**Handbook of American Poetry** Sabine Sielke, 2025-01-27 This handbook offers scholars an overview of the state of research and students a sense of how American poetry from its first forms evolving in the 17th century settler

colonies to its current digital modes has addressed issues and experiences central to human consciousness and to political life over five centuries of cultural practice At the same time it aims to show how poetry philosophy and theory have always been involved in productive dialogues **Wild Abandon** Alexander Menrisky,2020-12-17 The American wilderness narrative which divides nature from culture has remained remarkably persistent despite the rise of ecological science which emphasizes interconnection between these spheres Wild Abandon considers how ecology s interaction with radical politics of authenticity in the twentieth century has kept that narrative alive in altered form As ecology gained political momentum in the 1960s and 1970s many environmentalists combined it with ideas borrowed from psychoanalysis and a variety of identity based social movements The result was an identity politics of ecology that framed ecology itself as an authentic identity position repressed by cultural forms including social differences and even selfhood Through readings of texts by Edward Abbey Simon Ortiz Toni Morrison Margaret Atwood and Jon Krakauer among others Alexander Menrisky argues that writers have both dramatized and critiqued this tendency in the process undermining the concept of authenticity altogether and granting insight into alternative histories of identity and environment **Monatshefte** ,2017 **Writing**

literary history ranging from Cotton Mather to David Foster Wallace and from Henry Wadsworth Longfellow to Zora Neale Hurston. Giles considers why European medievalism and Native American prehistory were crucial to classic nineteenth century authors such as Emerson, Hawthorne and Melville. He discusses how twentieth century technological innovations such as air travel affected representations of the national domain in the texts of F. Scott Fitzgerald and Gertrude Stein. And he analyzes how regional projections of the South and the Pacific Northwest helped to shape the work of writers such as William Gilmore Simms, Jos. Mart, Elizabeth Bishop and William Gibson. Bringing together literary analysis, political history and cultural geography, *The Global Remapping of American Literature* reorients the subject for the transnational era.

***Eastern and Western Synergies and Imaginations*** Katrine Wong, 2020-10-12. *Eastern and Western Synergies and Imaginations: Texts and Histories* is a product of east-west studies crossed with adaptation studies; it goes beyond evaluation of cultural interactions and discussion of forms and manners of adaptation. This volume brings together critical discourses from various cultural locales which have developed from and thrived on the notion of East meets West or West meets East. The 10 chapters trace and investigate cross-trans or multi-cultural interpretations of fictional and non-fictional narratives that feature people and events in cities and regions which thrive or have thrived as East-West hubs, thereby expounding multiple layers of relationship between source texts and new texts. An allegorical play, *The Three Ladies of Macao*, premièred in December 2016, is now published as appendix in this volume.

***The Postsecular Imagination*** Manav Ratti, 2013-01-04. *The Postsecular Imagination* presents a rich interdisciplinary study of postsecularism as an affirmational political possibility emerging through the potentials and limits of both secular and religious thought. While secularism and religion can foster inspiration and creativity, they also can be linked with violence, civil war, partition, majoritarianism and communalism, especially within the framework of the nation-state. Through close readings of novels that engage with animism, Buddhism, Christianity, Hinduism, Islam and Sikhism, Manav Ratti examines how questions of ethics and the need for faith, awe, wonder and enchantment can find expression and significance in the wake of such crises. While focusing on Michael Ondaatje and Salman Rushdie, Ratti addresses the work of several other writers as well, including Shauna Singh Baldwin, Mahasweta Devi, Amitav Ghosh and Allan Sealy. Ratti shows the extent of courage and risk involved in the radical imagination of these postsecular works, examining how writers experiment with and gesture toward the compelling paradoxes of a non-secular secularism and a non-religious religion. Drawing on South Asian Anglophone literatures and postcolonial theory and situating itself within the most provocative contemporary debates in secularism and religion, *The Postsecular Imagination* will be important for readers interested in the relations among culture, literature, theory and politics.

**Social Pluralism and Literary History** Francesco Loriggio, 1996. This book starts from the premise that emigration is a crucial concept for the understanding of recent development in criticism and literature. For only when the contribution of non-indigenous ethnicities is taken into account, such other key phenomena as globalisation and multiculturalism or, in some parts of the world, colonialism or post

colonialism appear in full The essays in this collection trace the presence of an Italian heritage in the literature of the United States Canada Australia Germany and ponder the consequences While some articles describe the texts or review the history of the literature produced by authors of Italian origin others address the theoretical implications or situate the discussion about authors and their works within the current critical debate The result is a volume at once informative and intellectually challenging
