Ancient India

Can you find India on a world map? What do you already know about India's culture? Did you know that the ancient Indian Valley culture is as old as the Egyptian and Mesopotamian cultures? Did you know the Indians performed early dentistry thousands of years ago? Or that they had the first indoor plumbing, including toilets and showers?

Chandragupta Maurya started the Maurya Empire in about 321 B.C. It was the first time one ruler brought together almost all of India. The Maurya built roads, bridges and even a postal system. Its most famous leader was Emperor Asoka (see inside). When Asoka died, the Maurya Empire lasted about 50 more years. Around 500 years later, the Gupta Empire began.

When you hear the term Golden Age, you may remember the ancient Greeks. This term refers to the best of times for any civilization. The Gupta Empire was India's Golden Age. This empire lasted from A.D. 320 to about 500. During that time, music, art, math and science were very important. The Indian government paid writers, artists and teachers. During the Gupta Empire, mathematicians developed the number system 1-9, which we now call Arabic numerals. (Zero came a little later.) New medicines were developed, and doctors began performing surgery. The Gupta culture was

also very tolerant of religious differences. People were free to practice their religion without persecution, even if they did not worship the same way as the emperors. Invasions by the Huna people brought the Gupta Empire to an end.

The people of India gave the world many things we still use today. For example, yoga originated in India about 5,000 years ago. Yoga is a part of the Hindu religion. It is a way to exercise your mind, soul and body. Some scientists believe the first vaccinations were given in ancient India as well. After numerals were developed, Indian mathematicians were the first to introduce the concept of zero. They used dots to represent the concept of nothingness and to represent place value. If you like to play chess, you might be interested to know Indian people played an early version of the game about 3,000 years ago. (Or should that be 3... years ago?) The many languages in India gave us several English words: cheetah, shampoo, pajamas, dungarees, cashmere and bungalow. Spices like cinnamon, pepper, nutmeg, paprika and cloves originated in India.

Now that you've read a little bit about the contributions the people of ancient India made to the world, let's talk about the people who came up with all those great ideas. Who were they? What was life like for them hundreds of years ago? What did they believe? Believe it or not, all you have to do is turn the page to find out!

Connections

The Questions of Climate Change

In January 2012 the Wall Street Journal newspaper printed an article signed by 16 scientists and engineers. The article said there was no need to panic about climate change. They believe the scientists who say human-made carbon dioxide causes global warming are wrong. Carbon dioxide is used by plants and is found in lower amounts today than when plants grew millions of years ago. They also say the Earth has not warmed significantly over the last 10 years. They are concerned that scientists who are doubtful about global warming are being fired from their jobs.

255 scientists from the National Academy of Sciences do not agree with this view. They

point out that most of the 16 people who signed the Wall Street Journal article are not experts in climatology. One is a medical doctor, another an airplane designer and still another an electrical engineer. This larger group of scientists says that there is plenty of proof that the Earth is heating up because of our use of fossil fuel.

Both groups believe the other side just wants money. The 16 scientists and engineers say climate scientists want government money for their research. The 255 National Academy of Sciences scientists say many people arguing against climate change are being paid in one way or another by the fossil fuel industry. Some of the 16 scientists and engineers who wrote

the Wall Street Journal article have worked for oil companies. What do you think? Is our Earth warming?

Vol 13 Issue 4 World History Studies Weekly

Elena Piffero

Vol 13 Issue 4 World History Studies Weekly:

Library of Congress Catalog: Motion Pictures and Filmstrips Library of Congress, 1968 Deccan in Transition, 1600 to 1800 Umesh Ashok Kadam, 2023-03-31 This book presents the socio cultural and historical trajectories of the Deccan plateau as well as the coastal areas of the current states of Andhra Pradesh Maharashtra Karnataka and Goa It studies the art of diplomacy by discussing the diplomatic relations between the Marathas and various European companies as well as the indigenous regional states The author also probes into the Maratha naval policy the evolution of a composite Deccani culture and the cultural flux that was taking place within the Maratha country Through an interdisciplinary lens the volume examines how caste and gender relations operated how the idea of dissent was generated as well as the socio political impact of various linguistic ethnic and religious groups Through a study of monuments sculpture and paintings prevalent in the region the book also discusses the developments in art and architecture in the Deccan Rich in archival sources this book is a must read for scholars and researchers of Indian history colonial history South Asian history Maratha history and history in general

Sustainable Urbanism in Developing Countries Uday Chatterjee, Arindam Biswas, Jenia Mukherjee, Dinabandhu Mahata, 2022-04-19 The mushrooming of illegal housing on the periphery of cities is one of the main consequences of rapid urbanisation associated with social and environmental problems in the developing countries Sustainable Urbanism in Developing Countries discusses the linkage between urbanism and sustainability and how sustainable urbanism can be implemented to overcome the problems of housing and living conditions in urban areas Through case studies from India Indonesia China etc using advanced GIS techniques this book analyses several planning and design criteria to solve the physical social and economic problems of urbanisation and refers to urban planning as an effective measure to protect and promote the cultural characteristics of specific locations in these developing countries FEATURES Investigates an interdisciplinary approach to urbanism including urban ecology ecosystem services sustainable landscapes and advanced geographical systems Analyses unique case studies of rapid urbanisation from a local to a national scale in countries such as India Sri Lanka China Bangladesh Malaysia and Indonesia and their global impact Examines the use of GIS and spatial statistics in analysing urban sprawl and the massive amount of data gathered by every operational activity of municipalities Focuses on the holistic perspective of sustainable urbanism and the harmony in the human nature relationship to achieve sustainable development Covers a wide range of issues manifested in urban areas with economic societal and environmental implications contributed by leading scholars from the Global South The Publishers Weekly , 1916

Feminist Activism in the Digital Era Asli Kotaman, Gülüm Şener, 2025-03-31 Focusing on various regions this collection highlights a rich diversity of feminist activism The ways feminist movements work the tools they use and the outcomes they achieve vary with local dynamics and cultural contexts In Pakistan digital activists resist gender based violence through social media while in Mexico protests against femicide resonate globally through digital platforms In Turkey feminist video

activism builds collective memory and in Poland women organize online against abortion bans This diversity showcases the adaptability creative strategies and evolution of feminist movements as they navigate opportunities in the digital age Feminist activism expresses itself in different voices and methods of resistance across regions yet all these variations underline a global unity in the fight for equality This collection demonstrates the expansive dynamic nature of feminist movements worldwide and examines how local and global struggles intersect

Pitman's Journal of Commercial Education ,1893 **African Charismatics** Johnson Asamoah-Gyadu,2004-10-01 This volume examines Pentecostal charismatic renewal in an African context Ghanaian Pentecostalism in its modern charismatic form has become the most visible expression of renewal within indigenous Christianity The book first articulates the contribution of the older African initiated churches AICs to local Christianity arguing that in spite of a present decline the AICs have left an enduring theological imprint on indigenous Christian expression Furthermore it accounts for the rise of the new independent churches the charismatic ministries These have been proliferating across the West Africa sub region since the late 1970s In addition to this the book explores how the emphases of the new Ghanaian charismatics internationalism transformation prosperity healing and deliverance provide useful insights into the nature of modern African Pentecostal spirituality

Mussolini, Mustard Gas and the Fascist Way of War Charles Stephenson,2024-04-18 An examination of the first conflict to see the large scale systematic deployment of chemical weaponry since the end of World War I In early October 1935 and without any declaration of war some two hundred thousand men comprising soldiers and airmen of the Italian armed forces Fascist Blackshirt Militia Eritrean ascari and Somali dubats invaded the independent state of Ethiopia Abyssinia It was an operation entirely of choice the chooser being Il Duce Benito Mussolini The resultant conflict is often described as a colonial war while it was certainly launched with the intent of turning Ethiopia into an Italian possession it was in fact a war of aggression against an independent sovereign state with membership of the League of Nations A state that had according to one of its nineteenth century rulers been for fourteen centuries a Christian island in a sea of pagans The swiftness of the Italian victory resulted from their possession and ruthless use of technology most particularly aircraft mustard gas and motorisation mechanisation Since they were fighting an enemy who possessed none of these things then they were able to wage indeed inaugurate what the prominent military theorist JFC Fuller dubbed totalitarian warfare or as it became known a few years later total war This he opined was the Fascist the scientific way of making war In his considered view the Fascist Army that waged it was a scientific military instrument This book examines that campaign in military and political terms

What Happened to Participation? Urban Development and Authoritarian Upgrading in Cairo's Informal Neighbourhoods Elena Piffero,2009 *The Publishers' Circular and Booksellers' Record of British and Foreign Literature* ,1893 *The English Catalogue of Books ...* Sampson Low,1873 *The Changing World of Caste and Hierarchy in Bengal* Sudarshana Bhaumik,2022-08-26 This book challenges the prevalent assumptions of caste hierarchy and social mobility in pre colonial

and colonial Bengal It studies the writings of colonial ethnographers Orientalist scholars Christian missionaries and pre colonial literary texts like the Mangalkavyas to show how the concept of caste emerged and argues that the jati order in Bengal was far from being a rigidly reified structure but one which had room for spatial and social mobility The volume highlights the processes through which popular myths and beliefs of the lower caste orders of Bengal were Sanskritized It delineates the linkages between sedantized peasant culture and the emergence of new agricultural castes in colonial Bengal Moreover the author discusses a wide spectrum of issues like marginality and hierarchy the spread of Brahmanical hegemony the creation of deities and the process of Sanskritization popular Saivism the cult of Manasa in Bengal and the revolt of 1857 and the caste question Rich in archival sources this book will be an essential read for scholars and researchers of colonial history Indian history political sociology caste studies exclusion studies cultural studies social history cultural history and South Asian studies especially those interested in undivided Bengal East European Accessions Index ,1960 Sport in Capitalist Society Tony Collins,2013-04-12 Why are the Olympic Games the driving force behind a clampdown on civil liberties What makes sport an unwavering ally of nationalism and militarism Is sport the new opiate of the masses These and many other questions are answered in this new radical history of sport by leading historian of sport and society Professor Tony Collins Tracing the history of modern sport from its origins in the burgeoning capitalist economy of mid eighteenth century England to the globalised corporate sport of today the book argues that far from the purity of sport being corrupted by capitalism modern sport is as much a product of capitalism as the factory the stock exchange and the unemployment line Based on original sources the book explains how sport has been shaped and moulded by the major political and economic events of the past two centuries such as the French Revolution the rise of modern nationalism and imperialism the Russian Revolution the Cold War and the imposition of the neo liberal agenda in the last decades of the twentieth century It highlights the symbiotic relationship between the media and sport from the simultaneous emergence of print capitalism and modern sport in Georgian England to the rise of Murdoch s global satellite television empire in the twenty first century and for the first time it explores the alternative revolutionary models of sport in the early twentieth century Sport in a Capitalist Society is the first sustained attempt to explain the emergence of modern sport around the world as an integral part of the globalisation of capitalism It is essential reading for anybody with an interest in the history or sociology of sport or the social and cultural history of the modern world **The Literary World** ,1880 The Publisher ,1902 Green Imperialism Richard H. Grove,1996-03-29 The first book to document the origins and early history of environmentalism especially its colonial and global aspects Publishers' Circular and Booksellers' Record of British and Foreign Literature ,1895 The Modern Epidemic William Johnston,2020-03-23 Through a historical and comparative analysis of modern Japan s epidemic of tuberculosis William Johnston illuminates a major but relatively unexamined facet of Japanese social and cultural history He utilizes a broad range of sources including medical journals and monographs archaeological evidence literary works

ethnographic data and legal and government documents to reveal how this and similar epidemics have been the result of social changes that accompanied the process of modernization Johnston also shows the ways in which modern states private organizations and individual citizens have responded to epidemics and in the process reexamines the concept of the epidemic itself showing that epidemics must be thought of not only in medical and biological terms but in political social and cultural terms as well

Revisiting Colonialism and Colonial Labour Sivachandralingam Sundara Raja, Shivalinggam Raymond, 2023-07-31 This book argues that the prevailing view of colonialism that it was a negative and destructive phenomenon needs to be rethought It focuses on the experiences of the South Indian working class large numbers of which came to Malaya in the early years of the twentieth century emigrating from socially economically and environmentally inhospitable south India It examines the opportunities which colonialism presented for these people highlighting also the British approach to colonialism in Malaya an approach which emphasised conservatism and tradition and which protected the interests of the Malay aristocrat classes and by extension the Malay masses in order to compensate for European economic dominance and the influx of a non Malay labour force Overall the book demonstrates that the South Indians a class whose identity social existence and prospects were inextricably linked to imperial processes benefitted from colonialism and should be viewed as an active transnational entity within a constructive system rather than as passive victims of repressive destructive forces
