term he popularized has complete control over an individual's ability to achieve or fail to achieve any goal. And he developed techniques for improving and managing self image, visualization, mental rehearsal, relaxation, which have informed and inspired countless motivational gurus, sports psychologists and self help practitioners for more than fifty years. The teachings of Psycho Cybernetics are timeless because they are based on solid science and provide a prescription for thinking and acting that lead to quantifiable results. Before the mind can work efficiently we must develop our perception of the outcomes we expect to reach. Maxwell Maltz calls this Psycho Cybernetics when the mind has a defined target it can focus and direct and refocus and redirect until it reaches its intended goal. Tony Robbins from Unlimited Power

These simple techniques, some used in conjunction with essential oils, take just minutes to do and are easy to include in regular morning routines like putting on makeup or applying moisturizer. Breathing exercises, routines for specific problems and affirmations to rid the body and mind of toxins round out the book.
