

COMPETENT LEADERSHIP MANUAL

A Quick Guide

*By Dale Hartle DTM
April 2008*

This document outlines the contents of the Competent Leadership Manual, and how the manual can be utilised for the benefit of Spinnaker Toastmasters Club members.

Who has the Competent Leadership Manual?

All new members automatically receive a manual along with the Competent Communicator manual in their new member pack.

All current Committee members should have a manual which could be purchased by the club, and all other members may purchase the manual from District Supplies.

What is the Competent Leadership Manual?

This manual consists of 10 projects, comprising some 20+ individual activities, some meeting related, and some to be completed outside of a meeting, in your own time as part of a specific role. You can complete only one activity per meeting, or event.

The objective of the manual is to develop a range of leadership skills, with each project focussing on a different skill. The projects do not need to be completed in the order they are in the manual.

The VP Education should assign an evaluator who will observe the activity being performed by the member, and give personal feedback. Oral evaluations are recommended only if meeting time permits, but written evaluations are always required. Evaluations require answering 4-5 questions about how the person fulfilled the role, what could be done differently and what was done well.

All 10 projects must be completed to be awarded the Competent Leader Award.

This document outlines the roles and how they should be undertaken, with examples of the types of activities which are suitable.

Toastmasters Competent Leader Manual Project Evaluator:

Mentoring Derrick Trimble, 2015-01-13 The gift of mentoring is one of the benefits offered through a Toastmasters International club educational program. If a club has a mentoring program established, this book will stimulate new thinking for consideration. Is a club struggling to meet the expectation of a mentoring program? Mentoring Value Based Empowerment offers insights for developing a transformational mentor experience. An essential element of any successful club level mentoring program is to demonstrate the Toastmasters International values of respect, integrity, service, and excellence.

The Toastmasters International Guide to Successful Speaking Jeff Slutsky, Michael Aun, 1997 For everyone who needs to communicate effectively before groups from two to 2,000, this volume teaches readers the best places to start and how to build their speaking experiences while enhancing their careers, business reputations, and serving the community. Includes tips, techniques, and strategies made famous by Toastmasters International. The Phoenix Lecturer Loga

Narayanasamy, 2025-03-03 Loga Narayanasamy, an English lecturer for nearly two decades, shares his inspiring journey in *The Phoenix Lecturer: An English Teacher's Journey of Rising from Ashes to Inspire*. Beginning with his rise as a high-profile educator in 2010, the memoir focuses on the turbulent years from 2018 to 2020 when he faced life-threatening challenges due to a harmful association. Originally a personal journal, the book explores resilience, personal growth, and the power of storytelling. Narayanasamy hopes to inspire readers, especially the younger generation, by encouraging them to share their own narratives and overcome obstacles to achieve their dreams. **IT Project Management: A Geek's Guide to**

Leadership Byron A. Love, 2016-10-04 This book's author, Byron Love, admits proudly to being an IT geek. However, he had found that being an IT geek was limiting his career path and his effectiveness. During a career of more than 31 years, he has made the transition from geek to geek leader. He hopes this book helps other geeks do the same. This book addresses leadership issues in the IT industry to help IT practitioners lead from the lowest level. Unlike other leadership books that provide a one-size-fits-all approach to leadership, this book focuses on the unique challenges that IT practitioners face. IT project managers may manage processes and technologies, but people must be led. The IT industry attracts people who think in logical ways, analytical types who have a propensity to place more emphasis on tasks and technology than on people. This has led to leadership challenges such as poor communication, poor relationship management, and poor stakeholder engagement. Critical IT projects and programs have failed because IT leaders neglect the people component of people, process, and technology. Communications skills are key to leadership. This book features an in-depth discussion of the communications cycle and emotional intelligence, providing geek leaders with tools to improve their understanding of others and to help others understand them. To transform a geek into a geek leader, this book also discusses self-leadership skills so geek leaders know how to lead others by leading themselves first. Followership and how to cultivate it among team members. How a geek leader's ability to navigate disparate social styles leads to greater credibility and influence. Integrating

leadership into project management processes The book concludes with a case study to show how to put leadership principles and practices into action and how an IT geek can transform into an effective IT geek leader **Stuttering**
