Handbook of Research on Strategic Business Infrastructure Development and Contemporary Issues in Finance Ray, Nilanjan, Chakraborty, Kaushik, 2014-02-28 The dynamic economic climate invites participants who are grounded in strategic financial management and infrastructure development. Thus a lack of sufficient infrastructure in both quality and quantity often disqualifies developing countries from being key players in the global economy and influences other socioeconomic problems like unemployment, quality of work life and quality of life. Handbook of Research on Strategic Business Infrastructure Development and Contemporary Issues in Finance discusses the efficiency of good infrastructure and its impact on socioeconomic growth and socioeconomic development in general and addresses contemporary aspects of the strategic financial management essential for accomplishing the objective of wealth maximization in today's challenging and competitive economy. This book is an essential research work for policy makers, government workers and NGO employees as well as academicians and researchers in the fields of business, finance, marketing, management, accounting, MIS, public administration, economics and law.

Handbook of Marketing Decision Models Berend Wierenga, 2008-09-05 Marketing models is a core component of the marketing discipline. The recent developments in marketing models have been incredibly fast with information technology, e.g. the Internet, online marketing, e-commerce and customer relationship management (CRM) creating radical changes in the way companies interact with their customers. This has created completely new breeds of marketing models but major progress has also taken place in existing types of marketing models. Handbook of Marketing Decision Models presents the state of the art in marketing decision models. The book deals with new modeling areas such as customer relationship management, customer value and online marketing as well as recent developments in other advertising, sales, promotions, sales management and competition. New developments are in consumer decision models, models for return on marketing, marketing management support systems and in special techniques such as time series and neural nets.
