Productivity In Singapore's Retail And Food Services Sectors: Contemporary Issues Mun Heng Toh, Shandre M Thangavelu, 2016-11-25 The Retail and Food Services sectors play an important role in Singapore. They add to the vibrancy of the economy and contribute to the social well being of Singaporeans. At the same time they are often highlighted and scrutinised for their low productivity performance and high reliance on manpower. There is to date a lack of local literature that addresses the issues faced by the two sectors at the enterprise and worker levels. This timely book includes major topics in services productivity in the Singapore context with emphasis on Retail and Food Services. Topics covered include the key productivity levers of the services sectors, holistic productivity measurement framework, effective entrepreneurship, manpower management, promotion by social media, marketing, costing process and accounting sophistication. These areas are explored through literature reviews and in depth interviews with companies and consumers. The chapters also include recommendations for policy makers and industry stakeholders. Written in a simple and accessible manner, this book will serve as an insightful guide to researchers, policy makers, industry practitioners and enterprises and those who are keen to learn from the Singapore experience.

Lifting Productivity In Singapore's Retail And Food Services Sectors: The Role Of Technology, Manpower And Marketing Mun Heng Toh, 2018-05-25 Measuring productivity is often considered a difficult task for industries in the services sectors. This book offers a solution in the form of the 8M approach: Management, Manpower, Method, Money, Market, Make, Material and Message. This 8M framework is used to analyze the many facets of productivity and make pertinent solutions and suggestions to lift productivity in enterprises, especially those in the retail and food services sectors. This book consists of 10 chapters. Each chapter is an in depth study of a specific measure, be it a technological system, a manpower strategy or a marketing program to improve the performance and productivity of small and medium enterprises (SMEs) in the retail and food services sectors in Singapore. Technology driven solutions are the highlight of this book. Every study presented involves field work in terms of surveys, interviews or focus group discussions with stakeholders. The findings of the studies lead to policy recommendations and suggestions for improving the productivity performance of SMEs in the retail and food services sectors.

Vietnamese Cooking Kokotaru, SahaBook, 2013-08-01 As a developing country with Buddhist influences, vegetarian dishes are both common and refined in Vietnamese cuisine. Tomato and mushroom soup, fried green rice cakes, stir fried okras and braised vegetables and cashew nuts are just a few of the delicious and easily prepared vegetarian options in this book. Vietnamese enjoy meat dishes as well. In these pages you will find many great recipes for chicken, beef, pork, seafood, frog and even silk worm pupae. Vietnam has no shortage of desserts; however, and if you have a sweet tooth you will enjoy one of my favourites: black glutinous rice and yogurt sweet soup.

Socio-economic Policy For The 21st Century Terence Wai Luen Ho, 2021-08-13 Singapore's rapid ascent from Third World to First since its independence in 1965 has won it acclaim as an economic miracle. Economic success has been accompanied by impressive achievements in social development as reflected in international rankings of human capital and human development. The city state's achievements are founded on a socio-economic system characterised by low tax rates, flexible labour markets and individual self-reliance with state support centred on social investment in education and public housing. Entering the 21st century however, slowing economic growth, an ageing population, global competition and widening income dispersion have put the Singapore System under strain. This has prompted a significant refresh of social and economic policies over the past 15-20 years. This book aims to bring the reader up to date on Singapore's socio-economic development in the first two decades of the 21st century. It looks back to the shifts in policy thinking that have accompanied structural changes to Singapore's society and economy, taking stock of the policy innovations aimed at sustaining income growth, economic security and social mobility. It looks around to compare Singapore's approach to those of other countries facing similar challenges, situating Singapore's experience in the wider international discourse on public policy. Finally, it looks ahead to how the Singapore System may evolve in the years to come.
