A comparative study of elite English-medium schools, public schools, and Islamic madaris in contemporary Pakistan Akhtar Hassan Malik, 2015-04-12 This ethnographic study examines the role of differing school knowledge in reproducing various social classes in the society It was observed that an unequal availability of capital resources agents class habitus and the type of their cultural currency act as selection mechanisms that clearly favour some social groups over others The ruling classes ensure the transfer of their power and privilege to their children by providing them with quality education in elite schools The disadvantaged classes are excluded from these unique institutions by both social and economic sanctions They have no other option than to educate their children either in public schools or Islamic madaris As a result inequitable educational opportunities consolidate the

existing social class hierarchy **Popular Science** ,2005-09 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better *Resources in Education* ,1986

Computer Confluence George Beekman,1999 **Changing the Culture** Naomi Fisher,Harvey Keynes,1995 This volume is an outgrowth of a series of programs organized by the Mathematicians and Education Reform MER Network between 1990 and 1993 These programs explored the ways in which the mathematical sciences community has responded to educational challenges Mathematicians who had made a serious commitment to educational reform served as role models inspiring others to contribute their efforts to this important work The discussions raised many questions and highlighted many insights about the nature of educational reform and how the mathematics research community can contribute to it The papers in this volume present perspectives on the future of these efforts varied examples of how individual mathematicians have become involved in educational reform and case studies of how the community is responding to the need for reform Viewing the mathematics culture through the prism of his or her own experience and encounters each author contributes a valuable piece for the reader to consider in trying to envision what the large picture will be as mathematics education continues to evolve
