Singh, 2022-03-13 English has become a global language In the minds of many worldwide it guarantees a better life through enhanced social and economic opportunities As a result English teachers are in high demand Some claim that English is attractive because as it has spread throughout the world it has severed it s who adopt it Grammar rules and vocabulary can simply be taught to eager learners so they can use English for social and economic advancement However learning English is more than mastering a certain number of words and memorizing a set of grammar rules Although plugging words it is less effective for language learners Language acquisition studies have discovered that both native and nonnative speakers learn English best not by being taught rules but by interacting with other users of the language either orally or through print This interaction introduces a social element to grammar that brings with it hidden social messages For example suppose a language learner has been taught that English has a very simple way to make requests simply say the verb with no subject being expressed as in Open the door After class the student is carrying a pile of books and comes to a closed door What would be the reaction of other English speakers if the student were to shout out to someone passing nearby Open the door The student would probably be considered rude Could you please open the door which has the form of a question rather than a command would probably be considered more polite Suppose an English teacher sees one of her students writing with a crayon rather than a pencil She helpfully asks Don t you have a pencil If the student answers yes does that mean that the student does or does not have a pencil The answer depends on which part of the world the student is from Cambridge IGCSE® First Language English Coursebook Marian Cox, 2018-05-17 Fully updated flexible resources taking an active learning approach that encourages students to aim higher in the 0500 0524 and 0990 syllabuses With travel writing magazine articles blogs and extracts from writers such as Roald Dahl and D H Lawrence this coursebook helps students develop their English Language skills through an active communicative approach The first unit in each part covers text analysis summary writing and note taking The second deals with directed writing and the third looks at descriptive and narrative composition and includes suggestions for coursework topics if your school follows this pathway Suggested answers to coursebook questions are included in the teacher s book
