Writing Through the Tween Years Bruce Morgan, Deb Odom, 2005 It's not easy being a tween A lot of us are either in a tunnel or a bridge A lot of us don't know who we are Instead of following Barney's advice we end up doing what popstars do Kelley age 10 No longer little children but not yet teenagers tweens are beginning to see themselves as autonomous while still struggling to understand where they fit in It can also be an awkward time for teachers who cherish the hilarious and poignant personalities of tween writers but feel pressured by a new emphasis on testing in the intermediate grades Many teachers have virtually abandoned writers workshops in favor of formula writing and prompts even though

these workshops may be essential for understanding the emerging competencies and personalities of eight to twelve year olds Bruce Morgan and Deb Odom teach together at a school where formula writing and test preparation led to stagnant writing scores student boredom and teacher discouragement They worked with their colleagues in grades 3 6 to make some dramatic changes in their collective writing instruction These changes included a return to their roots as writing workshop teachers but with new twists The teaching staff drew up new common standards for writing assessment and achievement The revised writing programs also involved integrating insights from reading strategy instruction with a renewed emphasis on the basics of writers workshop student choice teacher modeling revision and using quality children s literature as mentor text Writing Through the Tween Years documents how teachers can get back to the joys of teaching writing in a literature rich thoughtful environment There may be no better way to understand and reach tween writers *Reading with Meaning* Debbie Miller, 2023-10-10 Ten years since her first edition author Debbie Miller returns with Reading with Meaning Second Edition Teaching Comprehension in the Primary Grades to share her new thinking about reading comprehension strategy instruction the gradual release of responsibility instructional model and planning for student engagement and independence Reading with Meaning Second Edition delves into strategy and how intentional teaching and guided practice can provide each child a full year of growth during their classroom year New in this edition are lesson planning documents for each chapter that include guiding questions learning targets and summative assessments as well as new book title recommendations and updated FAQs from the first edition Also included are strategic lessons for inferring determining the importance in each text and synthesizing information Teachers can help students make their thinking visible through oral written artistic and dramatic responses and provide examples on how to connect what they read to their own lives In this book Miller reflects on her professional experiences and judgement along with current research in the field She provides a guide for any teacher hoping to build student relationships and develop lifelong independent learners **The Family in Question** R. D. Grillo, 2008 The family lives of immigrants and ethnic minority populations have become central to arguments about the right and wrong ways of living in multicultural societies While the characteristic cultural practices of such families have long been scrutinized by the media and policy makers these groups themselves are beginning to reflect on how to manage their family relationships Exploring case studies from Austria the Netherlands Norway Portugal Spain Switzerland the United Kingdom and Australia The Family in Question explores how those in public policy often dangerously reflect the popular imagination rather than recognizing the complex changes taking place within the global immigrant community In hoeverre allochtonen vrij zijn hun cultuur te uiten in de multiculturele samenleving staat bijna dagelijks ter discussie in de media en politiek Vaak wordt vergeten dat ook migrantenfamilies zelf worstelen om hun tradities en gebruiken vorm te geven in een pluriforme samenleving waarin relaties met familie zeer complex kunnen zijn In The Family Question worden migrantenfamilies in onder andere Nederland Oostenrijk en Noorwegen onderzocht Hieruit blijkt dat spelers op het vlak van

beleidsvorming vaak toegeven aan populaire misverstanden over allochtonen en zo bijdragen aan de heersende xenofobie en stereotypering van immigranten

Under Man's Spell J. K.
