**The Economics of US Healthcare: Competition, Innovation, Regulation, and Organizations** Stigler Center,2023-05-01 This eBook was born out of a general diagnosis that the US healthcare sector is not only one of the most studied industries in economics but also one of the areas where the field can make the most progress Indeed the American healthcare industry has many features that are particularly attractive to economists It is one of if not the largest sectors of the US economy accounting for almost 20% of the national Gross Domestic Product and employing tens of millions of workers Firms range from large conglomerates to small providers and there is strong government private sector interaction with federal state and local governments shaping policy The industry also has many failures is undergoing tremendous change and produces a wealth of data even if not always perfectly formatted The field however is far from saturated Healthcare is such a complex and intricate sector one where details matter so much that it is almost its own subfield of economics These high barriers to entry prevent scholars from researching healthcare topics and weaken the cross pollination of ideas an increasing hallmark of many other areas This is problematic not the least because any major advances in healthcare economics literally save lives and billions of dollars This project aimed to help

lower these barriers and kick start broader collaborations

**Elites on Trial** Glenn Morgan,Sigrid Quack,Paul Hirsch,2015-02-18 Elites are on trial firstly for their role in the past and shaping the context for the crisis secondly in terms of how they responded to the crisis and finally in terms of what role they are playing in the aftermath This book is concerned with what happens when elites are challenged by crisis and helps us understand elites on trial

The Trials of Evidence-based Education Stephen Gorard,Beng Huat See,Nadia Siddiqui,2017-06-26 The Trials of Evidence based Education explores the promise limitations and achievements of evidence based policy and practice as the attention of funders moves from a sole focus on attainment outcomes to political concern about character building and wider educational

impacts Providing a detailed look at the pros cons and areas for improvement in evidence based policy and practice this book includes consideration of the following What is involved in a robust evaluation for education The issues in conducting trials and how to assess the trustworthiness of research findings New methods for the design conduct analysis and use of evidence from trials and examining their implications What policy makers head teachers and practitioners can learn from the evidence to inform practice In this well structured and thoughtful text the results and implications of over 20 studies conducted by the authors are combined with a much larger number of studies from their systematic reviews and the implications are spelled out for the research community policy makers schools wanting to run their own evaluations and for practitioners using evidence

Urban China The World Bank;Development Research Center of the State Council,2014-07-29 In the last 30 years China s record economic growth lifted half a billion people out of poverty with rapid urbanization providing abundant labor cheap land and good infrastructure While China has avoided some of the common ills of urbanization strains are showing as inefficient land development leads to urban sprawl and ghost towns pollution threatens people s health and farmland and water resources are becoming scarce With China s urban population projected to rise to about one billion or close to 70 percent of the country s population by 2030 China s leaders are seeking a more coordinated urbanization process Urban China is a joint research report by a team from the World Bank and the Development Research Center of China s State Council which was established to address the challenges and opportunities of urbanization in China and to help China forge a new model of urbanization The report takes as its point of departure the conviction that China s urbanization can become more efficient inclusive and sustainable However it stresses that achieving this vision will require strong support from both government and the markets for policy reforms in a number of area The report proposes six main areas for reform first amending land management institutions to foster more efficient land use denser cities modernized agriculture and more equitable wealth distribution second adjusting the hukou household registration system to increase labor mobility and provide urban migrant workers equal access to a common standard of public services third placing urban finances on a more sustainable footing while fostering financial discipline among local governments fourth improving urban planning to enhance connectivity and encourage scale and agglomeration economies fifth reducing environmental pressures through more efficient resource management and sixth improving governance at the local level

*The Struggle to Reform Our Colleges* Derek Bok,2017-08-28 Why efforts to improve American higher educational attainment haven t worked and where to go from here During the first decade of this century many commentators predicted that American higher education was about to undergo major changes that would be brought about under the stimulus of online learning and other technological advances Toward the end of the decade the president of the United States declared that America would regain its historic lead in the education of its workforce within the next ten years through a huge increase in the number of students earning quality college degrees Several years have elapsed since these pronouncements were made yet the rate of progress has increased

very little if at all in the number of college graduates or the nature and quality of the education they receive In *The Struggle to Reform Our Colleges* Derek Bok seeks to explain why so little change has occurred by analyzing the response of America's colleges the influence of students employers foundations accrediting organizations and government officials and the impact of market forces and technological innovation In the last part of the book Bok identifies a number of initiatives that could improve the performance of colleges and universities The final chapter examines the process of change itself and describes the strategy best calculated to quicken the pace of reform and enable colleges to meet the challenges that confront them

Great Teachers Barbara Bruns, Javier Luque, 2014-10-28 This book analyzes teacher quality in Latin America and the Caribbean which is the key to faster education progress Based on new research in 15 000 classrooms in seven different countries it documents the sources of low teacher quality and distills the global evidence on practical policies that can help the region produce great teachers

Issues in Open Research Data Samuel A. Moore, 2014-12-19 In 2010 the Panton Principles for Open Data in Science were published These principles were founded upon the idea that Science is based on building on reusing and openly criticising the published body of scientific knowledge <http://pantonprinciples.org> and they provide a succinct list of the fundamentals to observe when making your data open Intended for a broad audience of academics publishers and librarians *Issues in Research Data* explores the implications of the Panton Principles through a number of perspectives on open research data in the sciences and beyond The book features chapters by open data experts in a range of academic disciplines covering practical information on licensing ethics and advice for data curators alongside more theoretical issues surrounding the adoption of open data As the book is open access each chapter can stand alone from the main volume so that communities can host distribute build upon and remix the content that is relevant to them Readers can access the online version via the QR code or DOI link at the front of the book

Soft Skills in Education Jaap Scheerens, Greetje van der Werf, Hester de Boer, 2020-08-25 This book examines the global movement of putting more emphasis on students social and emotional development in education It provides some order in the unstructured multitude of desirable socio emotional educational objectives and ambitions that have resulted from this movement and builds on a careful conceptual analysis It starts out by examining the roots of the movement and discusses different emphases Next it makes use of instructional and psychological constructs and theories to arrive at meaningful categorizations of major domains and types of social emotional skills One of the key assumptions is that social and emotional attributes are malleable by means of educational interventions The book reviews available research evidence for this assumption taking into account psychological studies and meta analyses It then creates new evidence based on a new meta analysis which concentrated on the effects of educational interventions on skills associated with the conscientiousness factor of the Big5 taxonomy In the final chapter the book discusses the implications for educational policy and practice a discussion in which attention is given to political and ethical questions about the desirability of treating social and emotional attributes as educational goals

**The Economics**

**of Social Determinants of Health and Health Inequalities** World Health Organization, 2013 This resource book discusses the economic arguments that could and could not be put forth to support the case for investing in the social determinants of health on average and in the reduction in socially determined health inequalities It provides an overview and introduction into how economists would approach the assessment of the economic motivation to invest in the social determinants of health and socially determined health inequities including what the major challenges are in this assessment It illustrates the extent to which an economic argument can be made in favour of investment in 3 major social determinants of health areas education social protection and urban development and infrastructure It describes whether education policy social protection and urban development housing and transport policy can act as health policy Principles and Challenges of Fundamental Methods in Veterinary Epidemiology and Economics Salome Dürr, Victoria J.
