichtlichen und den kirchengeschichtlichen Begriff der Gnosis** Herbert Schmid,2017-11-01 In Christen und Sethianer Ein Beitrag zur Diskussion um den religionsgeschichtlichen und den kirchengeschichtlichen Begriff der Gnosis versucht Herbert Schmid zu zeigen dass es vermutlich keine Vorform der Gnosis an den R ndern des antiken Judentums gegeben hat Sowohl Schenkes Sethianismus als auch der Valentinianismus und andere fr he Auspr gungen der Gnosis sind vermutlich als fr he Versuche christlicher Theologie zu begreifen In diesem Zusammenhang erweist sich der Begriff Gnosis als eine durchaus brauchbare Kategorie um antike Religionsgeschichte zu beschreiben In Christen und Sethianer Ein Beitrag zur Diskussion um den religionsgeschichtlichen und den kirchengeschichtlichen Begriff der Gnosis Herbert Schmid argues that there are no hints for a more primitive and independent form of Gnosticism which developed on the fringes of ancient Judaism Not only the Valentinian school but also Hans Martin Schenkes Sethianism and other early manifestations of Gnosis are probably best understood as early attempts to phrase Christian theology In this context the term Gnosticism is a useful category to describe ancient religious history **Adventist Interchurch Relations** Stefan Höschele,2022-09-05 This study presents the first comprehensive analysis of Seventhday Adventist interchurch relations a 20 million member body whose ecumenical stance has so far been underresearched For the sake of interpreting denominational involvement and reservations in Adventism as well as beyond

the study develops a new academic approach to ecumenism based on Relational Models Theory a comprehensive social science paradigm of interpreting human relationships The resulting typology of ecumenical interactions and the historical case study of Adventism suggest that such a relational interpretation of ecumenical interaction sheds light on many of the unresolved issues in ecumenism such as divergent concepts of unity difficulties in recognition processes and the permanence of denominationalism

Agents of Discord Susan E. Darnell,2017-12-02 It is widely acknowledged that the United States has always provided fertile ground for the growth of new religious movements and cults but modern organized efforts to oppose and restrict them have been less well understood In Agents of Discord Anson Shupe and Susan E Darnell offer a groundbreaking analysis of the operations and motives of these oppositional groups which they generally group under the umbrella term of the anticult movement Historically there have always been parallel groups opposed to certain religious movements whether these be anti Quaker anti Roman Catholic or anti Mormon The authors establish the cultural context of such movements in the nineteenth century They point out the link between modern anticult movements and nativist movements in American history Turning to the postwar era the authors discuss the rise of anticult movements and focus specifically on one of the most prominent the Cult Awareness Network CAN CAN was a two tiered organization Partly composed of volunteers donors and families affected by cult movements it also included what the authors call an inner sanctum of behavioral science professionals attorneys and deprogrammers Using never before reported data on CAN s activities the authors cite an extensive history of financial impropriety that finally led to the organization s bankruptcy They offer a pointed critique informed by current scholarship of the brainwashing model of mental enslavement presented by the anticult movement that has been a central assumption undergirding its activities At the same time they show how increasing professionalization has gradually begun a shift of such movements to a therapeutic model of exit counseling that rejects the crude methods of earlier intervention strategies In their analysis of the anticult movement nationally and internationally Shupe and Darnell merge sociological concepts and social history to make unique sense of a hereto

The Resilience of Conservative Religion Joseph B. Tamney,2002-02-11 The recent growth and popularity of conservative churches contradicts the idea that late modern societies have outgrown the need for such relics of the past as traditionalist religions In this book Joseph Tamney offers an explanation for this this apparent incongruity by looking at the case of growing popular conservative Protestant congregations in the United States His findings represent a synthesis of ideas from supporters of secularization theory and from those who stress the competitive market of churches in America as a factor in church growth

Prayer & Community Riv-Ellen Prell,2018-02-05 Combining history and ethnography Prell uses current theories about ritual and prayer to understand men s and women s struggles with their religious tradition and their desire to create community Riv Ellen Prell spent eighteen months of participant observation field research studying a countercultural

havurah to determine why these groups emerged in the United States during the 1970s. In her book, she explores the central questions posed by the early havurot and their founders. She also examines the havurah as a development of American Judaism, continuing rather than rejecting many of the previous generations' ideas about religion. Combining history and ethnography, Prell uses current theories about ritual and prayer to understand men's and women's struggles with their religious tradition and their desire to create community.
