Audra J. Wolfe, 2020-08-04 The Cold War ended long ago but the language of science and freedom continues to shape public debates over the relationship between science and politics in the United States Scientists like to proclaim that science knows no borders Scientific researchers follow the evidence where it leads their conclusions free of prejudice or ideology But is that really the case In Freedom's Laboratory Audra J Wolfe shows how these ideas were tested to their limits in the high stakes propaganda battles of the Cold War Wolfe examines the role that scientists in concert with administrators and policymakers played in American cultural diplomacy after World War II During this period the engines of US propaganda promoted a vision of science that highlighted empiricism objectivity a commitment to pure research and internationalism Working both overtly

and covertly wittingly and unwittingly with governmental and private organizations scientists attempted to decide what exactly they meant when they referred to scientific freedom or the US ideology More frequently however they defined American science merely as the opposite of Communist science Uncovering many startling episodes of the close relationship between the US government and private scientific groups Freedom s Laboratory is the first work to explore science s link to US propaganda and psychological warfare campaigns during the Cold War Closing in the present day with a discussion of the 2017 March for Science and the prospects for science and science diplomacy in the Trump era the book demonstrates the continued hold of Cold War thinking on ideas about science and politics in the United States **This Changes Everything** Naomi Klein,2014-09-16 With strong first hand reporting and an original provocative thesis Naomi Klein returns with this book on how the climate crisis must spur transformational political change *Strengthening Data Science Methods for Department of Defense Personnel and Readiness Missions* National Academies of Sciences, Engineering, and Medicine,Division on Engineering and Physical Sciences,Board on Mathematical Sciences and Their Applications,Committee on Applied and Theoretical Statistics,Committee on Strengthening Data Science Methods for Department of Defense Personnel and Readiness Missions,2017-03-06 The Office of the Under Secretary of Defense Personnel Readiness referred to throughout this report as P R is responsible for the total force management of all Department of Defense DoD components including the recruitment readiness and retention of personnel Its work and policies are supported by a number of organizations both within DoD including the Defense Manpower Data Center DMDC and externally including the federally funded research and development centers FFRDCs that work for DoD P R must be able to answer questions for the Secretary of Defense such as how to recruit people with an aptitude for and interest in various specialties and along particular career tracks and how to assess on an ongoing basis service members career satisfaction and their ability to meet new challenges P R must also address larger scale questions such as how the current realignment of forces to the Asia Pacific area and other regions will affect recruitment readiness and retention While DoD makes use of large scale data and mathematical analysis in intelligence surveillance reconnaissance and elsewhere exploiting techniques such as complex network analysis machine learning streaming social media analysis and anomaly detection these skills and capabilities have not been applied as well to the personnel and readiness enterprise Strengthening Data Science Methods for Department of Defense Personnel and Readiness Missions offers and roadmap and implementation plan for the integration of data analysis in support of decisions within the purview of P R Technical questions and answers for job interview Offshore Oil & Gas Platforms Petrogav International Oil & Gas Training Center,2020-06-30 The job interview is probably the most important step you will take in your job search journey Because it s always important to be prepared to respond effectively to the questions that employers typically ask at a job interview Petrogav International has prepared this eBooks that will help you to get a job in oil and gas industry Since these questions are so common hiring managers will expect you to be able to answer them smoothly and

Intersection Cohomology, Simplicial Blow-Up and Rational Homotopy David Chataur, Martintxo Saralegi-Aranguren, Daniel Tanré, 2018-08-09 Let X be a pseudomanifold In this text the authors use a simplicial blow up to define a cochain complex whose cohomology with coefficients in a field is isomorphic to the intersection cohomology of X introduced by M Goresky and R MacPherson The authors do it simplicially in the setting of a filtered version of face sets also called simplicial sets without degeneracies in the sense of C P Rourke and B J Sanderson They define perverse local systems over filtered face sets and intersection cohomology with coefficients in a perverse local system In particular as announced above when X is a pseudomanifold the authors get a perverse local system of cochains quasi isomorphic to the intersection cochains of Goresky and MacPherson over a field We show also that these two complexes of cochains are quasi isomorphic to a filtered version of Sullivan s differential forms over the field $\mathbb{Q}$ In a second step they use these forms to extend Sullivan s presentation of rational homotopy type to intersection cohomology

The Greening of Asia Mark L. Clifford, 2015-04-07 One of Asia s best respected writers on business and economy Hong Kong based author Mark L Clifford provides a behind the scenes look at what companies in China India Japan Korea the Philippines Indonesia Hong Kong Singapore and Thailand are doing to build businesses that will lessen the environmental impact of Asia s extraordinary economic growth Dirty air foul water and hellishly overcrowded cities are threatening to choke the region s impressive prosperity Recognizing a business opportunity in solving social problems Asian businesses have

developed innovative responses to the region's environmental crises. From solar and wind power technologies to green buildings, electric cars, water services and sustainable tropical forestry, Asian corporations are upending old business models in their home countries and throughout the world. Companies have the money, the technology and the people to act, yet as Clifford emphasizes, support from the government in the form of more effective market-friendly policies and the engagement of civil society are crucial for a region-wide shift to greener business practices. Clifford paints detailed profiles of what some of these companies are doing and includes a unique appendix that encapsulates the environmental business practices of more than fifty companies mentioned in the book.

Infrastructure Delivery Planning Janice Morphet, 2016-04-20. This important text book is the first to be written about infrastructure planning in Britain. Written by an experienced author, the book reviews the rapid rise in the use of infrastructure delivery planning at national and neighbourhood level. The key components of infrastructure delivery are set out and analysed, including the development of government policy, planning, regulation, funding, environmental processes and legal challenges. Situating this within international, European and domestic economic, territorial and social policy, the author draws on a variety of practical examples to discuss the role of different institutions in the delivery of infrastructure and to illustrate the various issues and merits of each approach. This is a key text for those engaged in the study and application of infrastructure delivery planning, including planners, engineers, public administrators and policy advisers.
