The Myth Awakens Ken Derry, John C. Lyden, 2018-09-13 The trailers for Star Wars The Force Awakens made a strong impression on fans Many were excited by what they saw as a return to the spirit of George Lucas s 1977 creation Others including several white supremacy groups were upset and offended by key differences most notably the shift away from a blond blue eyed male protagonist When the film was finally released reactions similarly seemed to hinge on whether or not The Force Awakens renewed the mythic aspects of the original trilogy in ways that fans approved of The Myth Awakens examines the religious implications of this phenomenon considering the ways in which myth can function to reinforce

traditional social and political values In their analyses the authors of this book reflect on fan responses in relation to various elements of and changes to the Star Wars canon including toys video games and novels as well as several of the films They do so using a variety of critical tools drawing from studies of gender race psychology politics authority music ritual and memory

Philosophy: Themes and Thinkers J. W. Phelan, 2005-04-14 Philosophy Themes and Thinkers is becoming an increasingly popular subject choice at AS and A Level This textbook has been written for students studying the AQA AS and A Level Philosophy syllabus As well as meeting the needs of these students the book is also suitable for students studying the IB Diploma and is an excellent introductory text for undergraduates The book covers key philosophical concepts themes and philosophy texts As well as gaining a thorough grounding in these areas students will develop the ability to analyse and assess philosophical writings form their own judgements and contribute effectively to the process of debate Across Many Borders Shyama P. P. Chakroborty, 2019-02-01 The book recounts the incredible life stories of the author starting with his life as a persecuted minority in the Indian subcontinent where he hopped across many geographical boundaries and socio political religious divides as a destitute refugee in search of his material and spiritual identity before coming to America with just 9 57 in his pocket The transformation from destitute refugee to serving the National Academy of Science the highest scientific body in the U S A is in and of itself an extraordinary tale The book chronicles many of his subsequent awe inspiring successes in America as a pioneering rocket and space scientist including serving on various committees of the venerable National Academy of Sciences and as an adventurer with many extraordinary exploits including swimming the English Channel cosmonaut training and Mig 25 flying in Russia trekking to the North Pole climbing to the base camp of Mount Everest and racing an Indy 500 car at the Fontana Speedway among others His life story is the embodiment of the indomitable human spirit that allowed him to rise from a life of despair as a destitute refugee to scale many extraordinary heights in widely divergent fields proving that the sky is indeed the limit in America the land of opportunity The author examines the minority experiences in other troubled spots all around the world in his attempt to understand the social dynamics that play out with disastrous consequences The book also provides a closer look at the world s contemporary religions in an attempt to understand the immeasurable suffering mankind has endured as a result of intolerance and acrimony towards differing faiths The book includes the author s observations and experiences about the cultural and philosophical differences between the Western and Eastern societies and how it leads to contrasting outlooks and day to day life in different cultures
