**Global Politics in the 21st Century** Robert J. Jackson, 2013-09-16 Objective critical optimistic and with a global focus this textbook combines international relations theory history up to date research and current affairs to give the student a comprehensive unbiased understanding of international politics It integrates theory and traditional approaches with globalization and research on newer topics such as terrorism the rise of new economic superpowers and the impact of global communications and social networking to offer the ideal breadth and depth of coverage for a one semester undergraduate course Student learning is supported and enhanced by box features and Close Up sections with context and further information Critical Case Studies that highlight controversial and complex current affairs topics and show how the world works in practice and questions to stimulate discussion review key concepts and encourage further study It brilliantly demonstrates the significance and interconnectiveness of globalization and new security challenges in the 21st century and illuminates the role of leadership in transnational crises

**Relational Inequalities** Donald Tomaskovic-Devey, Dustin Robert Avent-Holt, 2019 Organizations are the dominant social invention for generating resources and distributing them Relational Inequalities develops a general sociological and organizational analysis of inequality exploring the processes that generate inequalities in access to respect resources and rewards Framing their analysis through a relational account of social and economic life Donald Tomaskovic Devey and Dustin Avent Holt explain how resources are generated and distributed both within and between organizations They show that inequalities are produced through generic processes that occur in all social relationships categorization and their resulting status hierarchies organizational resource pooling exploitation social closure and claims making Drawing on a wide range of case studies Tomaskovic Devey and Avent Holt focus on the workplace as the primary organization for generating inequality and provide a series of global goals to advance both a comparative organizational research model and to challenge troubling inequalities

**Exploring Macroeconomics** Robert L. Sexton, 2018-12-10 The excitement of learning economics for the first time The experience of a lifetime of teaching it The Eighth Edition of Exploring Macroeconomics captures the excitement of learning macroeconomics for the first time through a lively and encouraging narrative that connects macroeconomics to the world in a way that is familiar to students Author Robert L. Sexton draws on over 25 years of teaching experience to capture students attention focusing on core concepts and expertly weaving in examples from current events and popular culture to make even classic economic principles modern and relatable The text sticks to the basics and applies a thoughtful learning design segmenting its presentation into brief visually appealing self contained sections that are easier for students to digest and retain compared to sprawling text Thoughtfully placed section quizzes interactive summaries and problem sets help students check their comprehension at regular intervals and develop the critical thinking skills that will allow them to think like economists Combined with a complete teaching and learning package including online homework and flexible teaching options Exploring Macroeconomics is sure to help you
