Making Gender Michelle Wyndham-West,2023-08-31 Making Gender endeavours to understand how the HPV vaccine became gendered within the Canadian policy landscape when the virus is gender blind and is linked to cancer in all genders and how women s experiences with this gendered risk have been folded into their vaccine decision making Drawing on ethnographic fieldwork and archival research Michelle Wyndham West explores the creation and circulation of gendered risk as it was deployed in pharmaceutical and policy discourses surrounding the roll out of the

HPV vaccine The book contextualizes the background for how gendered risk was mediated by two groups of women mothers negotiating the vaccine for their daughters in school based immunization programs and university students who experienced frequent HPV infections The book explores these women s efforts to be good mothers and strong young women entering adulthood who felt vulnerable in sexual health negotiation As a result Making Gender reveals how vaccine decision making took an ontological form as an inherently social and cultural process embedded in women s experiences **Commerce**
