Carpentry and Building in Late Imperial China Klaas Ruitenbeek, 1996-01-01 This is a study of the world of carpenters and joiners discussing both the technical and the ritual and religious aspects of building. The heart of the book is an annotated translation of the fifteenth-century carpenter's manual *Lu Ban jing*. Numerous illustrations further enhance the value of this book. **California Builder & Engineer**, 1996 **Inventing Hui-neng, the Sixth Patriarch** John J. Jørgensen, 2005 Hui-neng the patriarchal ancestor of all existing Chan-Zen was invented by Shen-hui 684-758 based on a fusion of Buddhist and Confucian themes. This propaganda led to the creation of a large hagiographical literature that determined the trajectory of Chan. Material Virtue Mark Csikszentmihalyi, 2021-09-13 This book reconstructs a neglected episode in the development of Confucianism, one that considerably influenced later Chinese religious thought. *Material Virtue* examines a set of four through-first-century B.C.E. Chinese texts that argue virtue has a physical correlate in the body. Based on both transmitted (e.g. the *Mengzi* or *Mencius*) and recently excavated (e.g. the *Wuxing* or *Five Kinds of Action*) texts, *Material Virtue* describes how the argument addresses challenges to early Chinese religious ethics in part by relying on emerging notions such as the balance of *qi* (pneumas) also found in natural philosophy. **Madhyamaka Thought in China** Liu, 2021-09-13 The history of the Madhyamaka, one of the two main Indian Mahāyāna Buddhist philosophical traditions, began around the second century A.D. with the appearance of the writings of Nāgārjuna and Nāgārjuna's followers. Several of these writings were transmitted to China in the first decade of the fifth century and had exerted a considerable influence on the development of Chinese Buddhist thought. This book examines the three stages of development of Chinese Madhyamaka, focussing attention on the different ways the representative figures of each stage applied basic Madhyamaka principles to deal with the central Buddhist doctrinal issues of their age. The chief aim of this book is to locate an ideological nucleus and to trace a general pattern of transformation referring to which the precise significance of the key theoretical elements and the exact relationship between the main doctrinal aspects of a broad Buddhist intellectual trend can be clearly demonstrated and accurately defined. **Gao Xingjian's Idea of Theatre** Izabella Łabędzka, 2008-08-31 This book argues that Gao

Xingjian's Idea of Theatre can only be explained by his broad knowledge and use of various Chinese and Western theatrical literary artistic and philosophical traditions. The author aims to show how Gao's theories of the theatre of anti illusion theatre of conscious convention of the poor theatre and total theatre of the neutral actor and the actor jester storyteller are derived from the Far Eastern tradition and to what extent they have been inspired by 20th century Euro American reformers of theatre such as Antonin Artaud Bertolt Brecht Vsevolod Meyerhold Jerzy Grotowski and Tadeusz Kantor. Although Gao's plays and theatre form the major subject this volume also pays ample attention to his painting and passion for music as sources of his dramaturgical strategies.

Writing against The State Dominik Declercq, 2021-09-13 This book is about the tension between de facto political power and the claims to intellectual and moral leadership of the shi gentleman class in Early Medieval China. *Shelun* or Hypothetical Discourse is a hitherto neglected Chinese literary genre. The author for the first time places the surviving texts against the political background that accounts for its rise and decline in early medieval China. Comprehensively annotated translations of seven Hypothetical Discourses are placed in the context of their authors' lives and times with an emphasis on the post Han examples of the genre. This thorough study gives insight into this subgenre of fu by which the world of the Chinese gentleman class finds an always ambiguous expression in the rhyme prose texts under review.

The Tapestry of Popular Songs in 16th- and 17th-Century China Kathryn Lowry, 2021-09-20 Popular songs in sixteenth and seventeenth century China form a rich and intriguing body of materials hardly studied so far in the English speaking world. This book is about these songs and their impact on Chinese culture and literary practice. It examines the tapestry books in which popular songs circulated how books shaped readers how books were shaped by a range of literacies and how arrangements of performance texts aided imitation and selection of words or phrases. Publishing histories of the popular song collections bring to light how songs were duplicated for readers among the elite and sub elite. The analysis of how popular songs bring together the high and the low is of special value for literary scholars and intellectual historians and challenges the traditional dichotomy between elite and popular culture.

Telling Stories B. J. ter Haar, 2006 This book analyzes the role of oral stories in Chinese witch hunts. Of interest to historians of oral traditions folklore and witch hunts but also to those working on anti Christian movements and the intersection of popular fears and political history in China.

Translating Science David Wright, 2000 This fascinating richly illustrated account of the translation of Western science particularly chemistry into late nineteenth century China provides new insights both into the lives of the Chinese and foreign translators and into the processes and influences of science translation.

Norms and the State in China Chun-chieh Huang, Erik Zürcher, 2021-09-13 The central theme of this volume is the Chinese concept of chiao hua Transformation by Instruction the ancient idea that moral guidance in all spheres of life is one of the most essential tasks of leadership at all levels from the central government down to local elites. Within this general perspective nineteen scholars of various disciplinary backgrounds have treated topics ranging from the regulation of conspicuous consumption in Ming times to ritualization of

protest in recent times In many cases a surprising degree of cultural continuity can be observed on the other hand due attention has also been paid to clashes between traditional Chinese notably Confucian norms and the demands of modernization in contemporary Chinese society **T'an Ssu-t'ung, 1865-1898** Luke S. K. Kwong, 1996 This study examines the life and thought of T'an Ssu-t'ung in the context of the social intellectual and historical forces of late Ch'ing China It elucidates the process by which T'an and others like he contributed to China's modern transformation
