

Theory and Hypothesis

A whirling bung in regular circular motion is constantly changing velocity (the magnitude of the velocity remains constant, but the direction continually changes). It follows that the bung is thus accelerating and it is known from Newton's 2nd Law that an unbalanced force must be acting upon the bung. The force causing the bung to undergo circular motion is known as the centripetal force, F , which is directed towards the centre of the orbit.

The equation for centripetal force is:

$$F = \frac{mv^2}{r}$$

Equation 1

Where:

F : Centripetal Force (N)

m : mass of whirling bung (kg)

v : orbital speed of the whirling bung (ms^{-2})

r : the radius of circular motion

By substituting the expression:

$$v = \frac{2\pi r}{T}$$

Equation 2

Into Equation 1, an expression for the time period of the bung in terms of the radius can be manipulated into:

$$T^2 = \frac{4\pi^2 m}{F} r$$

Equation 3

The Kantian Subject Fernando M. F. Silva,Luigi Caranti,2023-11-30 This book presents a critical reconsideration of the Kantian cognitive and practical subject Special attention is devoted to highlighting the complex relation between subjectivity as it is presented in the three critiques and the way in which it is construed in other writings in particular the Anthropology While for Kant our cognitive apparatus and the structure of our will are common to all humans the anthropological subject reveals degrees of variation depending on a myriad of external circumstances that pose a challenge to the unity of Kant s account and await theoretical solutions The chapters collected in the volume delve into how the different shapes of human nature are not unrelated They explore how and why different Kantian subjects are closely connected at their core if not entirely unified The notions of personality humanity and citizenship will serve as leading threads for the reconstruction of this possible underlying unity An engaging read that promises to deepen our understanding of human nature the volume will be of great interest to scholars and researchers of philosophy politics psychology social anthropology ethics and epistemology
