**Without Conscience** Robert D. Hare,1999-01-08 Most people are both repelled and intrigued by the images of cold blooded conscienceless murderers that increasingly populate our movies television programs and newspaper headlines With their flagrant criminal violation of society's rules serial killers like Ted Bundy and John Wayne Gacy are among the most dramatic examples of the psychopath Individuals with this personality disorder are fully aware of the consequences of their actions and know the difference between right and wrong yet they are terrifyingly self centered remorseless and unable to care about the feelings of others Perhaps most frightening they often seem completely normal to unsuspecting targets and they do not always ply their trade by killing Presenting a compelling portrait of these dangerous men and women based on 25 years of distinguished scientific research Dr Robert D Hare vividly describes a world of con artists hustlers rapists and other predators who charm lie and manipulate their way through life Are psychopaths mad or simply bad How can they be recognized And how can we protect ourselves This book provides solid information and surprising insights for anyone seeking to understand this devastating

Working professionals caught in the continual push for success or over extended soccer moms who feel burdened with too many commitments will find in Out of Control desperately needed help This book shares with readers the liberating truth that they are not helpless victims of our fast paced society Most importantly it gives readers permission to slow down and presents practical methods for living a life of peace and simplicity     *The Philosophy of Stanley Kubrick* Jerold Abrams,2007-05-04

In the course of fifty years director Stanley Kubrick produced some of the most haunting and indelible images on film His films touch on a wide range of topics rife with questions about human life behavior and emotions love and sex war crime madness social conditioning and technology Within this great variety of subject matter Kubrick examines different sides of reality and unifies them into a rich philosophical vision that is similar to existentialism Perhaps more than any other philosophical concept existentialism the belief that philosophical truth has meaning only if it is chosen by the individual has come down from the ivory tower to influence popular culture at large In virtually all of Kubrick's films the protagonist finds himself or herself in opposition to a hard and uncaring world whether the conflict arises in the natural world or in human institutions Kubrick's war films Fear and Desire Paths of Glory Dr Strangelove and Full Metal Jacket examine how humans deal with their worst fears especially the fear of death when facing the absurdity of war Full Metal Jacket portrays a world of physical and moral change with an environment in continual flux in which attempting to impose order can be dangerous The film explores the tragic consequences of an unbending moral code in a constantly changing universe Essays in the volume examine Kubrick's interest in morality and fate revealing a Stoic philosophy at the center of many of his films Several of the contributors find his oeuvre to be characterized by skepticism irony and unfettered hedonism In such films as A Clockwork Orange and 2001 A Space Odyssey Kubrick confronts the notion that we will struggle against our own scientific and technological innovations Kubrick's films about the future posit that an active form of nihilism will allow humans to accept the emptiness of the world and push beyond it to form a free and creative view of humanity Taken together the essays in The Philosophy of Stanley Kubrick are an engaging look at the director's stark vision of a constantly changing moral and physical universe They promise to add depth and complexity to the interpretation of Kubrick's signature films     *The Horse who Drank the Sky* Murray Pomerance,2008 The author argues in this book that what is most important for cinema is that we are alive with it and that for all its dramatic literary political sociological and philosophical weight film is ultimately an art that provokes touches and riddles the viewer through an image that transcends narrative and theory

**Live Fast, Die Young** Lawrence Frascella,Al Weisel,2005-10-04 The complete story behind the groundbreaking film Rebel Without a Cause is vividly revealed in this fascinating book as provocative as the film itself The revolutionary film Rebel Without a Cause has had a profound impact on both moviemaking and youth culture since its 1955 release virtually giving birth to our concept of the American teenager And the making of the movie was just as explosive for those involved Against a backdrop of the Atomic Age and an old Hollywood studio system on the verge of collapse four of Hollywood's most

passionate artists had a cataclysmic and immensely influential meeting James Dean Natalie Wood Sal Mineo and director Nicholas Ray were each at a crucial point in their careers The young actors were grappling with their fame burgeoning sexuality and increasingly reckless behavior and their on and off set relationships ignited as they engaged in Ray's vision of physical melees and psychosexual seductions of startling intensity Through interviews with the surviving members of the cast and crew and firsthand access to both personal and studio archives the authors reveal Rebel's true drama the director's affair with sixteen year old Wood his tempestuous spiritual marriage with Dean and his role in awakening the latent sexuality of Mineo who would become the first gay teenager to appear on film This searing account of the upheaval the four artists experienced in the wake of Rebel is complete with thirty photographs including ten never before seen photos by famed Dean photographer Dennis Stock
