The Postmodernism Debate In Latin America:

The Postmodernism Debate in Latin America John Beverley, Michael Aronna, José Oviedo, 1995-05-05 Postmodernism may seem a particularly inappropriate term when used in conjunction with a region that is usually thought of as having only recently and then unevenly acceded to modernity Yet in the last several years the concept has risen to the top of the agenda of cultural and political debate in Latin America This collection explores the Latin American engagement with postmodernism less to present a regional variant of the concept than to situate it in a transnational framework Recognizing that postmodernism in Latin America can only inaccurately be thought of as having traveled from an advanced capitalist center to arrive at a still dependent neocolonial periphery the contributors share the assumption that postmodernism is itself about the dynamics of interaction between local and metropolitan cultures in a global system in which the center periphery model has begun to break down These essays examine the ways in which postmodernism not only designates the effects of this transnationalism in Latin America but also registers the cultural and political impact on an increasingly simultaneous global culture of a Latin America struggling with its own set of postcolonial contingencies particularly the crisis of its political left the dominance of neoliberal economic models and the new challenges and possibilities opened by democratization With new essays on the dynamics of Brazilian culture the relationship between postmodernism and Latin American feminism postmodernism and imperialism and the implications of postmodernist theory for social policy as well as the text of the Declaration from the Lacandon Jungle of the Zapatista National Liberation Army this expanded edition of boundary 2 will interest not only Latin Americanists but scholars in all disciplines concerned with theories of the postmodern Contributors Xavier Albó José Joaquín Brunner Fernando Calderón Enrique Dussel Norberto García Canclini Marten Hopenhayn Neil Larsen the Latin American Subaltern Studies Group Norbert Lechner María Milagros López Raquel Olea Anbal Quijano Nelly Richard Carlos Rincón Silviano Santiago Beatriz Sarlo Roberto Schwarz and Hernán Vidal

The Postmodern in Latin and Latino American Cultural Narratives Claudia Ferman, 1996 First Published in 1996 Routledge is an imprint of Taylor Francis an informa company Latin American Postmodernisms , 2023-11-27 The first essays in this volume locate Latin America within the postmodernism debate by addressing both its position in the theory of the postmodern and the peripheral existence of the continent in light of the globalizing practices of the contemporary world The next essays focus on the Caribbean and elements of the formation of identity and culture in a group of societies belonging to the same geographic region but confronted with the idiosyncrasies of their colonial histories the problematics of race and language and their relation to the politics and cultures of metropolitan powers There are three essays concerned with re readings of the first encounters between Europe and America and discussions of more recent fictional representations of the past which attempt to recover the lost Amerindian Other of the Conquest and Colonization and to

reveal the constructedness of History Finally preceded by two texts on ways of reading and writing in Latin America the final four essays are concerned with challenges to the discourses of power by Latin American women who re define the subject and counter the established hegemonies of religion culture and social structure both in their writing and political actions As a collection of essays this volume will appeal to readers who are interested in Post modernism as a global phenomenon and in understanding the different forms it takes and the issues it addresses in different cultural environments **The**

Postmodern in Latin and Latino American Cultural Narratives Claudia Ferman, 2018-10-24 This volume of new and reprinted articles many translated here into English for the first time examines the conditions characteristics and implications of the debate on Latin American Postmodernism presenting an up to date rendering of its crucial issues Special considerations are given to the theoretical aspects such as ideological political literary critical and cultural implications The scope of this debate embraces such matters as the problematic modernization of Latin America cultural and political reformulation in the face of the media explosion new critical perspectives facing the collapse of utopian ideologies and new literary production women s writing and testimonio Contributors include John Beverly Antonio Ben tez Rojo and Antonio Vera Le n Celeste Olalquiaga Arturo Arias Santiago Col s Nelly Richard Jesoes Mart n Barbero Iumna Maria Simon and Vinicius Dantas The collection also contains some of the editor s personal interviews with scholars involved in this debate who live and work in Latin America Roger Bartra and Jorge Juanes Mexico and Nicol s Casullo Argentina **Postmodernity in Latin America** Santiago Colás, 1994-11-07 Postmodernity in Latin America contests the prevailing understanding of the relationship between postmodernity and Latin America by focusing on recent developments in Latin American and particularly Argentine political and literary culture While European and North American theorists of postmodernity generally view Latin American fiction without regard for its political and cultural context Latin Americanists often either uncritically apply the concept of postmodernity to Latin American literature and society or reject it in an equally uncritical fashion The result has been both a limited understanding of the literature and an impoverished notion of postmodernity Santiago Col s challenges both of these approaches and corrects their consequent distortions by locating Argentine postmodernity in the cultural dynamics of resistance as it operates within and against local expressions of late capitalism Focusing on literature Col s uses Julio Cort zar s Hopscotch to characterize modernity for Latin America as a whole Manuel Puig s Kiss of the Spider Woman to identify the transition to a more localized postmodernity and Ricardo Piglia s Artificial Respiration to exemplify the cultural coordinates of postmodernity in Argentina Informed by the cycle of political transformation beginning with the Cuban Revolution including its effects on Peronism to the period of dictatorship and finally to redemocratization Col s s examination of this literary progression leads to the reconstruction of three significant moments in the history of Argentina His analysis provokes both a revised understanding of that history and the recognition that multiple meanings of postmodernity must be understood in ways that incorporate the complexity of regional differences Offering a new voice in

the debate over postmodernity one that challenges that debate's leading thinkers Postmodernity in Latin America will be of particular interest to students of Latin American literature and to scholars in all disciplines concerned with theories of the postmodern

Hybrid Identity and the Utopian Impulse in the Postmodern Spanish-American Comic Novel Paul R. McAleer, 2015 The author examines the role of comedy in the novels of four key postmodern Spanish American writers Gustavo Sainz Alfredo Bryce Echenique Jaime Bayly and Fernando Vallejo An important but often overlooked function of comedy is its intrinsic relation to questions of identity This relationship furthermore is connected to another traditional feature of comedy the utopian impulse This book analyses these functions of comedy in the novels of four key postmodern Spanish American writers Gustavo Sainz Alfredo Bryce Echenique Fernando Vallejo and Jaime Bayly Focusing on the correlation between changing concepts of identity and the hybrid cultural context of the late 20th century it examines the issues of individual and social identities expressed by these authors in their inscription and distortion of the comic genre as well as in their usage of different modes of comedy It views the novels comic aspects as symptoms of hybridity which according to many theorists have brought about the dissolution of concepts such as the self and society and utopian modernity These symptoms are studied in tandem with the individual themes of the novels such as gender sexuality class and global migration as well as the post national question of Peruvian Colombian and Mexican identity

The Avant-Garde and Geopolitics in Latin America Fernando J. Rosenberg, 2006-04-02 The Avant Garde and Geopolitics in Latin America examines the canonical Latin American avant garde texts of the 1920s and 1930s in novels travel writing journalism and poetry and presents them in a new light as formulators of modern Western culture and precursors of global culture Particular focus is placed on the work of Roberto Arlt and Mario de Andrade as exemplars of the movement Fernando J Rosenberg provides a theoretical historiography of Latin American literature and the role that

modernity and avant gardism played in it He finds significant parallels between the cultural battles of the interwar years in Latin America and current debates over the role of the peripheral nation state within the culture of globalization Rosenberg establishes that the Latin American avant garde evolved on its own terms in polemic dialogue with the European movements critiquing modernity itself and developing a global geopolitical awareness In the process these writers created a bridge between postcolonial and postmodern culture forming a distinct movement that continues its influence today *Latin American Philosophy* Eduardo Mendieta, 2003-02-06 The essays in this book make it elegantly clear that there is a vigorous and rigorous Latin American philosophy and that others dismiss it at their peril Mario S enz The ten essays in this lively anthology move beyond a purely historical consideration of Latin American philosophy to cover recent developments in political and social philosophy as well as innovations in the reception of key philosophical figures from the European Continental tradition Topics such as indigenous philosophy multiculturalism the philosophy of race democracy postmodernity the role of women and the position of Latin America and Latin Americans in a global age are explored by notable philosophers from the region An introduction by Eduardo Mendieta examines recent trends and points to the social political economic and cultural conditions that have inspired the discipline Latin American Philosophy brings English speaking readers up to date with recent scholarship and points to promising new directions **Latin Americanism** Román De la Campa, 1999 In this timely book Roman de la Campa asks to what degree the Latin America studied in U S academies is actually an entity made in the U S A He argues that there is an ever increasing gap between the political theoretical and financial pressures affecting the U S academy and Latin America s own cultural political and literary practices De la Campa focuses on the conduct of Latin American literary criticism in U S universities and compares this with the Latin Americanism of Latin America itself Latin America Writes Back Emil Volek, 2013-10-28 Latin America has been an important basis for theorizing the postmodern condition and has been the site of some of the most significant contributions to postmodern literature However discourses about postmodernity have overwhelmingly been constructed by European and American intellectuals This book is a groundbreaking collection of essays by Latin American scholars on the theories and practices of postmodernity It provides an important forum for Latin American intellectuals to shape the debates on postmodernity that are based to a large degree on their own cultural and political experiences Gathering together new and classic essays across a wide range of disciplines and perspectives this much needed collection allows some of Latin America s leading cultural critics to write back to their Euro American counterparts and join the international debate **Opting for the Margins** Joerg Rieger, 2003-09-11 The authors of this volume seek to revive the preferential option for the poor for the postmodern world showing how options for the margins can engage postmodernity in new ways and break new ground in religious theological and ethical as well as social political and economic thinking *Planning Latin America's Capital Cities, 1850-1950* Arturo Almandoz Marte, 2002 In this first comprehensive work in English to describe the building of Latin America

s capital cities in the postcolonial period Arturo Almandoz and his contributors demonstrate how Europe and France in particular shaped their culture architecture and planning until the United States began to play a part in the 1930s The book provides a new perspective on international planning **Planning Latin America's Capital Cities 1850-1950** Arturo Almandoz,2002-08-08 In this first comprehensive work in English to describe the building of Latin America s capital cities in the postcolonial period Arturo Almandoz and his contributors demonstrate how Europe and France in particular shaped their culture architecture and planning until the United States began to play a part in the 1930s The book provides a new per
