battlegrounds like Vietnam and Latin America In domestic and global settings 4 H s advocates dreamed of transforming rural economies communities and families Organizers believed the clubs would bypass backward patriarchs reluctant to embrace modern farming techniques In their place 4 H would cultivate efficient capital intensive farms and convince rural people to trust federal expertise The modern 4 H farm also featured gender appropriate divisions of labor and produced healthy robust children To retain the economic potential of the best youth clubs insinuated state agents at the heart of rural family life By midcentury the vision of healthy 4 H ers on family farms advertised the attractiveness of the emerging agribusiness economy With rigorous archival research Gabriel N Rosenberg provocatively argues that public acceptance of the political economy of agribusiness hinged on federal efforts to establish a modern rural society through effective farming technology and techniques as well as through carefully managed gender roles procreation and sexuality The 4 H Harvest shows how 4 H like the countryside it often symbolizes is the product of the modernist ambition to efficiently govern rural economies landscapes and populations
