Sony vs Samsung Sea-Jin Chang, 2011-02-25 Sony vs Samsung is business history at its best. It explores the divergent fortunes of these two electronics giants in the last decade and identifies the true reasons behind Sony's decline and Samsung's rise. Contrary to popular belief, Chang shows that success or failure does not simply arise from different strategies. Rather, it emerges from major decisions that are deeply rooted in the companies' organizational processes and their executives' political behavior. This book is a must read for any senior executive. Constantinos Markides, Robert P. Bauman, Professor of Strategic Leadership and Chairman, Strategy Department, London Business School. Sea Jin Chang has produced that rarity in a business book: one that is as valuable to practicing managers as it is insightful to academic researchers. In this fascinating comparison of two modern global giants, he applies his high-resolution research microscope to their changing fortunes by dissecting their contrasting strategies and providing interesting insights into their divergent organizational processes and management practices. This is a very valuable contribution to the international business literature. It will end up in as many corporate boardrooms as faculty seminars. Christopher A. Bartlett, Thomas D. Casserly, Professor Emeritus, Harvard Business School. Sea Jin Chang has written a fascinating comparison of Sony and Samsung that will be valuable to anyone interested in strategy, organizations, or international business. The interwoven and very detailed case studies of two very different companies in overlapping industries illuminate problems such as adaptation to technological change, analog to digital, organizational flexibility, and globalization. His attempt to analyze both strategic development and implementation is successful and very useful. Both academics and practitioners will learn a lot from this book. Stephen J. Kobrin, William Wurster, Professor of Multinational Management, The Wharton School, University of Pennsylvania. Refreshingly original and entertaining, this book analyzes major strategic decisions of Samsung and Sony and highlights organizational processes and top management leadership that have shaped their performances. This is a must read for all executives who want to understand the strengths and weaknesses of Asian competitors. It also provides penetrating insights to other Asian companies with global ambitions. Myoung Woo Lee, President and CEO, Iriver.

The Proximity Paradox Kiirsten May, Alex Varricchio, 2020-03-24 You're too close to your business, and it's killing your creativity. Traditional business structures love stability and predictability. Yet many organizations believe the two essential ingredients for long-term success are creativity and innovation. Kiirsten May and Alex Varricchio, founders of the marketing agency UpHouse, call the relationship between these two opposing expectations the Proximity Paradox: the belief that those who are closest to a subject are best qualified to innovate for it. When in reality, intense proximity limits creativity. Instead, people need to create distance from challenges in order to see the best way forward. May and Varricchio believe that until we can separate innovation and execution within ourselves, we will only innovate to the level at which we can execute the idea. To be effective, we need to create distance between our innovation brain and our execution brain. Unpacking ten common Proximity Paradoxes that affect a company's people, processes, and

industry the authors share some practical ideas to create the distance necessary for your next great idea An especially valuable book for creatives and non creatives in creative industries but equally applicable to all businesses that depend on innovation The Proximity Paradox encourages us to ask hard questions about how we work how our businesses are structured and why we routinely find our creativity at odds with what s asked of us as executors and stewards of the bottom line *Turning Problems into Opportunity* Nelson Cheng PhD SRF.,2022-04-05 We must solve societies and life s problems to enhance humanity s well being To raise the standard of living in society we need to solve all the problems we face If we ignore any of our or society s existential problems by sweeping under the rug we will hinder either ours of progress or that of society We must therefore understand the importance of the problem and necessity of solving Nelson Cheng PhD H C SRF

Technology and Solutions Geir M. Koien, Vladimir a. Oleshchuk, 2025-01-13 The modern society is rapidly becoming a fully digital society This has many benefits but unfortunately it also means that personal privacy is threatened The threat does not so much come from a 1984 style Big Brother but rather from a set of smaller big brothers The small big brothers are companies that we interact with they are public services and institutions Many of these little big brothers are indeed also being invited to our private data by ourselves Privacy as a subject can be problematic At the extreme it is personal freedom against safety and security We shall not take a political stand on personal privacy and what level of personal freedom and privacy is the correct one *Aspects of Personal Privacy in Communications* is mostly about understanding what privacy is and some of the technologies may help us to regain a bit of privacy We discuss what privacy is about what the different aspects of privacy may be and why privacy needs to be there by default There are boundaries between personal privacy and societal requirements and inevitably society will set limits to our privacy Lawful Interception etc There are technologies that are specifically designed to help us regain some digital privacy These are commonly known as Privacy Enhancing Technologies PETs We investigate some these PETs including MIX networks Onion Routing and various privacy preserving methods Other

aspects include identity and location privacy in cellular systems privacy in RFID Internet of Things IoT and sensor networks amongst others Some aspects of cloud systems are also covered

Apple's Secret Of Success - Traditional Marketing Vs. Cult Marketing Sascha Schneiders, 2011 There is possibly no other company which is so casual and at the same time so powerful as the computer and entertainment manufacturer Apple The company controls the online music market the market for portable music players and is now capturing the high tech mobile phone market Apple moves into new electronic markets with strong competitors in order to monopolise them just a short time later The CEO Steve Jobs has brought a brand into being that is different and at the same time mainstream A strong magnetic brand which yields more influence in people's life than one would care to admit This is absolutely the reason why every company in the world wishes for a strong magnetic brand which can be defined as a CULT BRAND They get repeatedly chosen over the competition They bring higher prices than the competition And if they are a strong enough brand their customers not only use their products but evangelize them to the world This project aims to analyze Apple's marketing activities in order to figure out what makes this company so successful It adds to the traditional marketing theory the new theory of cult marketing because traditional marketing delivers no approach to explain the behavior of cult brands The phenomena of a Cult Brand are comparable to the patterns of a religion and Apple as well has strong believers When it comes to their favorite brand they enjoy telling who ever will listen how great it is and why they love it so much People are camping in front of Apple's stores just to get their latest innovative product And if their Messiah Steve Jobs enters the stage to introduce a new product to thousands of viewers he brings the house down This book discusses Apple's unique Marketing Strategy and delivers a guideline on the Example of Apple of the needed conditions to convert an ordinary brand into a CULT BRAND *Present Yourself* Kit Seeborg, Andrea Meyer, 2013-06-05 With the success of SlideShare and other online presentation sites slide presentations have become the language of business This practical book demonstrates how you can use this visual language to make the story of your organization brand or initiative effective and entertaining and how social sharing networks like SlideShare Prezi and Scribd can present your story to a worldwide audience Using real world examples from SlideShare
