

Teaching receptive skills (reading or listening)

This structure works for any reading or listening text. It aims to engage students, and to ensure they understand the text in detail. To make sure this happens they need to do quite a lot before they ever see or listen to the text.

Aim: Students listen or read for main ideas and detailed understanding		
Level: All		Time: 60 mins
Assumptions: This is what students can do already – e.g. they know most of the vocabulary on this topic.		Anticipated problems and solutions: This is what you think students will have trouble with and what you will do to help them e.g. they may not know a key word in the text, so you will teach it before they read.
Main Stages	Microstages	Sample Activities (Just choose one or two at each stage)
Pre- text Aim: Students are interested and ready to listen or read. Time: 10 minutes	Introduce the topic (lead in) Aim: Students are interested in the topic.	<ul style="list-style-type: none"> Students look at pictures related to the topic, and discuss / brainstorm what they know. Students discuss questions related to the topic. Students create a mind map related to the topic. Students see a headline and visuals from the text, and predict what it will say.
	Introduce the text Aim: Students now where the text comes from.	<ul style="list-style-type: none"> Show students the source of the text e.g. hold up the newspaper where the article is from.
	Pre-teach vocabulary Aim: Students know the vocabulary they will need to complete the listening / reading activities.	<ul style="list-style-type: none"> Teach students words they need. Students look up the words and teach each other.
Text	Listening / Reading for	<ul style="list-style-type: none"> Give a simple question – Is it about X or Y?
