**Acid Mine Drainage in South Africa** Suvania Naidoo, 2016-10-13 This SpringerBrief focuses on Acid Mine Drainage AMD in the three basins in the Witwatersrand South Africa It provides a background to AMD and its impacts from a social science perspective The South African government and non governmental organizations response to AMD is assessed as well the socio economic and developmental effects of AMD This volume which is based on the author s Master s dissertation at UNISA involves interviews with a range of experts in the field from government departments environmental organisations activists the private sector mining tourism sector and the agricultural sector The book discusses existing policy documents on AMD and provides recommendations in response to the many socio economic impacts which have not been fully addressed A literature review on the global context of AMD is provided South Africa s water systems are already severely harmed by climate change different forms of pollution and poorly managed sanitation systems For these reasons the country is becoming increasingly water stressed and therefore water will continue to become much scarcer in the future As a result of AMD s continued impact on South Africa s water systems as a technical or scientific matter as well as the policy implications for the mining sector water security and socio economic sustainability has become a highly contested issue **Revisiting**

**Environmental and Natural Resource Questions in Sub-Saharan Africa** Wilson Akpan, Philani Moyo, 2017-06-23 Based on case studies in Southern Africa West Africa and East Africa this book revisits some of the dilemmas and paradoxes associated with the development management and utilisation of environmental resources as well as lacklustre official handling of climate change related challenges in Sub Saharan Africa On the subject of natural resource exploitation in particular the book revisits scholarly debates and specific practices around compensation benefit and burden sharing local participation and space place dynamics It highlights fundamental ambiguities in the ways the dominant discourses and policy responses have been framed and mobilised and examines epistemic and ideational incongruences that have hobbled and sometimes negated the effectiveness of otherwise well intentioned interventions On climate change the book revisits debates around the vulnerability assets nexus with regard to mitigation and adaptation as well as the intersection of climate information and livelihoods in agro based settings The contradictions gaps and limitations of climate change policies and strategies in different regions are re examined based on new data In the last few years the Environment and Natural Resources Working Group of the South African Sociological Association SASA has intensified efforts to go beyond the annual SASA Congresses and the production of journal articles in making the research agendas of its members more visible to the global scholarly and policy community This book is one result of such efforts It calls for a constant questioning of orthodoxies and the promotion of ethnographically sensitive and epistemologically nuanced scholarly and policy approaches to developmental challenges in Africa especially in relation to environmental resources and environmental change

Agricultural and Climate Change Adaptation Law in Africa Habib Sani Usman, 2025-02-17 This book presents an analysis

of climate change and agricultural laws in Kenya Nigeria and South Africa in order to determine whether they adequately addressed the concept of agricultural adaptation Agriculture is one of the sectors of the economy that is contributing to climate change and at the same time the sector is heavily impacted by climate change Therefore agricultural adaptation is required Focusing on three countries this book provides a novel comparative examination of how and to what extent the law promotes agriculture focused adaptation in these countries The role of the law in addressing issues such as water management strategies soil conservation methods and crop production methods is discussed This book identifies gaps in the regulatory frameworks for agricultural adaptation and highlights the lack of adaptive capacity of African agriculture due to weak or non existing legal frameworks It discusses ways to remedy these gaps through specific on farm adaptation strategies legislative amendments to consolidate all relevant national climate change related policies and laws with agricultural policies and laws that have relevant provisions on adaptation as medium term solutions and the development of a specific framework law for agriculture focused adaptation incorporating essential agricultural adaptation strategies could perhaps be enacted as long term solutions to the regulatory gaps This book will be of great interest to students and scholars of law climate change food and agriculture sustainable development and African studies

*Wrecking Ball* Stu Woolman, 2021-04-29 *Wrecking Ball* explores in an unprecedented manner a decalogue of wicked problems that confronts humanity Nuclear proliferation climate change pandemics permanent technological unemployment Orwellian public and private surveillance social media that distorts reality cyberwarfare the fragmentation of democracies the inability of nations to cabin private power the failure of multinational institutions to promote collaboration and the deepening of autocratic rule in countries that have never known anything but extractive institutions Collectively or even severally these wicked problems constitute crises that could end civilisation Does this list frighten you or do you blithely assume that tomorrow will be just like yesterday *Wrecking Ball* shows that without an inclusive system of global governance the collective action required to solve those wicked problems falls beyond the remit of the world's 20 inclusive democracies 50 flawed democracies and 130 extractive elitist autocracies Flawed democracies and autocracies that already struggle to produce goods necessary for their own citizens to flourish are simply incapable of committing to international arrangements that address the existential threats posed by the decalogue of wicked problems This then is our children's inheritance Dystopias far far worse than the polities that we ourselves have known What if anything can mitigate the harms that are our legacy *Wrecking Ball* offers as an answer a ground breaking analysis of South Africa's political economy It demonstrates that this country's elitist and extractive political and economic institutions not only make resolution of ongoing domestic crises unattainable likewise they make meaningful responses to wicked problems impossible Smart people think they have all the answers Without laboring under any such illusions Martin Luther King Jr eloquently opined The arc of the moral universe is long but it bends towards justice But what will happen King would acidly ask if we continue to dawdle and simply run out of time *Wrecking Ball* simialarly operates under no such smart

pretenses and undeterred and unmatched ventures into terrains traversed by truly great political economists Smith Ricardo Marx and Keynes By knitting together what we all know to be the facts with cutting edge theory in economics sociology history and political science the book paints an unflinching portrait of where we are and where we are headed Are we ready to be honest with ourselves about the likely future of this overheated overpopulated planet **The Zuma Years** Richard Calland,2013-08-16 The face of power in South Africa is rapidly changing for better and for worse The years since Thabo Mbeki was swept aside by Jacob Zuma's coalition of the wounded have been especially tumultuous with the rise and fall of populist politicians such as Julius Malema the terrible events at Marikana and the embarrassing Guptagate scandal What lies behind these developments How does the Zuma presidency exercise its power Who makes our foreign policy What goes on in cabinet meetings What is the state of play in the Alliance is the SACP really more powerful than before And as the landscape shifts what are the opposition's prospects In *The Zuma Years* Richard Calland attempts to answer these questions and more by holding up a mirror to the new establishment by exploring how people such as Malema Chief Justice Mogoeng Mogoeng and DA parliamentary leader Lindiwe Mazibuko have risen so fast by examining key drivers of transformation in South Africa such as the professions and the universities and by training a spotlight on the toxic mix of money and politics *The Zuma Years* is a fly on the wall insider's approach to the people who control the power that affects us all It takes you along the corridors of government and corporate power mixing solid research with vivid anecdote and interviews with key players The result is an accessible yet authoritative account of who runs South Africa and how today **The World Factbook** ,2016

Pretorius, Luiza Olim de Sousa, 2021-07-09 This book serves the purpose of documenting and promoting African experiences on sustainable development which encompasses both formal and non formal education Sustainable development is very important to Africa but there is a paucity of publication which documents and promotes experiences from African countries Due to their complexity the interrelations between social economic and political factors related to sustainable development

especially at universities need to be better understood There is also a real need to showcase successful examples of how African institutions are handling their sustainability challenges It is against this background that this book has been produced It is a truly interdisciplinary publication useful to scholars social movements practitioners and members of governmental agencies and private companies undertaking research and or executing projects focusing on sustainability from across Africa As African nations strive to pursue the UN Sustainable Development Goals it is imperative to cater for the information needs seen across the continent and foster the dissemination of experiences and case studies which may support both on going and future efforts The scope of the book is deliberately kept wide and we are looking for contributions across the spectrum of sustainable development from business and economics to arts and fashion administration environment languages and media studies

**Publishing from the South** Sarah Nuttall, Isabel Hofmeyr, 2024-11 In 2022 Wits University Press marked its centenary making it the oldest most established university press in sub Saharan Africa While in part modelled on scholarly publishers from the global North it has had to contend with the constraints of working under global South conditions marginalisation within the university budgetary limitations small local markets unequal access to international sales channels and the privileging of English language publishing over indigenous languages This volume explores what the Press has achieved and what its modes of reinvention might look like In widening and deepening our understanding of the Press as an example of a global South scholarly publisher this volume asks how publishing can contribute to a broader understanding of Southern knowledge production Featuring contributions from scholars publishers and authors this multi voiced volume showcases the history of the Press s publishing activities over 100 years from documenting its evolution through book covers and giving credence to some of the leading black intellectuals and writers of the early 20th century and the success of those works in spite of their authors racial marginalisation to the role of women both in publishing and in the spaces afforded to women s writing on the Press s list The collection concludes with essays by contemporary authors who detail not only their experiences of working with Southern publishers but also the politics and influences governing their decisions to choose the Press over a Northern publisher Publishing from the South shows the strategies deployed by the Press to professionalise Southern knowledge making and in the process demonstrating how university presses in the global South support the scholarly missions of their universities for both local and global audiences

**Sustainability of Southern African Ecosystems under Global Change** Graham P. von Maltitz, Guy F. Midgley, Jennifer Veitch, Christian Brümmer, Reimund P. Rötter, Finn A. Viehberg, Maik Veste, 2024-01-05 This open access book about the sustainability of marine and terrestrial ecosystems in southern Africa provides a synthesis of the research program Science Partnerships for the Adaptation to Complex Earth System Processes SPACES II 2018 2022 It addresses the scientific social and economic issues related to climate change its potential impacts on the various ecosystems adaptations and management interventions for enhancing systems resilience in Southern Africa It is written by numerous scientists from

African states and Germany and summarizes the latest research findings which are of great relevance for a better understanding of climate change impacts adaptations and vulnerabilities as well as for developing management options and policy options to reduce the associated risks This is crucial considering that the projected African population increase is exceptional Furthermore climate change is assumed to hit southern Africa extremely hard with a significant increase in extreme events and the frequency of severe droughts heat waves and flooding Southern Africa hosts a high variety of ecosystems which belongs to important biodiversity hotspots for unique flora and fauna The surrounding oceans form in turn a bottle neck within the ocean s global thermohaline circulation act as a still poorly understood carbon sink and source and play an important role for fisheries as they are highly productive Considering these important aspects the book is an important interdisciplinary contribution to the scientific literature and will find a wide readership The book is aimed at students teachers and scientists in the fields of terrestrial and marine ecology environmental nature and landscape planning agriculture environmental and resource management biodiversity and nature conservation as well as scientists and representatives in specialised authorities and associations nature conservationists and policy makers of related disciplines

**The Palgrave Handbook of Urban Development Planning in Africa** Meleckidzedek Khayesi, Francis Nyongesa Wegulo, 2022-11-25 Where can one get a synthesis of research findings on urban development planning in Africa This book addresses this gap in knowledge by distilling existing research to provide insights into theories research designs empirical findings and approaches on urban development planning in Africa Starting with the overall planning culture and strategies the book chapters move on to specific themes such as governance population poverty water recreation transport agriculture air quality and rural urban linkages This book reduces the prevailing risk of unnecessary duplication of research and the inadequate attention that is being given to extending research in new areas This situation has partly been due to existing research remaining scattered in different organizations and publications and has not been subjected to critical synthesis to unearth any new developments that it contains The book makes available research findings to be utilized in current and future urban development planning in Africa
