provocative ideas about America's diverse and changing families. An excellent resource. Stephanie Coontz, author of *The Way We Really Are: Coming to Terms with America's Changing Families*. What has happened to marriage and families? What is the current state of families? Where are families headed? Where is family scholarship headed? As families face challenges today brought on by events that have changed their perception of the world, there is a need for a clear assessment of what has happened to families in the past and an examination of some data-based theories about what is likely to happen in the future. *The Handbook of Contemporary Families* explores how families have changed in the last 30 years and speculates about future trends. Editors Marilyn Coleman and Lawrence H. Ganong, along with a multidisciplinary group of contributors, critique the approaches used to study relationships and families while suggesting modern approaches for the new millennium. The Handbook looks at how changes within the contemporary family have been reflected in family law, family education, and family therapy. Features of this Handbook: Examines a diverse array of families and relationships in which people live, including chapters on alternative lifestyles, gay and lesbian relationships, economically distressed families, religion, and families; racial and ethnic diversity; a feminist vision for families; older families; and the effect of computers and other technology on family relationships. Includes both a historical review and future speculation on the subjects covered in each chapter. Interdisciplinary contributors representing a variety of fields such as history, family studies, sociology, law, therapy, social work, psychology, nursing, and human development. *The Handbook of Contemporary Families* is an excellent resource for advanced undergraduate and graduate students, researchers, educators, and practitioners who study and work with families in several disciplines, including Family Science, Human Development, and Family Studies, Sociology, Marriage, Family Therapy, and Social Work.

*What Is Parenthood?* Linda C. McClain, Daniel Cere, 2013-01-14. Extraordinary changes in patterns of family life and family law have dramatically altered the boundaries of parenthood and opened up numerous questions and debates: What is parenthood and why does it matter? How should society define, regulate, and support it? Is parenthood separable from marriage or couplehood when society seeks to foster children's well-being? What is the better model of parenthood from the perspective of child outcomes? Intense disagreements over the definition and future of marriage often rest upon conflicting convictions about parenthood. *What Is Parenthood?* asks bold and direct questions about parenthood in contemporary society and it brings together a stellar interdisciplinary group of scholars with widely varying perspectives to investigate them. Editors Linda C. McClain and Daniel Cere facilitate a dynamic conversation between scholars from several disciplines about competing models of parenthood and a sweeping array of topics, including single parenthood, adoption, donor-created families, gay and lesbian parents, transnational parenthood, parent-child attachment, and gender difference and parenthood.

**The Boomerang Age** Barbara Mitchell, 2011-12-31 The Boomerang Age was named an Outstanding Academic Title of 2007 by Choice Magazine Domestic changes are taking place in the lives of young adults in Western industrialized societies Today s young people often experience less permanency and more movement in a variety of family related roles statuses and living arrangements Among the most prominent changes is the phenomenon of boomerang kids young adults returning to the parental home after their initial entrance into the adult world The Boomerang Age explores the implications of this development in a changing sociocultural economic and demographic landscape Mitchell begins by addressing definitional conceptual and measurement issues relevant to the boomerang age She then places the issues in historical perspective by

considering trends in family organization the nuclear family marriage and divorce rates and fertility over the past hundred years with emphasis on the 1950s family as a cultural benchmark The book then turns to the contemporary trajectory of home leaving and returning analyzing the launch and return phases with regard to economic factors regional differences and racial and ethnic backgrounds Mitchell then explores the more personal dimensions of how a return to the family is complicated by partnership marriage divorce cohabitation homosexuality and parenthood among young couples Moving outside the home she looks at how public issues such as globalization the decline of the welfare state and various forms of social inequality affect the circumstances of young adulthood Here Mitchell offers specific social policy recommendations pertaining to education housing and dependency issues childcare and gender and racial equality The book concludes by critically evaluating the advantages and drawbacks of two possible future scenarios increased individualization in the pursuit of social goals or a more or less permanent return to the traditional extended family

*Family Homelessness* Karleen Jackson,2021-12-24 First published in 2000 This book examines the multiple factors which contribute to family homelessness and uses quantitative and qualitative analyses to identify those factors which represent the major supports and barriers to homeless exit and housing stability Results show that while family homelessness is not caused by a single issue but a combination of issues including alcohol substance abuse untreated mental illness domestic violence family configuration lack of community or social supports and or lack of affordable housing options community and social supports provide the single most significant impact on the ability of families to exit homelessness and maintain stable housing Quantitative data suggests that investing in community social supports for homeless families could facilitate their exit from homelessness and increase housing stability for families at risk while reducing those supports might increase homelessness Qualitative data indicates that supportive relationships are instrumental to understanding that while homelessness is a terrible experience those who experience homelessness are not terrible people Furthermore recognizing that a loss of housing does not necessarily mean the loss of one's symbolic representation of home could assist families in viewing homelessness as a transformational learning experience rather than a traumatic failure

Marriage and Civilization William Tucker,2014-02-03 In his stunning new book Marriage and Civilization author William Tucker looks at the evidence from biology evolution anthropology history and culture to come to a remarkable conclusion it was the monogamous pairing of

male and female unusual among mammals that led to human evolution Moreover it is monogamous marriage that has shaped Western Civilization giving us our sense of justice undergirded Western democracy and is the greatest institution we have for perpetuating human freedom and happiness Yet marriage is now under threat and perhaps not in ways that people suspect We could actually see the de facto abolition of marriage with the state taking many of the responsibilities formerly assumed by the nuclear family Among Tucker s many eye opening observations How primitive polygamy was a retrogression from the original monogamous structure of the human family Why monogamy was essential to the development of ancient Greek democracy Why it was the Catholic Church not the Bible or Christianity in general that was the great defender of monogamous marriage in Western Civilization Why polygamous societies from primitive farming communities to the Mongols to the Muslim world to the early Mormons are internally violent and have bloody borders Why same sex marriage utterly irrelevant in evolutionary terms is a distraction from the real marriage debate we should be having The prospects for monogamous marriage and the dangers if it collapses Marriage and Civilization might be the most important provocative and talked about book of the year     *The Baby Boon* Elinor Burkett,2000 Who stays late at the office when Mom leaves for a soccer match Whose dollars pay for the tax credits childcare benefits and school vouchers that only parents can utilize Who is forced to take those undesirable weekend business trips that Dad refuses The answer Adults without children most of them women have shouldered more than their share of the cost of family friendly America Until now
