Ecotourism David Bruce Weaver, 2001-01-01 The Encyclopedia of Ecotourism provides an expert state of the art and comprehensive knowledge base of the rapidly growing global ecotourism sector. It is divided into eight major sections and contains 41 chapters individually authored by international researchers and practitioners in ecotourism. Each chapter combines theory and practice in a complementary way. The scope of the encyclopedia includes definitions and other contextual material, regional perspectives, venues, impacts, planning and management considerations and issues associated with ecotourism, businesses, research and training. *Managing Educational Tourism* Brent W. Ritchie, Neil Carr, Christopher P. Cooper, 2003-01-01 An outline of the main forms of educational tourism discussing their growth and resulting impacts and management issues from a holistic perspective. Using case studies, the author argues that without adequate research and management, the potential impacts and benefits of educational tourism will not be maximized. The text highlights the need for collaboration between both the tourism and education industry to manage the growth and issues relevant within educational tourism adequately. Quality Assurance and Certification in Ecotourism Rosemary Black, Alice Crabtree, 2007 Genuine ecotourism can have many positive impacts, particularly the conservation of biodiversity and cultural heritage and the creation of economic opportunities for local communities. While promoting these, it aims to eliminate negative impacts such as environmental degradation, cultural commoditisation and playground effects. Unfortunately, the concept is broadly misunderstood and its true definition is widely debated. It is often used as a marketing tool with some operators taking advantage of the ecotourism label to attract more business while behaving in environmentally irresponsible ways. This book considers the important topic of quality control and accreditation in ecotourism, describing the mechanisms that can be implemented to ensure quality in all aspects of the industry, namely protected areas, businesses, products and tour guides.
