## **The Pillar Ground Truth Orthodox:**

*Encounter Between Eastern Orthodoxy and Radical Orthodoxy* Christoph Schneider, 2017-03-02 This book presents the first debate between the contemporary movement Radical Orthodoxy and Eastern Orthodox theologians. Leading international scholars offer new insights and reflections on a wide range of contemporary issues from a specifically theological and philosophical perspective. The ancient notion of divine Wisdom Sophia serves as a common point of reference in this encounter. Both Radical and Eastern Orthodoxy agree that the transfiguration of the world through the Word is at the very centre of the Christian faith. The book explores how this process of transformation can be envisaged with regard to epistemological, ontological, aesthetical, ecclesiological and political questions. Contributors to this volume include Rowan Williams, John Milbank, Antoine Arjakovsky, Michael Northcott, Nicholas Loudovikos, Andrew Louth and Catherine Pickstock.

*Modern Orthodox Thinkers* Andrew Louth, 2015-09-25 Andrew Louth introduces us to twenty key Orthodox thinkers from the last two centuries. The poets and thinkers included range from Romania, Serbia, Greece, England and France and also include exiles from Communist Russia. The book concludes with an illuminating chapter on Metropolitan Kallistos and the theological vision of the Philokalia.

**The Orthodox Christian World** Augustine Casiday, 2012 A compelling overview of the Orthodox world covering the main regional traditions of Orthodox Christianity and the ways in which they have become global.

**Orthodox Russia: Belief and Practice Under the Tsars**, [The Cambridge Companion to Orthodox Christian Theology](#) Elizabeth Theokritoff, 2008-12-18 Orthodox Christian theology is often presented as the direct inheritor of the doctrine and tradition of the early Church. But continuity with the past is only part of the truth; it would be false to conclude that the eastern section of the Christian Church is in any way static. Orthodoxy, building on its patristic foundations, has blossomed in the modern period. This volume focuses on the way Orthodox theological tradition is understood and lived today. It explores the Orthodox understanding of what theology is: an expression of the Church's life of prayer, both corporate and personal, from which it can never be separated. Besides discussing aspects of doctrine, the book portrays the main figures, themes and developments that have shaped Orthodox thought. There is particular focus on the Russian and Greek traditions, as well as the dynamic but less well-known Antiochian tradition and the Orthodox presence in the West.

**Thinking Orthodox in Modern Russia** Patrick Lally, Michelson, Judith Deutsch Kornblatt, 2014-07-31 This collection of essays on Russian religious thought focuses on the extent to which Russian culture and ideology has been informed by the nation's roots in Orthodox Christianity.

*The Orthodox churchman's magazine; or, A Treasury of divine and useful knowledge*, 1807

*Theology and Philosophy in Eastern Orthodoxy* Christoph Schneider, 2021-01-01 Even in the twenty-first century, critical and creative engagement with modern and postmodern philosophy is a rarity in Orthodox circles. The collection of essays presented here by Christoph Schneider makes a significant contribution to overcoming this deficit. Eight scholars from six different countries working on the intersection between Orthodox thought and philosophy present their research in short and

accessible form The topics covered range from political philosophy to phenomenology metaphysics philosophy of self logic ethics and philosophy of language The authors do not all promote one particular approach to the relationship between Orthodox theology and philosophy Nevertheless taken together their work demonstrates that Orthodox scholarship is not confined to historical research about the Byzantine era but can contribute to and enrich contemporary intellectual debates

*Human Sexuality and the Nuptial Mystery* Roy R. Jeal,2010-03-08 This collection of essays was originally presented at the St Margaret s Consultation on Doctrine Liturgy and Preaching held at St Margaret s Anglican Church in Winnipeg Canada in 2008 They consider human sexuality and marriage from a distinctly theological rather than polemical standpoint aiming to avoid frequently polarized debates The interesting commonality indicated in the articles is that sex and marriage are not about self fulfillment but are outwardly directed aimed toward the other person toward growth maturity and deepened spirituality for the benefit of the church for productive good and for children The first section explores theological and ethical issues surrounding human sexuality and aims toward understanding the nature of relationships in these contexts The second section explores the spiritual nature of marriage and the history of thinking on marriage and family within Christian theology For those interested in pursuing truly theological engagement with marriage and sexuality this collection is required reading
