Early Years Non-Fiction Margaret Mallett, 2003-12-16 This lively and informative text examines children's first experience of non-fiction during the pre-school and foundation years. Its careful consideration of different kinds of quality non-fiction including books, posters, charts and computer software will provide a helpful framework from which Early Years teachers can work. The book offers a rich resource of information with illustrative case studies and many examples of children's responses to non-fiction providing coverage of pre-school and foundation years for children up to 6 years of age, references to research findings on the place of non-fiction in early years and references to The National Literacy Strategy, Early Learning Goals and the National Curriculum for English.

Teaching the Arts to Engage English Language Learners Margaret Macintyre Latta, Elaine Chan, 2010-12-20 Written for prospective and practicing visual arts, music, drama and dance educators, *Teaching the Arts to Engage English Language Learners* offers guidance for engaging ELLs alongside all learners through artistic thinking. By paying equal attention to visual art, music, drama and dance education, this book articulates how arts classrooms can create rich and supportive contexts for ELLs to grow socially, academically and personally. The making and relating, perceiving and responding and connecting and understanding processes of artistic thinking create the terrain for rich curricular experiences. These processes also create the much-needed spaces for ELLs to gain communicative practice skill and confidence. Special features include generative texts such as films, poems and performances that function as springboards for arts educators to adapt according to the needs of their classroom; teaching tips; formative assessment practices and related instructional tables and resources; an annotated list of internet sites; reader-friendly research articles and instructional materials; and a glossary for readers' reference.

Making Games for Impact Kurt Squire, 2021-10-26 Designing games for learning: case studies show how to incorporate impact goals, build a team and work with experts to create an effective game. Digital games for learning are now commonplace, used in settings that range from K-12 education to advanced medical training. In this book, Kurt Squire examines the ways that games make an impact on learning, investigating how designers and developers incorporate authentic social impact goals, build a team and work with experts in order to make games that are effective and marketable. Because there is no one design process for making games for impact, specific processes arise in response to local needs and conditions. Squire presents a series of case studies that range from a small playable game created by a few programmers and an artist to a multimillion-dollar project with funders, outside experts and external constraints. These cases, drawn from the Games Learning Society Center at the University of Wisconsin-Madison, show designers tackling such key issues as choosing platforms, using data analytics to guide development and designing for new markets. Although not a how-to guide, the book offers developers, researchers and students real-world lessons in greenlighting a project, scaling up design teams, game-based assessment and more. The final chapter examines the commercial development of an impact game in detail, describing the creation of an astronomy game, *At Play in the Cosmos*, that ships with an introductory college textbook. *Pop*

Culture and Power Dawn H. Currie, Deirdre M. Kelly, 2022-03-01 Literacy education has historically characterized mass media as manipulative towards young people who as a result are in need of close reading skills By contrast *Pop Culture and Power* treats literacy as a dynamic practice shaped by its social and cultural context It develops a framework to analyse power in its various manifestations arguing that power works through popular culture not as everyday media *Pop Culture and Power* thus explores media engagement as an opportunity to promote social change Seeing pop culture as a teaching opportunity rather than as a threat Dawn H Currie and Deirdre M Kelly worked with K 12 educators to investigate how pop culture can support teaching for social justice Currie and Kelly began the research for this project with a teacher education seminar in media analysis where participants designed classroom activities using board games popular film music videos and advertisements These activities were later piloted in participants classrooms enabling the authors to identify and address practical issues encountered by student learners Case studies describe the design implementation and retrospective assessment of activities engaging learners in media analysis and production Following the case studies the authors consider how their approach can foster ethical practices when engaging in the digital environment *Pop Culture and Power* offers theoretically informed yet practical tools that can help educators prepare youth for engagement in our increasingly complex world of mediated meaning making

Personalising Learning in Teacher Education Mellita Jones, Karen McLean, 2018-03-28 This volume sheds light on debates about personalised learning in teacher education by exploring the popular emergence of personalising learning in education and hence its significance in teacher education in the 21st century It examines personalising learning theory and explores the tenets of this theory and its recent trends in international settings The theory is explored in relation to both general and higher education pedagogy and in a range of examples within a teacher education context The examples from practice provide insights into maximising the potential for personalising learning theory to enhance teaching learning and assessment in teacher education The book includes case studies involving pre service teachers working in communities of practice with one another with schools and with the wider community Examples of technology for personalising learning are also described All the case studies demonstrate how the learner is made central to the teaching and assessment approaches adopted and contributes to a lifelong learning continuum Providing insights into a new pedagogy for teacher education that leads to an enriched student experience the book presents a model for personalising learning in teacher education that offers support for 21st century teacher educators

Whole School Approaches to Sustainability Arjen E.J. Wals, Birgitte Bjønness, Astrid Sinnes, Ingrid Eikeland, 2024-06-22 In response to urgent global sustainability challenges Education for Sustainable Development ESD and Global Citizenship Education have been prioritized in the United Nations Agenda 2030 under SDG 4 7 There is a growing awareness that treating concepts such as global citizenship sustainable development climate urgency and health and well being as separate subjects or topics to be added to a curriculum is ineffective as they are highly interconnected Additionally this approach is problematic as schools already have an overcrowded curriculum This

edited volume brings together a range of scholars and reflective practitioners from across the globe who are investigating and enacting a whole school approach WSA in education for sustainability While the WSA and related approaches such as those advocated by EcoSchools are becoming more popular there is a lack of understanding of their underlying principles and the different manifestations in diverging socio cultural contexts at different educational levels This collection of chapters provides a deeper understanding of the WSA while also addressing its effectiveness possibilities for upscaling professional development needs for WSA practitioners interlinkages with more conventional curriculum requirements expectations of students and parents and more This is an open access book Assessment as Information Practice Gaby Haddow,Hollie White,2021-12-29 Assessment as Information Practice provides information about a range of collection and service based assessment approaches that can be applied in different contexts to benefit institutions and the users they serve by enhancing quality efficiency and effectiveness With contributions from practitioners and researchers in Australia New Zealand Thailand and the United States the chapters discuss practical and theoretical aspects of assessment in collecting institutions Each chapter focuses on specific assessment approaches or contexts while providing guidance on method and use The chapters can be read alone or as a series to gain an appreciation of assessment approaches including assessment oriented research storytelling design thinking data visualisation mixed methods assessment for digital resources data for institutional repository assessment bibliometric methods and impact assessment Assessment as Information Practice serves as a resource for practitioners involved in assessment activities Detailing the processes and considerations that will contribute to more effective and sustainable assessment programmes the book is also relevant to faculty researchers and students working in the information sector **Resources in Education** ,1993 Revolutionizing Modern Education through Meaningful E-Learning Implementation Khan, Badrul H.,2016-06-27 It is not enough for an instructor to merely present facts to their students the presentation of information must be made accessible and understandable in the context of the student As communication technologies become more widely available traditional educational institutions are no longer the only source of information What is now necessary is to reconsider what makes for meaningful education and apply those practices to digital natives Revolutionizing Modern Education through Meaningful E Learning Implementation evaluates the means by which online education can be improved and systematically integrated more fluidly into traditional learning settings with special focus on the ethical pedagogical and design aspects of building online courses This publication aims to elucidate the rewards and follies of online education for educators administrators programmers designers and students of education

Pedagogies of Biomedical Science Donna Johnson,2024-05-31 This book confronts the continually evolving nature of biomedical science education by providing a robust account of learning pedagogies and best practice for scholars and researchers in the field Rather than considering subdisciplines of biomedical science education separately the volume takes a holistic approach and considers the complexities of teaching biomedical science as a whole providing a nuanced overview of

how a particular practice fits in such a course overall as well as providing support for development within the reader's own subdiscipline. Ultimately this holistic approach allows for expansive discussion of relevant pedagogical approaches that will directly inform innovations in the contemporary teaching of biomedical science education. Novel in approach and underpinned by the latest in research innovations, this book will appeal to scholars, researchers, and postgraduate students in the fields of medical education, higher education, and curriculum studies. Policy makers involved with health education and promotion, as well as educational research, will also benefit from the volume.
