OUTDOOR HOUSINGS **EG12** ENVIRONMENTAL GLOBE

The Wren Environmental Globe is designed for outdoor applications and comes standard with a wall mount integrated into the unit. Installation of the EG12 couldn't be simpler—attach the housing to the wall, then attach the camera plate to the housing—it's that simple. The EG12 features a dual shell for added protection from the elements, creating a built-in sunshield. The outer shell is constructed of UV-resistant, ABS material. The unit is designed to minimize any dust or insect intrusion with a sealed lip on the dome, reducing profit-shrinking service calls to clean the housing.

Internally, the EG12 provides a very practical environment. The camera plate has a quick release mechanism to enable easy removal for servicing the cameras and optional heater/blower kit (mounted above). The multiple camera mount accommodates up to three cameras at varying heights and positioning. (Check with the factory for maximum available camera and lens length.) With the heater/blower kit, the EG12 features a thermostatically controlled heater. Several optional mounting accessories allow for a variety of installations.

The EG12 is the perfect match of functionality and appearance for any outdoor housing installation. One try and we're sure you'll be hooked.
