of writers whose work is of central importance for thinking about design culture in the past present and future Essays from philosophers media and cultural theorists historians of design anthropologists cultural historians artists and literary critics all demonstrate the enormous potential of design studies for understanding the modern world Organised in thematic sections The Design Culture Reader explores the social role of design by looking at the impact it has in a number of areas especially globalisation ecology and the changing experiences of modern life Particular essays focus on topics such as design and the senses design and war and design and technology while the editor s introduction to the collection provides a compelling argument for situating design studies at the very forefront of contemporary thought

When Co-Creation Leads to Love

Melanie Oßwald, 2025-07-30 Innovating organizations struggle to select suitable co creators and their ideas Co creating market relevance is challenging as one s own contributions often lead to evaluation biases such as the IKEA Effect When Labor Leads to Love the foundation of this book Transcending organizational boundaries requires transcending individual evaluation Intersubjectivity is essential for this step This work suggests using intersubjectivity as a concept for more efficient open innovation beyond individual biases The exploratory sequential research design aims to develop a comprehensive understanding of evaluation biases and the concept of intersubjectivity in open innovation It begins with qualitative inquiry including a narrative literature review and expert interviews followed by the identification and empirical testing of novel intersubjectivity related variables through laboratory and field experiments In addition to its theoretical implications this book presents a typology of contexts requiring intersubjectivity and provides a working model to guide organizations and intermediaries in their co creation practices
