Innovation in Clusters Estelle Vallier, 2021-11-30 Forged at the heart of international political bodies by expert researchers the innovation cluster concept has been incorporated into most public policies in industrialized countries Based largely on the ideas behind the success of Silicon Valley several imitative attempts have been made to geographically group laboratories companies and training in particular fields in order to generate synergies between science and industry In its first part Innovation in Clusters analyzes the infatuation with the system of clusters that is integral to innovative policies by analyzing its socio historical context its revival in management and its worldwide expansion looking at a French example at a local level In its second part the book explores a specialized biotechnology cluster dating back to the end of the 1990s The sociological survey conducted twenty years later sheds a different light on the dynamics and relationships between

laboratories and companies contradicting the commonly held belief that innovation is made possible by geographical proximity *Quand l'innovation fait la ville durable* Joëlle Forest, Abdelillah Hamdouch, 2015-01-28 La ville durable renvoie une notion encore peu stabilisée et dont les modalités de la fabrique restent inexplorées Cet ouvrage se focalise sur l'analyse des dynamiques des processus et des jeux d'acteurs qui contribuent à faire évoluer les modèles urbains existants Il montre que l'innovation technologique organisationnelle institutionnelle et sociale constitue un prisme central de la compréhension de la fabrique de la ville durable Combinant entrées analytiques méthodologiques et empiriques il privilégie une perspective interdisciplinaire et confronte différentes approches il accorde une place importante aux illustrations sectorielles biment énergies renouvelables réseaux urbains etc et territoriales villes et régions en France et l'étranger des processus d'innovation urbaine durable mais aussi aux obstacles techniques psychologiques culturels ou encore économiques qui en freinent le déploiement Une référence pour les étudiants les chercheurs et les praticiens en urbanisme et aménagement du territoire

Politiques agricoles : Suivi et évaluation 2024 (version abrégée) L'innovation au service de la croissance durable de la productivité OECD, 2024-11-06. Ce rapport annuel de suivi et d'évaluation porte sur les politiques agricoles de 54 pays, les 38 pays de l'OCDE, les 5 États membres de l'UE, non membres de l'OCDE, et 11 économies émergentes. Il montre qu'en dépit de certaines baisses modestes observées, le soutien à l'agriculture est resté proche des niveaux record atteints, il y a peu. Si le soutien n'a pas beaucoup changé, les politiques agricoles ont pris un caractère plus actif et proactif en ce qu'elles rendent le secteur mieux équipé de relever les défis actuels et ambitionnent parallèlement de garantir que les systèmes alimentaires sauront s'adapter à l'évolution de la conjoncture. Le rapport de cette année est centré sur les politiques qui favorisent la croissance durable de la productivité en agriculture. Les pouvoirs publics appliquent de nombreuses approches différentes pour faire progresser la productivité tout en préservant les ressources naturelles et en réduisant les émissions de gaz à effet de serre d'origine agricole. Cependant, comme le relève le rapport, il importe qu'ils définissent des objectifs clairs en matière de croissance durable de la productivité et des indicateurs des progrès mesurables pour s'assurer que les politiques atteignent les objectifs qu'ils leur assignent. En outre, un usage plus efficace du soutien aux producteurs afin de promouvoir l'innovation et la durabilité environnementale au niveau des exploitations et un recentrage du soutien global sur la R-D ciblée permettraient de mieux mettre profit les dépenses publiques pour produire des biens publics et assurer une croissance durable de la productivité. Dans la lignée de la Déclaration publiée par les ministres de l'Agriculture réunis à l'OCDE en 2022, le rapport décrit un programme en sept points pour rendre l'agriculture plus durable, plus productive et plus résiliente, ainsi que pour rendre le soutien et les marchés agricoles plus efficaces et efficaces.

Intervention Research Anthony F. Buono, Henri Savall, Laurent Cappelletti, 2018-05-01. This volume continues to build on the relationship between the Research in Management Consulting series and the intervenor researchers at the Socio-Economic Institute for Firms and

Organizations ISEOR in Ecully France extending that partnership to our recent work with the French Foundation for Management Education FNEGE a foundation dedicated to closing the gap between the teaching and practice of management in France As part of the Foundation s multifaceted activities which range from seminars and an advanced training initiative for French doctoral students to joint programs with international organizations an associations FNEGE partnered with ISEOR to sponsor a series of workshops on developing high quality intervention research This volume is one of the results from that endeavor Although intervention research helps to uncover valuable insight into organizational dynamics and performance the challenge of capturing and disseminating that insight to both academics and practitioners is entrenched in the rigor relevance debate While we are witnessing increased calls for actionable knowledge this ideal unfortunately remains a rather elusive concept as critics contend either that rigorous academic research falls well short of relevance to the practitioner world or research that proves to be valuable to practitioners falls short of the rigor expected in academic life This volume is intended to help bridge that divide Drawing on the FNEGE ISEOR intervention research workshop the volume contains 18 chapters that explore the intervention research process from initial conceptualization to implementation to publication The volume is published in French and English
