3D Management, an Integral Theory for Organisations in the Vanguard of Evolution Marco A. Robledo, 2020-06-29 If organisations are not working as well as they could it is because they are still being managed by obsolete principles rooted in the Industrial Age Until now management has been a very one dimensional discipline in which only profits mattered Having eyes fixed squarely upon the bottom line has endangered the planet increased inequality and disengaged employees It is an unsustainable situation that calls for the radical redesign of management philosophical foundations This book shows how to liberate organisations from the constraining assumptions and structures that hold them back and how to build more conscious humane efficacious and responsible forms of enterprise 3D Management is an application of Ken Wilber's ground breaking Integral Theory that embodies the next stage of management evolution smarter nimbler wiser fairer and fitter for the forthcoming metamodern times This disruptive theory denies the imperialism of the bottom line and replaces it with a harmonic triumvirate that takes profit people planet and purpose into account equally An integral organisation is made up of three fundamental and irreducible dimensions science arts and ethics which refer respectively to the techno economical developmental and moral aspects of organisational reality These three aspects are woven together into an essential unit by the spiritual dimension which strives for unity and meaning 3D Management is a summum bonum of these four key dimensions to achieve sustainable excellence spur organisational development and create radically engaging workplaces as

well as making a better world The text features more than 60 vanguard organisations harbingers of the teal consciousness that will define the future of management One thing is certain the more a truly integral business catches on the more whole and fulfilled that humanity s future will be And 3D Management will have helped pave the way from Ken Wilber s foreword

Illiberal Vanguard Alexandar Mihailovic,2023-02-14 Recent years have witnessed a growing affinity between increasingly radicalized right wing movements in the United States and Russia countries that only recently viewed each other as intractable foes In Illiberal Vanguard Populist Elitism in the United States and Russia Alexandar Mihailovic untangles this confluence considering ethnonationalist movements in both countries and their parallel approaches to gender race and performative identity Rather than probe specific points of possible contact or political collusion Mihailovic unveils the mirrored styles of thought that characterize far right elitism in two erstwhile enemy nations Mihailovic investigates notable right wing actors like Steve Bannon and Alexander Dugin and targets of right wing ire such as globalization LGBTQ activism and mobilizations to remove controversial statues that honor Confederate generals and Soviet leaders for instance but the argument extends beyond the specifics How and why are radical right wing movements developing along such similar trajectories in two nominally oppositional countries How do religious sectarianism the construction of whiteness and institutionalized homophobia support each other in this transnational informal but powerful allegiance Despite their appeals to populism and flamboyant theatrics Mihailovic argues much of the answer can be found in the mutual desire to justify and organize an illiberal vanguard of elite intellectuals one that supports and advocates for a new authoritarianism **Motor**
