Chinese Music in Print YANG YUANZHENG,2023-01-11 Grounded in a desire to bring back to life rare items from the University of Hong Kong s Fung Ping Shan Library that are entwined within the world of music and to place them in a context of books and images in American British and other Asian collections Chinese Music in Print views the library as a repository not of

information but of artifact and then uses these artifacts as a means for generating scholarly narrative. It begins by assessing seminal texts in the Confucian canon set against the delicacy of the concubine and amanuensis Shen Cai's calligraphy and poetry. Confucianism was itself a crucial aspect of courtly life and an exploration of its ritual is the book's second theme. Vernacular genres of opera and song are represented in the third chapter while the Great Sage returns in the fourth for an exploration of the repertoire and richness of his favourite instrument the qin. The final chapter ends the journey with discussion of the legacy of generations of Europeans who have visited China and their contribution to the understanding of a more vernacular instrument the erhu. Like the 2021 exhibition called Music in Print that preceded it, this exploration of Chinese music history introduces many rare books from the University of Hong Kong Libraries. The essays combine professional expertise in musicology with an excellent grasp of traditional bibliography which allows the one to illuminate the other. Bravo! J. S. Edgren, Princeton University. I am most impressed by the critical reading of the author who excels in classical studies whose expertise in calligraphy, seals, editions and other related disciplines in Sinology is admirable. His meticulous investigation into the complicated situation regarding the book printing business of dynastic China is professional and convincing. Yu Siu-wah, chief editor of Anthology of Chinese Folk and Ethnic Instrumental Music, The Hong Kong Volume. Such a wide-ranging but meticulously researched book that now contextualizes the dissemination and transmission of music into the discussion of manuscript and printed culture in China will clearly be an important addition to the holdings of libraries supporting Chinese studies and book studies broadly taken as well as those supporting the study of music. Obviously it will be of direct importance for specialists in East Asian book studies and for musicologists of East Asian traditions. Elizabeth Markham, University of Arkansas. This beautifully illustrated and carefully edited book is the first English language monograph dedicated exclusively to the history of Chinese music as captured through the medium of print. It introduces a host of new sources and methodologies to the English speaking public, fruitfully complicates established narratives of music history and of print cultures in both East and West and offers a vital building block for the creation of a truly global music history. Karl K. Gleason, University of Oxford.

**Women and National Trauma in Late Imperial Chinese Literature** Wai-ye Li, 2020-10-26. The Ming-Qing dynastic transition in seventeenth century China was an epochal event that reverberated in Qing writings and beyond. Political disorder was bound up with vibrant literary and cultural production. *Women and National Trauma in Late Imperial Chinese Literature* focuses on the discursive and imaginative space commanded by women. Encompassing writings by women and by men writing in a feminine voice or assuming a female identity as well as writings that turn women into a signifier through which authors convey their lamentation, nostalgia or moral questions for the fallen Ming, the book delves into the mentality of those who remembered or reflected on the dynastic transition as well as those who reinvented its significance in later periods. It shows how history and literature intersect, how conceptions of gender mediate the experience and expression of political disorder. Why and how are variations on themes related to gender boundaries

female virtues vices agency and ethical dilemmas used to allegorize national destiny In pursuing answers to these questions Wai yee Li explores how this multivalent presence of women in different genres provides a window into the emotional and psychological turmoil of the Ming Qing transition and of subsequent moments of national trauma 2016 Joseph Levenson Book Prize Pre 1900 Category China and Inner Asia Council of the Association for Asian Studies     The Catalogue of Printed Music in the British Library to 1980 British Library.
