*Spring Break* , Who We Are Now Michelle Fishburne,2023-01-19 Michelle Fishburne did the unthinkable during the early days of the COVID 19 pandemic she motor homed 12 000 miles all over the United States and sat down with hundreds of people face to face People shared what their lives were like what made them struggle and what surprised them The personal histories in this book show a diversity of American lives from the young college student who finds unexpected fame on TikTok to a special education teacher sharing the challenges of remote learning Everyone s story is different Some like Fishburne lost their jobs Others lost family friends and even their own health and well being And yet among the difficulties many found something that had eluded them before the pandemic These testimonies offer a glimpse into what people across America lost and found during the pandemic s critical first year Fishburne lets us hear people s stories as if we were there in real time at the beginning of COVID 19 when employment was uncertain schools were online and American life more unpredictable than ever before

Amundson,2022-11-21 COVID related school closures affected all students But for students who needed in person schooling most students with disabilities English learners and students living in poverty the impact was disproportionate and devastating One research calls it the largest increase in educational inequity in a generation Unfinished Learning follows families as they navigate the challenges of virtual learning from figuring out how to log on to a sometimes unstable school platform to ensuring that their child s special education needs were addressed It looks at what data is now showing about which students are and which students are not recovering from learning lost during the pandemic The book also traces the parent activism that arose as a result of school closures It explores two elections that followed close on the heels of school reopenings the 2021 election for governor in Virginia and the 2022 recall of school board members in San Francisco Many of the conclusions drawn by pundits about both those elections do not fit with either the polling or with parent interviews Finally the book offers some suggestions on how
