Workshop Unit Of Study First Grade:

Teaching Literacy in First Grade Diane Lapp, 2005-05-05 First grade is a year of important new experiences for students and teachers alike Some students will arrive knowing how to read others will know a few letters of the alphabet and most will be somewhere in between Including dozens of reproducibles this book guides first grade teachers in the many decisions they face about how to orchestrate effective appropriate and engaging instruction A special strength of the book is the authors deep understanding of the oral language base of literacy learning both reading and writing and their expertise in differentiating instruction for English language learners

Research on Classroom Ecologies Deborah L. Speece, Barbara K. Keogh, 2013-04-03 Written during a period of reexamination and change in the field of special education this book was developed in order to provide a better understanding of the contexts in which children receive their formal education The movement toward the least restrictive environment for the education of children with disabilities is weathering a wave of reinterpretations including mainstreaming the regular education initiative and inclusion While each interpretation has its proponents and critics limited theory and few data are available to guide these important policy decisions Focusing specifically on classrooms the settings where educators can have the most immediate impact and where research is most needed this volume s goals are to establish what is known about classroom ecologies from both general and special education perspectives to integrate the perspectives of researchers and practitioners and to chart directions for further research specifically related to children with learning disabilities The construct of classroom ecology is defined as three interrelated domains instruction teacher and peer interaction and organization and management This scheme provides the structure for the book Taken as a whole the content of the volume underscores the limits of current knowledge and at the same time provides directions for needed changes in both research and practice

Growing Readers Kathy Collins, 2004 Primary grade teachers face an important challenge teaching children how to read while enabling them to build good habits so they fall in love with reading Many teachers find the independent reading workshop to be the component of reading instruction that meets this challenge because it makes it possible to teach the reading skills and strategies children need and guides them toward independence intention and joy as readers In *Growing Readers* Kathy Collins helps teachers plan for independent reading workshops in their own classrooms She describes the structure of the independent reading workshop and other components of a balanced literacy program that work together to ensure young students grow into strong well rounded readers Kathy outlines a sequence of possible units of study for a yearlong curriculum Chapters are devoted to the individual units of study and include a sample curriculum as well as examples of mini lessons and reading conferences There are also four Getting Ready sections that suggest some behind the scenes work teachers can do to prepare for the units Topics explored in these units include print and comprehension strategies reading in genres such as poetry and nonfiction connecting in school reading and out of school reading developing the strategies and habits of lifelong readers A series of

planning sheets and management tips are presented throughout to help ensure smooth implementation We want our students to learn to read and we want them to love to read To do this we need to lay a foundation on which children build rich and purposeful reading lives that extend beyond the school day The ideas found in *Growing Readers* create the kind of primary classrooms where that happens

How to Align Literacy Instruction, Assessment, and Standards Nancy L. Akhavan, 2004 In this book Nancy Akhavan details the stories and strategies that enabled her school to move from under performing status to one in which students achieve and teachers have a whole new understanding of targeted instruction sensitive assessment and meaningful curriculum There is much to appreciate in what she says from her attention to thinking small and understanding the power of the details her emphasis on planning and goal setting to the seriousness with which she takes the standards and incorporates them into the life of the classroom Drawing on the work of the best in the business Lucy Calkins David and Yvonne Freeman and Tony Alvarado Akhavan made professional development the heartbeat of her school as she helped her faculty understand that their work begins and ends with continuous assessment of their students Now she helps readers of her book learn how child centered assessment leads to strategic instruction how to best support multilingual learners how to organize for yearlong learning how to think through precise workshop instruction in minilessons how to develop meaningful curriculum around units of study how to create a vibrant school community where standards and accountability stem from regular assessment and examination of instructional practices Akhavan provides immediately useful information for any elementary teacher principal or curriculum developer Read her book and understand how to use standards as a way to connect meaningful instruction to students not as a bar that students have to reach or a barrier to real teaching and learning

Research in Education ,1974 *Resources in Education* ,1996-07 **Reading/writing Connections in the K-2 Classroom** Leah Mermelstein, 2006 Reading Writing Connections in the K 2 Classroom demonstrates how through careful explicit assessing planning and teaching every student can understand the relationship between reading and writing The text is filled with practical classroom strategies based on both theory and research Focused on the goal of understanding the relationship between reading and writing the text demonstrates how to move students between the two to become more skillful readers and writers In three parts the text explores the essential understandings needed to use the reading writing connection demonstrates how planning helps to use the reading writing connection and outlines teaching strategies to use the connection to strengthen your everyday encounters with students Assessment is integrated into each chapter providing a clear image of what it looks like to assess in the service of student learning Practical ways to integrate phonemic awareness phonics word study and spelling into planning and teaching reading and writing are incorporated throughout Word study is integrated into every chapter to ensure a systematic approach to the topic
