Dr. Janna Fisher, College of Education, University of North Carolina, Charlotte
Janna.Fisher@unc.edu

TOPIC: PRINCIPAL PROFESSIONAL DEVELOPMENT

PROBLEM STATEMENT

Principal leadership is correlated with student achievement, and there are significant links between specific principal behaviors and student achievement (Petersen et al., 2010; Tang et al., 2018). Researchers posit that "effective leadership means more than knowing what to do—it's knowing when, how, and why to do it" (Petersen et al., 2010, p. 2). However, there is limited research on the principal, as a learner, specifically principal professional development, and its impact on principal leader effectiveness (Garcia, 2014).

Researchers can identify the types of professional development experiences that are most likely to build principals' capacity to be successful leaders, negative retention trends and stagnant student achievement may be reversed.
