Natural Pet Care Gary Null, 2011-01-04 Right now there are more pets in America than people and many count their pets among the most beloved members of their family However a surprising number of pet owners are not aware that the lifestyle they provide their companions may not be a healthy one Gary Null has helped countless Americans improve their diets and their health with his natural approach to healthy living and scepticism of the healthcare and pharmaceutical industries Now with *Natural Pet Care* he carefully and compassionately lays out the ways we can improve our pets health and lives *Natural Pet Care* includes *Animals on the Move* which explains the importance of proper exercise *Everybody in the Tub* which covers natural bathing and grooming products and techniques *The Impetuous Pet* which helps in understanding your animal's behavior and appendices for those seeking holistic veterinary care pet friendly lodgings and animal friendly organizations *Natural Pet Care* also provides sources for natural pet foods and products while scrutinizing the pet food industry He describes for instance that almost any dog owner would be horrified to learn what really goes into most commercial dog foods even some of the more expensive brands including slaughterhouse throwaways and diseased animal parts As an alternative Null offers *The Tao of Chow* in which he recommends countless natural alternatives that can easily be made at

home recipes included and which can prolong and improve your pet's life. With this book on your reference shelf you and your spectacular pet will be ready to tackle anything naturally. *Natural Pet Care* deals extensively with the health of dogs and cats but also is devoted to other common pets including birds, rabbits, ferrets, fish, horses, rodents and snakes. Long overdue, Gary Null's *Natural Pet Care* will help pet owners provide their furry, feathered and scaled companions with the healthy lifestyle they need and deserve. *Better Homes and Gardens*, 1986. *Judging Passions* Roger Giner-Sorolla, 2013-03-01

Shortlisted for the British Psychological Society Book Award Academic Monograph category 2014. A CHOICE Outstanding Academic Title 2013. Psychological research shows that our emotions and feelings often guide the moral decisions we make about our own lives and the social groups to which we belong. But should we be concerned that our important moral judgments can be swayed by hot passions such as anger, disgust, guilt, shame and sympathy? Aren't these feelings irrational and counterproductive? Using a functional conflict theory of emotions, FCT, Giner-Sorolla proposes that each emotion serves a number of different functions, sometimes inappropriately, and that moral emotions in particular are intimately tied to problems faced by the individuals in a group and by groups interacting with each other. Specifically, the author suggests that these emotions help us as individuals and group members to appraise developments in the environment, learn through association, regulate our own behavior, communicate convincingly with others. Drawing on extensive research including many studies from the author's own lab, this book shows why emotions work to encourage reasonable moral behaviour and why they sometimes fail. This is the first single authored volume in the field of psychology dedicated to a separate examination of the major moral and positive emotions. As such, the book is ideal reading for researchers, postgraduates and undergraduates of social psychology, sociology, philosophy and politics. Ragdoll cat Roswitha Berger, 2022-04-16. This pedigree cat with expressive blue eyes and unusual coat pattern is as affectionate as a dog. She loves people more than anything and even willingly walks with you on a leash. She follows humans wherever they go and is also known as a dog cat. The striking silky coat has almost no undercoat so Ragdolls require little grooming. In terms of their activity, however, the cats are very demanding. The book gives you important tips on keeping Ragdolls and answers important questions: Why should Ragdolls be kept as indoor cats? What should be considered with vaccinations? What food does the cat need? What preventive care is important for the health of the Ragdoll? Why is training important? The book gives you a deep insight into the character of cats and gives valuable tips on training and dressage. Learn why some Ragdoll cats train the owner or the owner and not the other way around. Contents: History of the breed and hereditary diseases, Breed characteristics, Requirements of the breed, Outdoor or indoor cat, Healthcare, Selection of the animal, Preparation for moving in, Education and training, Sudden behavior problems. The book is interesting for all readers who want to get a Ragdoll as well as for people who are interested in this cat breed. All You Need Is Less Madeleine Somerville, 2014-04-21 Most eco friendly books start with terror inducing lists of the carcinogenic chemicals you are liberally slathering all over every single surface in your house painting most people as unwitting eco villains happily Lysol'ing your way straight to hell Well readers can just relax and unpack the plastic bags no guilt trips today At this point I think we all know that cleaning with bleach is bad and pop cans should go into the recycling we're beyond that yes All You Need Is Less is about realistically adopting an eco friendly lifestyle without either losing your mind from the soul destroying guilt of using a plastic bag because you forgot your reusable ones in the trunk of your car again or becoming a preachy know it all whom everyone loathes from the tips of her organically shampooed hair to the toes of her naturally sourced recycled sandals It's all gotten kind of complicated hasn't it These days you're not green enough unless you quit your day job and devote your entire life to attaining an entirely carbon neutral lifestyle or throw out all of your possessions and replace them with their new green alternatives This whole eco friendly thing seems to have devolved into a horrific cycle of guilt shaming and one upping and as a result people are becoming exhausted and getting annoyed and oh my god we are living in a world where one of my grocery bags says This reusable bag makes me better than you It doesn't have to be this way It is possible to take easy baby steps towards a more earth friendly lifestyle without stress guilt or judgmental eco shaming Top eco blogger Madeleine Somerville is here with really original ideas on how to save money and the planet Her ideas are even fun Somerville has emerged as the voice of reason on urban homesteading that is stress free sanity based and above all doable From the book Stop Using Disgusting Dryer Sheets Do you all know that most dryer sheets coat use animal fats to coat your clothes with that fresh fragrance Yeah It's disgusting Switch to wool dryer balls they're simple to make plus a fun craft project for kids and they work like a hot damn Use Jars Instead of Travel Mugs 1 You can screw on the lid and literally throw a jar full of coffee into your purse no more balancing keys coffee files etc 2 It takes immense resources to manufacture and sell all those plastic metal travel mugs which are often lost forgotten You have old food jars hanging around anyway why not make use of them If they break or get lost at
