Economic Shocks and Globalisation Elsabé Loots,2024-08-01 Over the 153 year period since 1870 the phenomenon of globalisation has been shaped and reshaped As we look back at the events that shaped our understanding of the process and its momentum before and after the Global Financial Crisis GFC it became clear that the

process of globalisation has changed and continues to evolve which requires a deeper analysis The book answers the question of why the performance of the hyper globalisation period has not continued during the post GFC period after 2010 and what might be expected going forward Apart from the fact that the fourth globalisation wave period between 2010 to the early 2020s has been characterised by a range of global shocks that caused more volatility instability and uncertainty the major economic determinants of globalisation have also slowed markedly The outbreak of the COVID 19 pandemic followed by the geopolitical uncertainty and instability all caused global contagion effects around the world with economic socio economic and geopolitical consequences and responses This book aims to analyse most of these global events and shocks and attempted to gather a deeper understanding of the present drivers of globalisation and what the major trends and shifts are geo economically socio economically and geopolitically The conclusions drawn include that globalisation remains despite the current slowbalisation an integrated process that is globally entrenched yet complex cyclical multifaceted and multiplex This book is aimed at academics in economics political sciences social sciences and may also find an audience among international policymakers and scholars at multilateral institutions such as the World Bank and the United Nations *ECIAIR 2019 European Conference on the Impact of Artificial Intelligence and Robotics* Dr Paul Griffiths ,Dr. Mitt Nowshade Kabir ,2019-10-31 *Assessing Academic Literacy in a Multilingual Society* Albert Weideman,John Read,Theo du Plessis,2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience *Study SA* ,2001
